

## Our Approach

City of Surrey's affordable high-quality preschool programs provide your child with personalized learning and social experiences that set the foundation for future success in school and life.

With a focus on relationships, our play based, best-practice curriculum aligns with the British Columbia Ministry of Education Early Learning Framework. Through careful observation of your child's needs, interests and skills, our responsive curriculum:

- Provides a more engaging learning experience
- Helps your child feel successful and confident

### Discover the Difference

**Quality** As a recipient of the Province of BC's Child Care Award of Excellence, we are committed to providing the highest quality programs, facilities and experiences.

**Value** Our program fees are amongst the lowest in the city with options for discounted and free programs.

**Choice** We offer a wide variety of programs in 52 convenient locations across the city.

**Staff** Our certified Early Child Educators and instructors specialize in leading quality programs to help children reach their full potential in a positive, welcoming and safe environment.

### Preschool

Preschool programs are based on responsive curriculum where the educators offer an exciting, reflective program based on children's interests. Our approach focuses on the five areas of healthy child development: social, emotional, physical, creative and cognitive. Based on our responsive approach, programs include various learning opportunities, engagement in open ended activities, free play and exploration - all concepts that align with the communication, thinking and social

competencies that are the core of the new Provincial school curriculum.

**For 3 year old programs the child must be 3 years old by December 31, 2017.**

**For 4 year old programs the child must be 4 years old by December 31, 2017.**
