The Municipal Manager submitted a report from the Parks and Recreation Administrator and Municipal Engineer concerning correspondence received at the Regular Council meeting held on November 24, 1986, regarding Maple Green Elementary School.

The report indicated that the Home and School Association of Maple Green School brought to the attention of Council, the problem of pedestrian access to Maple Green School for children from the Windermere subdivision west of the creek, which runs through the middle of the subdivision. Presently children have had to find an alternate way to get to school by cutting through private property, but unfortunately, residents have now denied the children access, forcing children to make a seven block detour along 88 Avenue or crossing the creek and walking through heavy brush.
