

The Contract work is expected to start in June 2018 and be completed by October 2018.

## TENDER RESULTS

Tenders for the subject Contract were opened on Friday May 4, 2018 with the following results:

<i>Contractor</i>	<i>Tendered Amount with GST</i>	<i>Corrected Amount</i>
1. McDonald & Ross Const. Ltd. ("McDonald")	\$658,040.25	No Change
2. Double M Excavating Ltd.	\$1,357,218.99	No Change
3. Mission Contractors Ltd.	\$1,365,229.67	No Change

The Engineer's (Urban Systems Ltd.) pre-tender estimate was \$982,800.00 (including GST).

## EVALUATION

The City's consultant reviewed the tender submissions for accuracy and completeness. No errors were found. All submissions included the required 10% bid bond, were signed on the Tender Form, and were initialed on the Summary Sheet of the Schedule of Quantities and Prices.

The low bid received on this Contract is significantly lower than the Engineer's pre-tender estimate, which was based on 2017 tender prices received. Urban Systems Ltd. has reviewed the low bid and did not find any items of concern with McDonald completing the work for the bid amount. The low bidder, McDonald, has bid on other City projects in the past but they were not the successful contractor.

The low bidder, McDonald, has provided a Consent of Surety for a Performance Bond and a Labour & Materials Bond, and agreed to complete the work within 60 working days, as stipulated in the Contract. McDonald's past performance on similar work in other communities has been satisfactory. They have no outstanding legal claims against the City. It is recommended that McDonald be awarded Contract No. 4817-051-11.

## SUSTAINABILITY CONSIDERATIONS

The work of this Contract will support the objectives of the City of Surrey Sustainability Charter 2.0. In particular, the project supports the theme of Ecosystems and Infrastructure. Specifically, this project supports the following Desired Outcomes (DO) and Strategic Direction (SD):

- Ecosystem D02: Surrey actively protects, enhances and restores its natural environment and habitats;
- Ecosystem D05: Surrey takes pride in its rich biodiversity, including fish bearing streams, marine habitat and natural areas such as forests, meadows and wetlands;
- Infrastructure D01: City facilities and infrastructure systems are well managed, adaptable and long lasting, and are effectively integrated into regional systems; and
- All Infrastructure SD1: Proactively manage community assets to maintain them over the long-term in a state of good repair.

## FUNDING

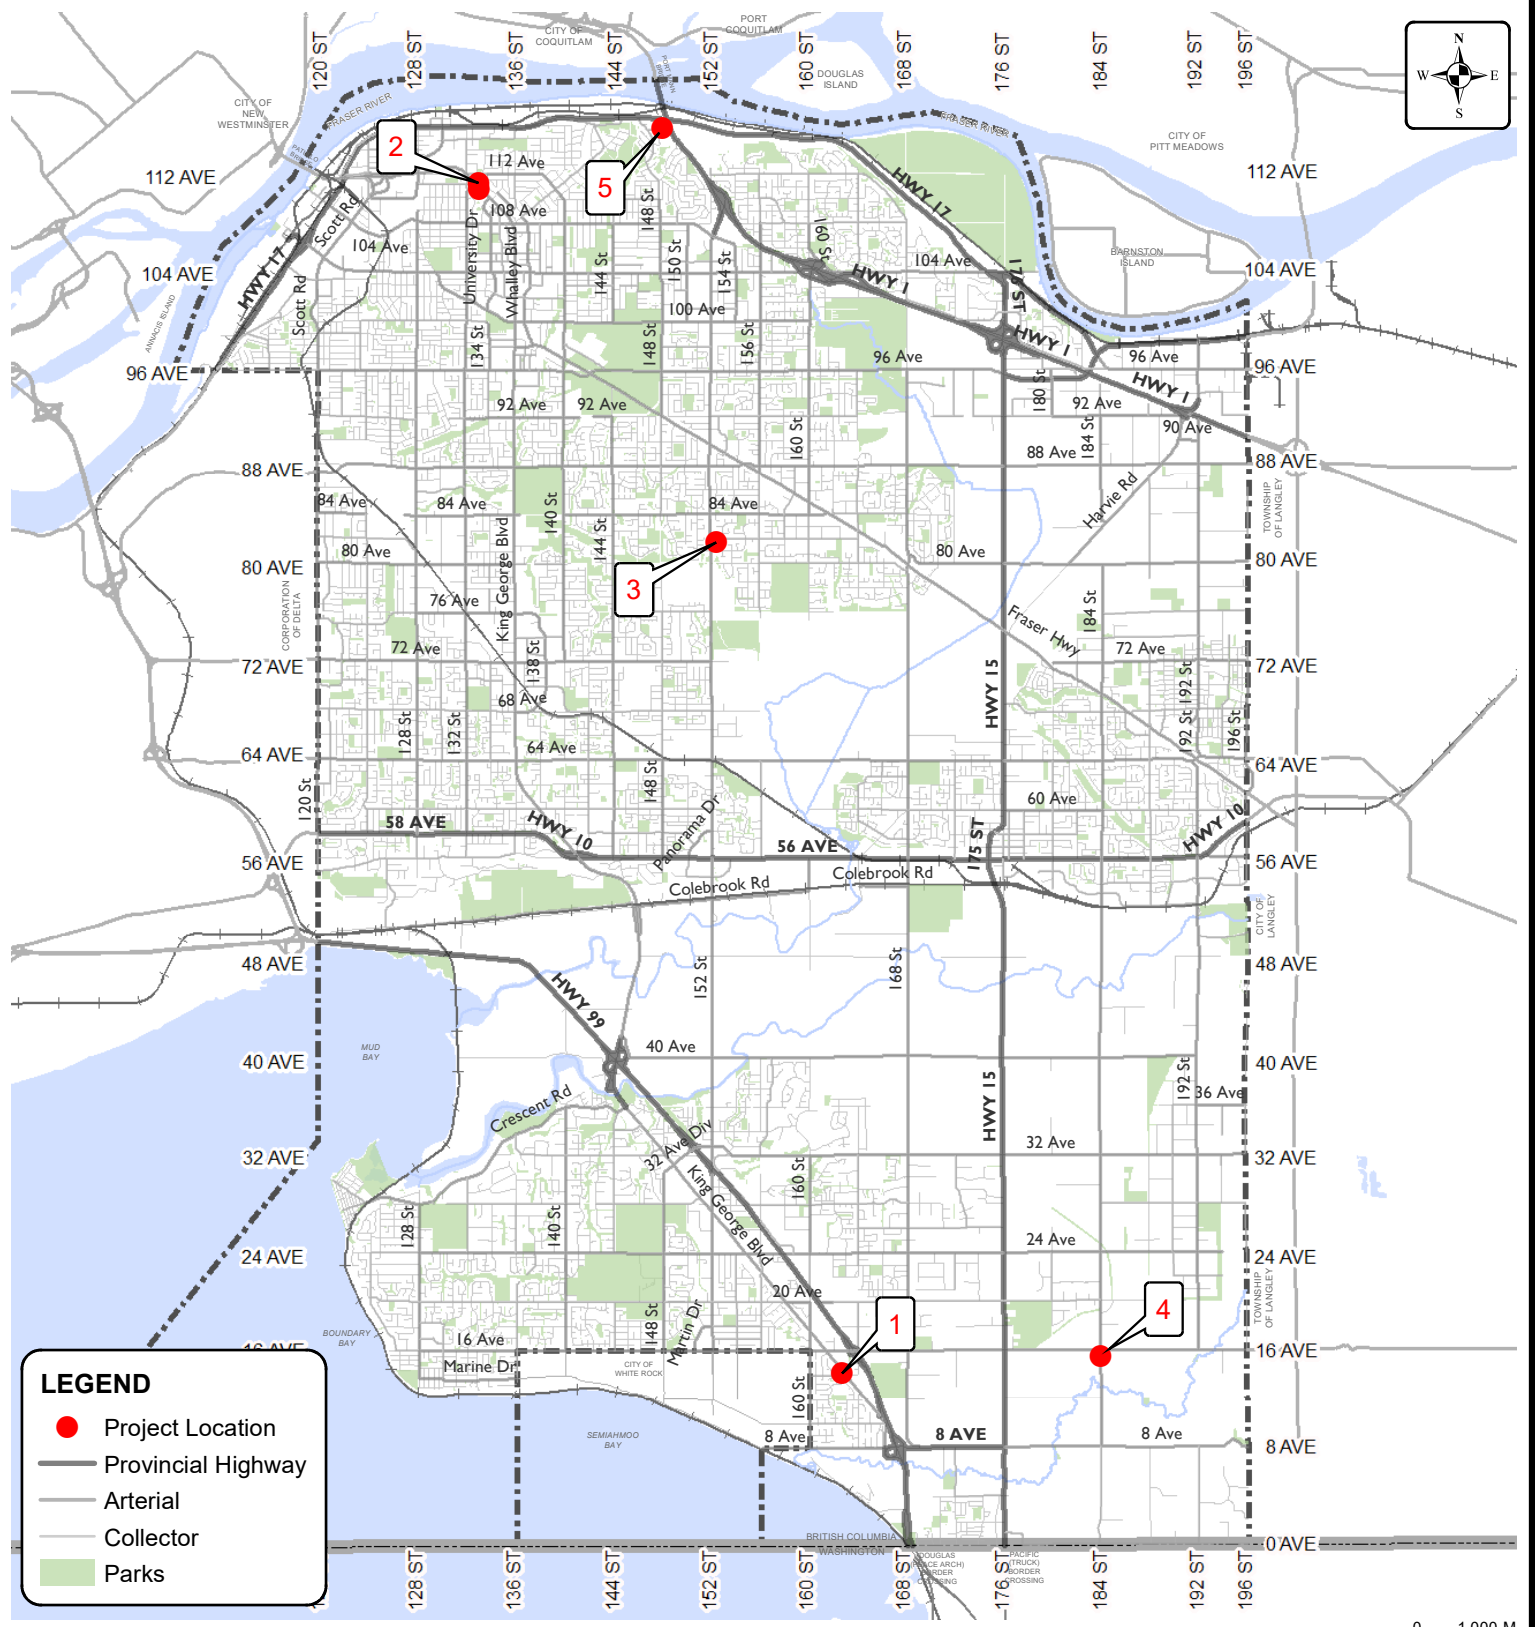

Funding for this Contract is available in the approved 2018 Utilities Budget.

Fraser Smith, P.Eng., MBA  
General Manager, Engineering
