S. Khedra, 17335 – 1A Avenue (Representing Group of Homeowners): Noted 8 homes are developed and have their garages facing 108A Avenue; the issues are with the homes to be built on an extended alley. Have a petition with 24 names noting the residents are against having an alley, if the development is approved by Council, there will be 27 homes on the block with coach houses with backyard garages with a suit on the garage. Many of the properties have multiple suites; expressed concern regarding increased traffic due to densification. Homeowners who signed the petition do not want to have the alleys due to the potential of increased traffic, lack of privacy, negative impact to property values.

Council asked staff to clarify the NCP for the block. Staff noted that the plan shows a partial laneway. The proposed land use is supported by the designation in the NCP. Staff further clarified the properties can have a coach house but not a secondary suite.
It was Moved by Councillor Hunt
Seconded by Councillor Hepner
That the petition with 23 names be received
as information.

RES.R11-2167 Carried

Mike Helle, Coastland Engineering and Surveying Ltd.: Explained total separation between homes in a normal circumstance would be 12 metres; the total setback for the proposed development is 14.4. Further explained the proposed coach homes are only 6 metres wide and have a smaller footprint than a house. Agreed there will be less privacy but noted there are things that can be done with plantings to mitigate concerns. Clarified the proposal increased the setback to gain additional separation and that if there is an RF12 zone, garages must be built in the back unless a variance permit is granted.

Council asked for clarification regarding the setback. Staff relayed that it was a by-law requirement. Council expressed concern that the laneways were not included on the NCP. Staff explained that the zoning necessitated the back lanes to be built and clarified the lane will not be put through until some future date.

D. Pysh, 17369 – 1A Avenue: Expressed concern regarding the 3 metre setbacks for garages. Asked staff to conduct a parking impact study; expressed concern his property value will be decreased due to the proposed development. Noted his garage is only 20’ x 20’ and that two cars will not fit due to the dimensions and the placement of a stairwell.

7. Surrey Zoning By-law, 1993, No. 12000,
Amendment By-law, 2011, No. 17533
Application: 7911-0183-00

CIVIC ADDRESS: 15438 - 26 Avenue

APPLICANT: BMA Properties Ltd.
c/o Aplin & Martin Consultants Ltd. (Maggie Koka)
#201, 12448 - 82 Avenue
Surrey, BC V3W 3E9

PROPOSAL: To rezone the property from "Single Family Residential Zone (RF)" to "Single Family Residential (9) Coach House Zone (RF-9C)".

The purpose of the rezoning is to permit subdivision into 4 single family lots.

The Notice of the Public Hearing was read by the City Clerk. The location of the property was indicated to the Public Hearing.
Concerned Citizen, 15249 - 26 Avenue: Expressed concern regarding increased traffic, removal of trees and lack of sidewalks. Requested thought be given to developing the whole area as one rather than developing in segments.

Staff clarified that the rear lane fronting the development would be constructed and curbs and alleyways would be created. As part of the design process, a survey would be conducted regarding trees. Staff noted that the subject property could be subdivided in a number of ways and explained the applicant felt that RF9C yielded more in terms of designated townhouses; a requirement is to have rear lane access.

APPLICANT: City of Surrey
14245 - 56 Avenue
Surrey, BC V3X 3A2

PROPOSAL: Surrey Official Community Plan By-law, 1996, No. 12900, as amended, is hereby further amended in Section 3.6 Land Use Designation: Allowable Density, as follows:

i. By inserting "1.5**" below "1.5*" in the second column under the Allowable Floor Area Ratio column; and

ii. By inserting below the table after the first footnote (*) a second footnote (**) as follows:

"** Except 10439, 10453, 10461, 10469 and 10487 – 154 Street and any subsequent civic addresses created, multiple residential uses may have a floor area ratio of 1.9."

This amendment will increase the allowable floor area ratio within the Town Centre designation of the subject properties as detailed in Planning Report 7911-0160-00.

The Notice of the Public Hearing was read by the City Clerk. The location of the property was indicated to the Public Hearing.

There were no persons present to speak to the proposed By-law.

#109, 1528 McCallum Road  
Abbotsford, BC V2S 8A3

PROPOSAL:  
**By-law 17528**  
To redesignate 10453, 10461, 10469 and 10487 - 154 Street from Multiple Residential (RM) to Town Centre (TC).

**By-law 17530**  
To rezone the site from "Single Family Residential Zone (RF)" to "Comprehensive Development Zone (CD)".

The purpose of the redesignation and rezoning is to permit the development of 155 units within 3 buildings.

The Notice of the Public Hearing was read by the City Clerk. The location of the property was indicated to the Public Hearing.

T. Lane, Unit 121, 15353 – 105 Avenue: Expessed concern regarding increased traffic and substantial tree removal that will come with the proposed development. Requested the proposed development be scaled down and made more in keeping with the context of the current neighbourhood; have submitted a petition against the proposal.

Staff clarified that part of the application involves amending the NCP Town Centre designation.

Council requested staff to conduct a traffic study in the area before the development moves forward. Staff reiterated the size of the development does not warrant a traffic study and noted the intersection at 105 Avenue is monitored to determine if a pedestrian signal or traffic light is warranted.

B. Guenther, Unit 120, 15353 – 105 Avenue: Noted a problem on 103 Avenue with street parking on either side of the driveway. Expessed concern regarding traffic and vehicle circulation. Noted, with another 155 units, there will be a substantial amount of traffic, there is only one entrance and exit for 104A.
D. Bird, Vancouver, 8490 Elliott Street (Representing Developers): Clarified that 8 feet of frontage was already dedicated, the City has requested another 10 feet which would give 18 feet. Noted there is a 25 foot lane in existence that they suggest would be repaired and built at an improved grade. Approached the neighbours and attempted to work as a comprehensive development to assemble the entire property. On the southern end will be dedicating 46 feet of land to the City. In the future to the west of the property line, another road will be run north and south, the entrance way has been redesigned. The engineering department requested 176 parking spots; the developer has put in 190 spots for the residents. Have done everything that can be done over the last year including meeting with Staff and the Advisory Design Panel. Noted the RM45 Townhouses do not face any rear yards, but face a side yard; are giving a full 7.5 metre setback.

Council asked for clarification on the parking zoning and understood the parking requirement was 254 spots. Staff confirmed parking relaxations were extended for the development due to transit improvements planned.

The delegation further explained that the building is designed in an urban building with smaller, more affordable product. The building has an amenity space and one of the proposed uses is a day-care.

B. Guenther, Unit 120, 15353 – 105 Avenue: Clarified they are concerned about the potential of increased traffic.

Staff clarified because of the grade difference between 104 Avenue and 105 Avenue the driveway can only be located off of 105 Avenue.

C. Hogan, Focus Architecture: Noted the developer is attempting to alleviate traffic by dedicating substantial amount of land. Clarified there is a future street plan that states a some undetermined point in time, directly adjacent would be a new north / south roadway which would become a connector but reiterated it is a long-term street plan vision. Noted with respect to tree retention, they have elected to build a two-storey parking structure which will increase the opportunity to retain more trees than a standard parking garage. The proposed parking structure is a full 7.5 metres from the west property line which will retain 8 significant trees which will continue to provide a buffer; the 15 trees slated for removal will be in favour of road-widening. The developer will be re-planting 105 new trees on the site.
