ADDENDUM No. 2

REQUEST FOR QUOTATIONS (RFQ) NO.: 1220-040-2015-096
TITLE: COLEBROOK ROAD CULVERT REPLACEMENT
ADDENDUM ISSUE DATE: September 1, 2015
DATE: Prefer to receive Quotations on or before
SEPTEMBER 14, 2015

INFORMATION FOR CONTRACTORS

The following information is provided for the above named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the contractor or any subcontractor not being familiar with this addendum. This Addendum No. 2 contains one (1) page in total.

Q1. It shows on the culvert detail a maximum distance of 6.5 meters of cable length between the piles. All the culverts are longer than that. Can we just assume longer cables that run the full length between the headwalls or do we need to install additional piles at 6.5 meter spacing and cover them under the driveways? It would just mean we would have to allow for more piles.

A1. For the 14 metre crossings the cables should run the full length. For the 40 metre crossing, dead men piles should be installed at the 6.5 metre spacing at both ends of the crossing, leaving 27 metres of the crossing free of cabling.

END OF ADDENDUM

All Addenda will become part of the RFQ Documents.
