QUESTIONS AND ANSWERS

Q1: Is there any more information in respect to the work associated with the roof? Will the curbs need to be removed with the existing RTU's and new sleepers roofed in for the condensing units? Is the roof under warranty and if so who is the roofing contractor associated with this assembly?

A1: Refer to Mechanical Addendum #1, item 1.5. Mechanical Addendum #1 can be found in Addendum #3.

Q2: HVAC drawing M102 shows AHU-7 is to be tight to the ceiling. If so two (2) sprinkler lines will/may need to be removed and relocated. Can you clarify if this should be allowed for?

A2: Refer to M201 for Fire Protection scope & notes.
