INFORMATION FOR PRE-QUALIFIED CONTRACTORS

This Addendum is issued to provide answers to questions raised by potential Contractor for the above named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the Contractor not being familiar with this addendum. This Addendum No. 1 contains one (1) page in total.

1. QUESTIONS & ANSWERS

Q1. Refer to Section 2.2.2, Schedule A. If the RFQ it states "The water is to be applied in a method that ensures that the water penetrates the root zone of the plants and avoids runoff". With the large amount of watering areas to be done how does the city suggest we accomplish this by any other means other than flooding the areas and risking much of the water being lost to surface runoff?

A1. The contractor will have to regulate the watering rate of flow so that the water can penetrate down into the soil and limits the surface scouring and runoff with higher volume application rates. This may also mean more diffuse watering techniques so that the splash effect of water hitting the surface is minimized.

Q2. Is the intent of the City to award all watering areas to one contractor?

A2. Please refer to Section 14 – Multiple Contractors, of the RFQ.

END OF ADDENDUM

All Addenda will become part of the RFQ Documents.
