

Erosion and Sediment Control (ESC) Permit Application Checklist

Please be aware that it is important to make sure that you correctly reference the principle Surrey Project Number for which the ESC Permit is a sub-requirement.

ESC Permits that are associated with Servicing Agreements through Land Development are to be submitted at Project Scoping and routed to the assigned Project Manager. Please ensure that you reference the assigned COS project number that has the prefix 78xx –xxxx –xx when you fill out the application paperwork.

ESC Permits that are attached to applications for Soil Deposition/Removal permits should be attached to the Soil Permit application or addressed to the Engineering contact that is assigned to your permit application.

All other ESC Permit submissions including those attached to Building Permits are to be lodged at the Engineering 4W Reception Counter. Please ensure that you correctly reference the BP number that is assigned to your project by the Building Department unless you have already been given the ESC Permit Number by engineering as part of your BP review process.

To ensure that you have submitted a complete ESC Permit application, please refer to the following checklist. Only once all of the following information has been received will your application review commence.

¹ ESC Permits are a conditional requirement of Construction Permits issued by the Engineering or Building Departments, referred to at the Principal Project initiating the ESC Application.

² Indicate the reference number provided by the City of Surrey department responsible for overseeing the construction permit under which the ESC Permit is required. For Soil Permit projects indicate the street address.

³ Identify the receiving watershed/ stream/creek where site storm water runoff will ultimately discharge.

⁴ Identify along which boundary the discharge is leaving the site based on N, NE, E, SE, S, SW, W, and NW.

⁵ It is the responsibility of the applicant to provide the names of all legal registered owners at the time of construction; be it an individual, or individuals of a registered company to whom the property is owned. If corporate ownership, include a copy of a BC Company Summary issued by the BC Ministry of Finance.
