No oral conversation will affect or modify the terms of this RFP or may be relied upon by any Proponent.

No other communication, whether written or oral, from any person will affect or modify the terms of this RFP or may be relied upon by any Proponent. By delivery of a Proposal, Proponent is deemed to have received, accepted and understood the entire RFP, including any and all addenda.

2.8 Examination of Contract Documents (Schedule B –1 and Schedule B –2)

The Contracts that have been adopted by the City for technology projects are included in this RFP solicitation: as **Schedule B-1 (for on-premise implementations)**, and as **Schedule B-2 (for cloud computing implementations)**. Proponents are responsible to review all specifications, requirements, terms and conditions, insurance requirements, and other requirements herein. Proponents should be prepared to enter into a Contract substantially the same as one of the attached Contracts. The Proponents failure to execute a Contract substantially the same as one of the attached Contracts may result in disqualification for future solicitations for this same or similar products/services.

Submittal of a Proposal is agreement to the above condition. Proponents are to price and submit Proposals to reflect all the specifications and requirements in this RFP and terms and conditions substantially the same as those included in this RFP.

Any specific areas of dispute with the attached Contracts must be identified in a Proponent’s Proposal (refer to **Schedule C-1 – Statement of Departures**) and may, at the sole discretion of the City, be grounds for disqualification from further consideration in award of a contract.

If a Proposal contemplates an on-premise implementation, the City anticipates executing three agreements:

- (1) the Contract (the preferred form of which is attached as Schedule B-1 to this RFP), which will cover the Proponent’s provision of professional services;
- (2) a Software License Agreement (“License Agreement”); and
- (3) a Maintenance and Support Agreement (“Support Agreement”).

The City may request that a Shortlisted Proponent submit its preferred License Agreement and Support Agreement.

The terms of the Proponent’s preferred License Agreement and Support Agreement should either not contradict the terms of the Contract, or else such varying terms and requirements should be identified in the Proponent’s Statement of Departures (Schedule C-1 to this RFP).

The terms of a License Agreement and Support Agreement will be consistent with information provided by the Proponent in **Schedule C-3-1 – Ticketing System Requirements Response – of its Proposal**.

The City may consider and may choose to accept some, none, or all Contract modifications that the Proponent has submitted with its Proposal.

Nothing herein prohibits the City, at its sole option, from introducing or modifying contract terms and conditions and negotiating with the Preferred Proponent to align the proposal to City needs, within the objectives of the RFP. The City has significant and critical time frames which frame this initiative; therefore, should such negotiations with the highest ranked, apparent Preferred Proponent fail to reach agreement in a timely manner as deemed by the City, the City, at its sole discretion, retains the option to terminate negotiations and continue to the next-highest ranked Proposal.

2.9 Opening of Proposals

The City intends to open Proposals in private but reserves the right to open Proposals in public at its sole discretion.

2.10 Status Inquiries

All inquiries related to the status of this RFP, including whether or not a Contract has been awarded, should be directed to the City Website and not to the City Representative.

- (f) If a Shortlisted Proponent wishes to rely upon anything said or indicated by the City at the demonstration, the Shortlisted Proponent must submit an inquiry describing the information it would like to have confirmed and request the City provide that information to the Shortlisted Proponents in written form and, if such information relates to a clarification, explanation or change to the RFP, request an addendum clarifying and/or amending the RFP.
- (g) By participating in the demonstration a Shortlisted Proponent confirms its agreement with these procedures and acknowledges that the demonstration is an integral part of the competitive selection process as described in this RFP and is in the interests of all parties.

3.3 Demonstration Schedule

The City is providing this advance, draft agenda in order for Shortlisted Proponents to adequately prepare for their demonstration. Bulk from binders and large packages are unwanted. Vinyl plastic products are unwanted. The City also has an environmentally-preferable purchasing commitment, and seeks a package format to support the green expectations and initiatives of the City.

Please do not use any plastic or vinyl binders or folders. The City prefers simple, stapled paper copies. If a binder or folder is essential due to the size of your Proposal, they should be fully 100% recycled stock.

Proponents are encouraged to respond to the items listed in Schedules C-1 to C-5 in the order listed. Proponents are encouraged to use the forms provided and attach additional pages as necessary.

If a Proponent wishes to offer both an on-premise Solution and a cloud computing Solution, the Proponent may do so in a single Proposal.

A Proposal should include sufficient information to allow the City to verify the total cost for the project and all of the Proponent's claim of meeting the RFP's requirements. Each Proposal should respond to every request for information in the above noted schedules, whether the request requires a simple "yes" or "no" or requires a detailed narrative response. Simply repeating the RFP's requirements and agreeing to comply may be an unacceptable response.

The Proponent may include any additional information it believes is relevant. An identifiable tab sheet should precede each section of a Proposal, and each Proposal should follow the format as set out in this RFP.

4.3 Signature

The legal name of the person or firm submitting the Proposal should be inserted in Schedule C. The Proposal should be signed by a person authorized to sign on behalf of the Proponent and include the following:

- (a) If the Proponent is a corporation then the full name of the corporation should be included, together with the names of authorized signatories. The Evaluation Team will give a written recommendation for the selection of a Preferred Proponent or Preferred Proponents to the City.

5.2 Evaluation Criteria

The Evaluation Team will compare and evaluate all Proposals to determine the Proponent's strength and ability to provide the Ticketing System which is most advantageous to the City, using the following criteria:

(a) Experience, Reputation and Resources

The Evaluation Team will consider the Proponent's responses to items in Schedule C-2.

(b) Proposed Solution

The Evaluation Team will consider the Proponent's responses to Schedule C-3 and Schedule C-4. The City will evaluate Proposals and determine whether a Proponent has met the Ticketing System Requirements in Schedule C-3-1. Proponents must demonstrate to the City, in the City's sole opinion, that the Proponent meets the requirements in Schedule C-3 and Schedule C-4. Those Proponents whom the City has determined, in its sole and absolute discretion, to have met the requirements will be shortlisted.

(c) Financial

The Evaluation Team will consider the Proponent's response to Schedule C-5 including Schedule C-5-1 and C-5-2.

(d) Statement of Departures

The Evaluation Team will consider the Proponent's response to Schedule C-1.

The Evaluation Team will not be limited to the criteria referred to above, and the Evaluation Team may consider other criteria that the team identifies as relevant during the evaluation process. The Evaluation Team may apply the evaluation criteria on a comparative basis, evaluating the Proposals by comparing one Proponent's Proposal to another Proponent's Proposal. All criteria considered will be applied evenly and fairly to all Proposals.

The City's intent is to acquire the solution that provides the best value to the City and meets or exceeds the requirements identified in this RFP.

5.3 Discrepancies in Proponent's Financial Proposal

If there are any obvious discrepancies, errors or omissions in Schedule C-5-1 or Schedule C-5-2 of a Proposal (Proponent's Financial Proposal), then the City shall be entitled to make obvious corrections, but only if, and to the extent, the corrections are apparent from the Proposal as submitted, and in particular:

- (a) if there is a discrepancy between a unit price and the extended total, then the unit prices shall be deemed to be correct, and corresponding corrections will be made to the extended totals;
- (b) if a unit price has been given but the corresponding extended total has been omitted, then the extended total will be calculated from the unit price and the estimated quantity; and
- (c) if an extended total has been given but the corresponding unit price has been omitted, then the unit price will be calculated from the extended total and the estimated quantity.

5.4 Litigation

In addition to any other provision of this RFP, the City may, in its absolute discretion, reject a Proposal if the Proponent, or any officer or director of the Proponent submitting the Proposal, is or has been engaged directly or indirectly in a legal action against the City, its elected or appointed officers, representatives or employees in relation to any matter, or if the City has initiated legal action against any officers or directors of the Proponent.

In determining whether or not to reject a Proposal under this section, the City will consider whether the litigation is likely to affect the Proponent's ability to work with the City, its consultants and representatives and whether the City's experience with the Proponent indicates that there is a risk the City will incur increased staff and legal costs in the administration of the Contract if it is awarded to the Proponent.

5.5 Additional Information

The Evaluation Team may, at its discretion, request clarifications or additional information from a Proponent with respect to any Proposal, and the Evaluation Team may make such requests to only selected Proponents. The Evaluation Team may consider such clarifications or additional information in evaluating a Proposal.

5.6 Interviews

The Evaluation Team may, at its discretion, invite some or all of the Proponents to appear before the Evaluation Team to provide clarifications of their Proposals. In such event, the Evaluation Team will be entitled to consider the answers received in evaluating Proposals. Proponent management and technical personnel will be expected to participate in presentations, demonstrations and/or interviews, which will be made at no cost to the City.

All information and documents provided by the Proponents or gathered by the Evaluation Team during a presentation, demonstration or an interview may be considered by the

Evaluation Team, which may revisit and re-evaluate the Proponent's Proposal or ranking on the basis of such information and documents.

5.7 Multiple Preferred Proponents

The City reserves the right and discretion to divide up the Services, either by scope, geographic area, or other basis as the City may decide, and to select one or more Preferred Proponents to enter into discussions with the City for one or more Contracts to perform a portion or portions of the Services. If the City exercises its discretion to divide up the Services, the City will do so reasonably having regard for the RFP and the basis of Proposals.

In addition to any other provision of this RFP, Proposals may be evaluated on the basis of advantages and disadvantages to the City that might result or be achieved from the City dividing up the Services and entering into one or more Contracts with one or more Proponents.

5.8 Negotiation of Contract and Award

If the City selects a Preferred Proponent or Preferred Proponents, then it may:

- (a) enter into a Contract with the Preferred Proponent(s); or
- (b) enter into discussions with the Preferred Proponent(s) to attempt to finalize the terms of the Contract(s) (and, if applicable, a License Agreement and Support Agreement as described in section 2.8), including financial terms, and such discussions may include:
 - (1) clarification of any outstanding issues arising from the Preferred Proponent's Proposal;
 - (2) negotiation of amendments to the departures to the draft Contract, if any, proposed by the Preferred Proponent as set in Schedule C-1 to the Preferred Proponent's Proposal; and
 - (3) negotiation of amendments to the Preferred Proponent's price(s) as set out in Schedule C-5 to the Preferred Proponent's Proposal and/or scope of Services if:
 - (A) the Preferred Proponent's financial Proposal exceeds the City's approved budget, or
 - (B) the City reasonably concludes the Preferred Proponent's financial proposal includes a price(s) that is unbalanced, or
 - (C) a knowledgeable third party would judge that the Preferred Proponent's price(s) materially exceed a fair market price(s) for services similar to the Services offered by the Preferred Proponent as described in the Preferred Proponent's Proposal; or
- (c) if at any time the City reasonably forms the opinion that a mutually acceptable agreement is not likely to be reached within a reasonable time, give the Preferred Proponent(s) written notice to terminate discussions, in which event the City may then either open discussions with another Proponent or terminate this RFP and retain or obtain the Services in some other manner.

6. GENERAL CONDITIONS

- (a) The City will not necessarily accept the Proposal with the lowest Proposal Price, or any Proposal, and the City reserves the right to reject any and all Proposals at any time, or cancel the RFP process, without further explanation and to accept any Proposal the City considers to be in any way advantageous to it. The City's acceptance of any Proposal is contingent on having sufficient funding for the Solution and a Contract with a Proponent. Proposals containing qualifications will be considered to be non-conforming Proposals in that they will fail to conform to the requirements of the RFP documents and on that basis they may be disqualified or rejected. Nevertheless, the City may waive any non-compliance with the requirements of the RFP documents, specifications or any conditions, including, without limitation, the timing of delivery of anything required by these RFP documents, and the City, at its discretion, may consider non-conforming Proposals and accept a non-conforming Proposal.
- (b) Where the City is of the view, in its sole discretion, that there is an ambiguity or other discrepancy which cannot be discerned or resolved from examining the contents of the Proposal, then whether or not such an ambiguity or discrepancy actually exists on the face of the Proposal, the City may, prior to Contract award, solicit clarification from the Proponent or accept clarification from the Proponent on any aspect of its Proposal. Such clarification may include the acceptance of any further documents or information which will then form part of the Proposal.

The soliciting or accepting of such clarification (whether or not solicited) by the City will be without any duty or obligation on the City to advise any other Proponents or to allow them to vary their Proposal Prices as a result of the acceptance of clarification from any one or more Proponents and the City will have no liability to any other Proponent(s) as a result of such acceptance of clarification.

- (c) If the City considers that all Proposals are priced too high, it may reject them all.
- (d) The City, prior to awarding of any Contract, may negotiate with the Proponent presenting the lowest priced Proposal, or any Proponent, for changes in the Solution, the materials, the specifications or any conditions, without having any duty or obligation to advise any other Proponents or to allow them to modify their Proposal, and the City will have no liability to any Proponent as a result of such negotiations or modifications.
- (e) The City and its representatives, agents, consultants and advisors will not be liable to any Proponent for any claims, whether for costs, expenses, losses, damages, or loss of anticipated profits, or for any other matter whatsoever, incurred by a Proponent in preparing and submitting a Proposal, or participating in negotiations for a final Contract, or other activity related to or arising out of this RFP, including in the event the City accepts a non-compliant Proposal or otherwise breaches the terms of this RFP.
- (f) A pre-award meeting may be conducted with the preferred Proponent prior to award to confirm project details and expectations of the City.
- (g) Proponents are solely responsible for their own expenses in preparing and submitting a Proposal, and for any meetings, negotiations or discussions with the City, or its representatives and consultants, relating to or arising from the RFP. The City will not be liable to any Proponent for any claims, whether for costs, expenses, losses or damages, or loss of anticipated profits, incurred by the Proponent in preparing and submitting a Proposal, or participating in negotiations for a contract, or other activity related to or arising out of this RFP.

SCHEDULE A – SCOPE OF SERVICES

PROJECT TITLE: PARKING TICKET MANAGEMENT SOLUTION SYSTEM

1. SCOPE OF SERVICES

The City of Surrey is inviting Proponents to submit Proposals that provide a Solution for managing vehicle based offenses that are currently being issued by the City. These ticket types include parking and commercial vehicle infractions. The Solution must also provide 15 associated peripheral devices, or a recommendation for which devices to purchase that are best suited for the Ticketing System.

Current State

The City's current parking and commercial vehicle ticketing system is at the end of its intended life, and requires replacement (the "End of Life System"). The End of Life System consists of an enterprise level software application and seven handheld field devices.

Parking Enforcement Officers (PEO) and Commercial Vehicle Enforcement Officers are responsible for ensuring compliance of City bylaws related to the use of City streets. This includes parking regulations, truck routes and the movement of large commercial vehicles. The Highway & Traffic Bylaw No. 13007 regulates the use of all City of Surrey streets.

PEO' enforce on-street parking regulations seven days a week and 16 hours per day. They also enforce 15 on-street pay parking zones throughout the City of Surrey that have hourly and daily parking rates. Patrons are responsible for purchasing a ticket from the pay station on-site, or paying by phone/web via the 'Passport Canada' parking app. PEO's issue approximately 50,000 tickets annually.

Complaints and requests for enforcement are received through our Parking Complaints Call Centre. As complaints are captured, Parking Officers are assigned to the file and dispatched to investigate the concerns and issue tickets when required.

Inquiries and payments can be processed online through the City's web portal, in person and over the phone. The City offers an early payment option on infractions. This option allows ticket recipients to pay a reduced fine amount if paid within a set amount of business days from the date of issue of the infraction notice. Recipients must pay the set fine amount if payments are made after the set date. Alternatively, inquiries and payments can also be made over the phone, and in person at City Hall.

Individuals have the opportunity to dispute their violations through our Adjudication process. Currently, individuals can submit their parking violation dispute on the City's web portal and a screening officer reviews the details and either cancels the ticket or marks the dispute as denied. If denied, the disputant can either pay the balance on the notice or proceed to an adjudication hearing where they can present their evidence to the appointed adjudicator.

Target State

The City of Surrey desires a complete Solution that contains the ability for citation issuance, processing, collection, adjudication, reporting and hardware and software maintenance. The Ticketing System will be utilized by several groups of City staff, including, Parking Enforcement Officers, Bylaw Enforcement Officers, and back-office clerks.

The requirements identified below have been categorized according to the areas the City will focus on with regards to ticket management.

A. Back-office

City employees, who are situated at City Hall, play an integral role within the ticketing lifecycle. The following are some examples of areas where back-office staff may interact with the Ticketing System:

- Data Entry – Back-office staff currently require the ability to manually key in ticketing related information, as well as manually key in any tickets that have been manually created.
- Payment – staff require the ability to accept and process payment across a variety of different payment streams.
- Ticket Enquiry – call centre staff currently facilitate internal and external processes by being able to inquire upon captured ticketing data.
- Ticketing – staff currently assist in the ticketing process by identifying tickets.

B. Field Use

It is the duty of the Parking Enforcement Officers to attach a ticket to a vehicle that has been parked in violation of a by-law and to instruct such owner or operator as to the penalty applicable. Currently, Parking Enforcement Officers use Windows based handhelds with Bluetooth printers to issue parking tickets and Bylaw Enforcement Officers hand write Commercial Vehicle infractions. Both types of officers work two shifts a day (morning/evening shift). The current handhelds have a battery life of 12 hours with occasional use and the printers last all day as they are only used to print the tickets. The officers predominately use the touch screen option with the stylus to input parking infraction details.

C. Tools and Processes

Reporting – The City leverages the data captured from POSSE and its End of Life System for reporting purposes, but often with difficulty. The desire for the City is to be able to easily generate reports, through predefined and ad-hoc methods, across all datasets captured by the Ticketing System.

Integration – The City leverages various enterprise level applications to support the services that are provided. There is a desire to continue utilizing this infrastructure, and ensure any new enterprise additions continue to integrate with these existing solutions.

2. TICKETING SYSTEM REQUIREMENTS

The requirements for this RFP are divisible into three general categories: functional requirements, technical requirements and security requirements (the “**Ticketing System Requirements**”), all as described in Schedule A-1. The security requirements are further divisible into general, web application, mobile application, and cloud.

Proponents’ Proposals will be evaluated based upon the suitability of their proposed Solution(s) in relation to the Ticketing System Requirements. The functional requirements generally list the City’s desired/preferred or required general Ticketing System functionality. The technical requirements list the City’s desired or required general Ticketing System functionality in areas such as integration, user interface, analytics and reporting, and others. Most of the functional and technical requirements are preferred or highly preferred by the City, and Proponents will be evaluated on their ability to meet those requirements.

As part of their Proposal, Proponents should submit Schedule C-3-1 (Ticketing System Requirements Response), which is available as a separate attachment to this RFP, after filling-in the spreadsheet’s two right-most columns. Specifically, the Proponent should indicate if their Solution complies with each requirement by selecting the appropriate response code in the response code field, and also provide a description in the comments field that explains how their Solution meets each requirement. **Some of the Ticketing System Requirements are identified as mandatory, and must be met for the Proponent’s Solution to be considered.**

If a Proponent’s proposed Solution has a cloud computing component (SaaS, PaaS, IaaS, or other), the Proponent should also respond to the cloud security and cloud service level requirements in the Ticketing System Requirements Response (Sch. C-3-1).

Non-exclusivity. Nothing herein shall be deemed to preclude the City from retaining the services of other persons or entities undertaking the same or similar functions as those undertaken by Contractor hereunder.

The City acquires the right to use the Services acquired under this agreement at any location under the direct control of the City.

2.7 Marks

- 2.7.1 Marks shall mean the trademarks and/or trade names of Contractor as licensed to City hereunder.

2.8 Acceptance Testing

- 2.8.1 For purposes of acceptance of the Software solution (or portions thereof), the City intends to use the following staged acceptance procedure. All timeframes specified in the following procedures may be amended by the Time Schedule.

A. Written Deliverable: The Contractor should submit interim drafts of a written deliverable to the City for review. The City agrees to review and provide comments to the Contractor on each draft within ten (10) business days after receiving it from the Contractor. The City agrees to notify the Contractor in writing by the end of this time period either stating that the written deliverable is accepted in the form delivered by the Contractor or describing in reasonable detail any substantive deficiencies that must be corrected prior to acceptance of the written deliverable. If the Contractor does not receive any such deficiency notice from the City by the end of this time period, the written deliverable will be deemed to be accepted and an approved document marked "Provisionally Approved" and dated will be provided to the City. If the City delivers to the Contractor a timely notice of deficiencies and the items specified in the notice are deficiencies, the Contractor will promptly correct the described deficiencies and return to the City for approval. The City will not unreasonably withhold, delay or condition its approval of a final written deliverable.

- 2.8.2 The Contractor is responsible for tracking status of each deliverable including but not limited to the date in which it was submitted to the City and date returned.

B. Software Deliverable: Acceptance testing is an iterative process designed to determine whether the Software deliverable performs the functions described in its approved Specifications and to discover and remove defects through repeated testing cycles. In the event of conflicts between Specifications and Software Documentation the Specifications will prevail.

- 2.8.3 The Contractor will work with the City and make a good faith effort to develop a test plan with the requisite details, understanding the level of detail required may change depending on the complexity of the requested software deliverable and to test each software deliverable.

1. Software Acceptance: For each Software deliverable the City will have five (5) business days unless an alternate time is mutually agreed upon between Contractor and City. The Software acceptance test period for each Software deliverable will start within five (5) business days, unless an alternate start date is mutually agreed upon by the Contractor and the City, after the Software deliverable is installed at the City's designated site and the Contractor has successfully completed the Contractor's installation test and notified the City that the Software deliverable is ready for testing. The Contractor will not be obligated to deliver a Software deliverable to City until the City demonstrates the readiness of the target technical platform and environment.

2. If the City determines during the Software acceptance test period that the Software deliverable contains a defect, the City will promptly send the Contractor a written notice

reporting the alleged defect describing it to the Contractor in sufficient detail reasonably necessary for the Contractor to recreate it. The Contractor will modify the Software deliverable to remove the reported defect and will provide the modifications to the City for re-testing. The City will then re-test the modified portions of the Software deliverable promptly after receiving the modifications from the Contractor.

3. By the end of the Software acceptance testing period the City will provide the Contractor with a final written list reporting any outstanding defects. The City will have ten (10) business days after the receipt of the modifications to re-test the modified Software deliverable to confirm that the defects that were reported have been removed. If any defects that were reported have not been removed, the City will provide the Contractor with written notification by the end of the retesting period reporting any such defects.

4. The Contractor and the City each agrees to work diligently to achieve acceptance of Software deliverable at the earliest possible date.

2.9 Training

2.9.1 The Contractor shall provide a training plan in accordance with Appendix [], a future Appendix.

2.9.2 The City reserves the right to video and/or audio tape any and all training sessions, whether held at the City or the Contractor's site, or via teleconference. Use of such training tapes shall be strictly for City staff training purposes.

2.10 Warranties, Representations and Covenants

2.10.1 Warranty of the Software Solution

Commencing on the date that the City issues its notice of final acceptance, and extending for a period of one (1) year, the Contractor warrants that the Software furnished hereunder shall be free from programming errors and that the Software and hardware (if any) shall be free from defects in workmanship and materials and shall operate in conformity with the performance capabilities, scope of Services, functions and other descriptions and standards applicable thereto and as set forth in this agreement; that the Services shall be performed in a timely and professional manner by qualified professional personnel; and that the services, Software and hardware (if any) shall conform to the standards generally observed in the industry for similar services, Software and hardware. If the Contractor is not the original Software or hardware manufacturer, the Contractor shall obtain in writing the manufacturer's consent to pass through all Software and hardware warranties for the City's benefit. During this warranty period, the Contractor shall replace or repair any defect appearing in the Software or hardware, or deficiency in Service provided at no additional cost to the City. The Contractor's liability shall extend to all liabilities, losses, damages, claims and expenses incurred by the City caused by any breach of any of the above warranties.

2.10.2 Warranty Against Planned Obsolescence

The Contractor warrants that the Services proposed to and acquired by the City under this agreement are new and of current manufacture, and that it has no current plans for

announcing a replacement line that would be marketed by Contractor as a replacement for any of the Goods and/or Services provided to the City under this agreement and would result in reduced support for the product line within which the <<insert type of software opportunity>>Software solution furnished to the City is contained. The Contractor further warrants that, in the event that a major change in hardware, software, or operating system occurs that radically alters the design architecture of the System and makes the current design architecture obsolete within five (5) years after full execution of this agreement, and if the City continues its annual maintenance contract with the Contractor, the Contractor shall provide the City with a replacement hardware, software, or operating system(s) that continues the full functionality of the systems, at no extra cost to the City.

2.10.3 Title Warranty and Warranty Against Infringement

The Contractor represents and warrants that it has the right to grant the licenses set forth under this agreement. The Contractor further represents and warrants that it has good and marketable title to the Software and any Equipment sold hereunder free and clear from all liens, encumbrances, and claims of infringement of patent, copyright, trade secret or other proprietary rights of third parties. The Contractor further represents and warrants that neither the Software in the form delivered and installed by the Contractor, nor any modifications, enhancements, updates or upgrades thereto, nor the normal use thereof by the City, will infringe any patent, copyright, trademark, trade secret or other proprietary right of any third party.

In the event that any third party makes a claim or files a lawsuit challenging the City's right to use the Software or equipment (if any), the Contractor shall defend and indemnify the City and hold it harmless for any and all losses, liabilities, judgments, damages, awards and costs (including legal fees and expenses) arising out of said claim or lawsuit, and for any monies paid in settlement thereof. In resolving any such infringement claim, the Contractor shall, in its reasonable discretion, either procure a license to enable the City to continue to use the Software or develop or obtain a non-infringing substitute acceptable to City at the Contractor's cost.

The Contractor represents and warrants that the Software and related products as described with this agreement will perform in accordance with all Documentation, contract documents, Contractor marketing literature, and any other communications attached to or referenced in this agreement.

The Contractor represents and warrants that the Software and related products, including all modifications contracted under the terms of this agreement, will meet the requirements of the City as set forth in the Contract Documents.

The City has: (i) presented detailed technical specifications of the particular purpose for which the Software is intended; (ii) provided detailed descriptions and criteria of how the Software can be defined to accomplish a particular purpose; and (iii) defined the exact procedures and techniques to be employed in testing whether the Software has achieved the defined performance of this particular purpose. Given this advanced preparation concerning, and documentation about, the City's particular purpose, the Contractor, at the time this agreement is in force, has (1) reason and opportunity to know

the particular purpose for which the Software is required, and (2) that the City is relying on the Contractor's experience and knowledge of the Software to identify those components which are most suitable and appropriate. Therefore, the Contractor warrants that the Software included in this agreement is fit for the purposes for which it is intended as described in this agreement.

The Contractor represents and warrants that all products provided under this agreement are compatible with and certified for use and operation in City's operating environment.

2.10.4 Continuity of Warranty

The City may continue the warranty protection described above by purchasing and paying for on-going annual support services described below. By doing so, all warranty, warranty of fitness for a particular use, and resolution and response time warranty conditions above shall remain in effect, in perpetuity (except for the "Third party hardware" clause above), as long as payments for annual support are kept current.

2.10.5 Final Acceptance of the System

The Software proposed shall be defined to be finally accepted by the City after the installation of the training, and successful completion of the following performance examinations: software performance examination, system functional competence examination, system capacity examination, full-load processing capacity examination, system availability examination, approval of as-built, training, and system documentation. The City and its consultants shall be the sole judge of whether all conditions for final acceptance criteria have been met.

2.10.6 No Liens

The Contractor warrants that the Software and Equipment is the sole and exclusive property of the Contractor and that the Contractor is authorized to provide full use of the Software to the City as provided herein and that such Software is not subject to any lien, claim or encumbrance inconsistent with any of the City's rights under this agreement and that the City is entitled to and shall be able to enjoy quiet possession and use of the Software and Equipment without interruption by the Contractor or any other person making a claim under or through the Contractor or by right of paramount title.

2.10.7 Maintenance Services Warranty

The Contractor warrants that, in performing the Services, the Contractor shall strictly comply with the descriptions and representations as to the Services, including performance capabilities, accuracy, completeness, characteristics, configurations, standards, function and requirements, which appear in this Agreement. Its products shall be uniform in appearance and clean and presentable in accordance with generally applicable standards in the industry. Errors or omissions committed by the Contractor in the course of providing Services shall be remedied by the Contractor at its own expense.

2.10.8 Date Warranty

The Contractor warrants that all Software provided under this Agreement: (a) does not have a life expectancy limited by date or time format; (b) will correctly record, store, process, present calendar dates; (c) will lose no functionality, data integrity, or performance with respect to any date; and (d) will be interoperable with other software used by City that may deliver date records from the Software, or interact with date records of the Software (“Date Warranty”). In the event a Date Warranty problem is reported to the Contractor by City and remains unresolved after three calendar days, at City’s discretion, the Contractor shall send, at the Contractor’s sole expense, at least one qualified and knowledgeable representative to City’s premises. This representative will continue to address and work to remedy the failure, malfunction, defect, or nonconformity on City’s premises. This Date Warranty shall last perpetually. In the event of a breach of any of these representations and warranties, the Contractor shall indemnify and hold harmless the City from and against any and all harm, injury, damages, costs, and expenses incurred by the City or a customer of the City arising out of said Breach.

2.10.9 Physical Media Warranty

The Contractor warrants to the City that each licensed copy of Software provided by the Contractor is and will be free from physical defects in the media that tangibly embodies the copy (the “Physical Media Warranty.”). The Physical Media Warranty does not apply to defects discovered more than thirty (30) calendar days after the date of acceptance of the Software copy by the City. The Contractor shall replace, at the Contractor’s expense, including shipping and handling costs, any Software copy provided by the Contractor that does not comply with this Warranty.

2.11 Software Upgrades and Enhancements

2.11.1 The Contractor shall supply:

- (a) at no additional cost updated versions of the Software to operate on upgraded versions of operating systems, upgraded versions of firmware, or upgraded versions of web browsers;
- (b) at no additional cost interface modules that are developed by the Contractor for interfacing the Software to other Software products; and
- (c) at no additional cost updated versions of the Software that encompass improvements, extensions, maintenance updates, error corrections, or other changes that are logical improvements or extensions of the original Software supplied to the City.

2.11.2 Unless otherwise mutually agreed to in writing, the Contractor shall maintain any and all Third party Software products at their most current version and at no additional charge. However, the Contractor shall not maintain any Third-party Software versions, including one version back, if any such version would prevent the City from using any functions, in whole or in part, or would cause deficiencies in the system. Any additional costs that are charged by a Third-party Software manufacturer for an upgrade to a Third-party Software product that is not covered by such product’s maintenance agreement shall be charged to and paid for by the Contractor.

2.11.3 Enhancements

The Contractor shall provide the City with all Enhancements and associated documentation that are provided as general releases to the Software, in whole or in part, as part of the service. Such Documentation shall be adequate to inform the City of the problems resolved including any significant differences resulting from the release which are known by the Contractor. The Contractor warrants that each such Enhancement general release shall be tested and perform according to the requirements. The Contractor agrees to correct corrupted Data that may result from any system deficiency introduced by the Enhancement at no cost to the City. Enhancements to correct any deficiency shall be provided to the City at no additional cost. Should the Contractor not be able to correct the Deficiency so that it complies with the requirements specified in Schedule A to the City's reasonable satisfaction in a timely manner, the City may terminate this Agreement.

The Contractor will be solely liable for the wages, fringe benefits, work schedules and work conditions of any partners, employees or sub-contractors.

5. FEES

6.1 City Information

The City will, in co-operation with the Contractor, make efforts to make available to the Contractor information, surveys, and reports which the City has in its files and records that relate to the delivery of the Services. The Contractor will review any such material upon which the Contractor intends to rely and take reasonable steps to determine if that information is complete or accurate. The Contractor will assume all risks that the

If the City believes in good faith that some portion of the Services has not been completed satisfactorily, the City may require the Contractor to correct such work prior to the City making any payment. In such event, the City will provide the Contractor with an explanation of the concern and the remedy that the City expects. The City may withhold from any payment that is otherwise due, an amount that the City in good faith finds to be under dispute, of if the Contractor does not provide a sufficient remedy. The City may retain the amount equal to the cost to the City for otherwise correcting or remedying the work not properly completed.

7. INTELLECTUAL PROPERTY INFRINGEMENT INDEMNIFICATION

7.1 Contractor shall indemnify, defend and hold City harmless from any and all actions, proceedings, or claims of any type brought against City alleging that the Services and/or Documentation or City's use of the Services and/or Documentation constitutes a misappropriation or infringement upon any patent, copyright, trademark, or other proprietary right or violates any trade secret or other contractual right of any Third Party. Contractor agrees to defend against, and hold City harmless from, any claims and to pay all litigation costs, all reasonable attorneys' fees, settlement payments and all judgments, damages, costs or expenses awarded or resulting from any claim. City shall, after receiving notice of a claim, advise Contractor of it. City's failure to give Contractor timely notification of said claim shall not effect Contractor's indemnification obligation unless such failure materially prejudices Contractor's ability to defend the claim. City reserves the right to employ separate counsel and participate in the defense of any claim at its own expense.

7.2 If the Services and/or Documentation, or any part thereof, is the subject of any claim for infringement of any patent, copyright, trademark, or other proprietary right or violates any trade secret or other contractual right of any Third Party, or if it is adjudicated by a court of competent jurisdiction that the Services and/or Documentation, or any part thereof, infringes any patent, copyright, trademark, or other proprietary right or violates any trade secret or other contractual right of any Third Party, and City's use of the Services and/or Documentation, or any part of it, is enjoined or interfered with in any manner, Contractor shall, at its sole expense and within thirty (30) calendar days of such injunction or interference, either: (a) procure for City the right to continue using the Services and/or Documentation free of any liability for infringement or violation; (b) modify the Services and/or Documentation, or parts thereof, with non-infringing Services and/or Documentation of equivalent or better functionality that is reasonably satisfactory to City; or (c) replace the Services and/or Documentation, or parts thereof, with non-infringing

- 7.3 Contractor shall have no obligation to indemnify City for a claim if: (a) City uses the Services in a manner contrary to the provisions of this Agreement and such misuse is the cause of the infringement or misappropriation; or (b) City's use of the Services in combination with any product or system not authorized, approved or recommended by Contractor and such combination is the cause of the infringement or misappropriation.
- 7.4 No limitation of liability set forth elsewhere in this agreement is applicable to the Intellectual Property Infringement Indemnification set forth herein.

8. INSURANCE AND DAMAGES

8.1 Indemnity

- 8.1.1 The Contractor will indemnify and save harmless the City and all of its elected and appointed officials, officers, employees, servants, representatives and agents (collectively the "**Indemnitees**"), from and against all claims, demands, causes of action, suits, losses, damages and costs, liabilities, expenses and judgments (including all actual legal costs) for damage to or destruction or loss of property, including loss of use, and injury to or death of any person or persons which any of the Indemnitees incur, suffer or are put to arising out of or in connection with any failure, breach or non-performance by the Contractor of any obligation of this agreement, or any wrongful or negligent act or omission of the Contractor or any employee or agent of the Contractor.
- 8.1.2 City hereby agrees to indemnify and hold Contractor and its affiliates, sub-contractors and agents (and each of their respective shareholders, officers, directors, employees and Contractors) harmless from and against any and all third party claims and resulting losses and damages including, but not limited to, reasonable legal fees, fines and expenses, resulting from, relating to or arising out of (i) any Software and documents, including but not limited to infringement of Intellectual Property Rights thereby (except to the extent such infringement is covered by Contractor's indemnity under Section 8.1), (ii) any breach of the terms and conditions of this agreement by City or (ii) the negligence or wilful misconduct of the City or its directors, officers, employees, contractors or agents.

8.2 Survival of Indemnity

- 8.2.1 The indemnity described in section 8.1.1 will survive the termination or completion of this agreement and, notwithstanding such termination or completion, will continue in full force and effect for the benefit of the Indemnitees.

8.3 Limitation of Liability

- 8.3.1 In no event shall either party be liable for any loss of data, procurement costs, loss of profits, loss of use or for any other consequential, indirect, exemplary, special or incidental damages arising under or in connection with this Agreement, even if the other party has been advised of the possibility of such damages.

8.4 Contractor's Insurance Policies

- 8.4.1 The Contractor will, without limiting its obligations or liabilities and at its own expense, provide and maintain throughout this agreement the following insurances in forms and amounts acceptable to the City from insurers licensed to conduct business in Canada:
- (a) commercial general liability insurance on an occurrence basis, in an amount not less than five million (\$5,000,000) dollars inclusive per occurrence against death, bodily injury and property damage arising directly or indirectly out of the work or operations of the Contractor, its employees and agents. The insurance will include cross liability and severability of interests such that the coverage shall apply in the same manner and to the same extent as though a separate policy had been issued to each insured. The insurance will include, but not be limited to: premises and operators' liability, broad form products and completed operations, owners and Contractors protective liability, blanket contractual, employees as additional insureds, broad form property damage, non-owned automobile, contingent employers liability, personal injury, and incidental medical malpractice. Such evidence will be in the form of a completed certificate of insurance acceptable to the City. The Contractor will, on request from the City, provide certified copies of all of the Contractor's insurance policies providing coverage relating to the Services, including without limitation any professional liability insurance policies. All required insurance will be endorsed to provide the City with thirty (30) days advance written notice of cancellation or material change restricting coverage. To the extent the City has an insurable interest, the builder's risk policy will have the City as first loss payee. The Contractor will be responsible for deductible amounts under the insurance policies. All of the Contractor's insurance policies will be primary and not require the sharing of any loss by the City or any insurer of the City.

8.6 Contractor Responsibilities

- 8.6.1 The Contractor acknowledges that any requirements by the City as to the amount of coverage under any policy of insurance will not constitute a representation by the City that the amount required is adequate and the Contractor acknowledges and agrees that the Contractor is solely responsible for obtaining and maintaining policies of insurance in adequate amounts. The insurance policy coverage limits shall not be construed as relieving the Contractor from responsibility for any amounts which may exceed these limits, for which the Contractor may be legally liable.

8.7 Additional Insurance

- 8.7.1 The Contractor shall place and maintain, or cause any of its subcontractors to place and maintain, such other insurance or amendments to the foregoing policies as the City may reasonably direct.

8.8 Waiver of Subrogation

Upon receipt of such notice, the Contractor will perform no further Services other than the work which is reasonably required to terminate the Services and return the City's property to the City. Despite any other provision of this agreement, if the City terminates this agreement before the completion of all the Services, the City may pay to the Contractor all amounts owing under this agreement for Services provided by the Contractor up to and including the date of termination, plus reasonable termination costs in the amount as determined by the City in its sole discretion. Upon payment of such amounts no other or additional payment will be owed by the City to the Contractor, and, for certainty, no amount will be owing on account of lost profits relating to the portion of the Services not performed or other profit opportunities.

9.2 Termination for Cause

- 9.2.1 The City may terminate this agreement for cause as follows:
- (a) If the Contractor is adjudged bankrupt, or makes a general assignment for the benefit of creditors because of its insolvency, or if a receiver is appointed because of its insolvency, the City may, without prejudice to any other right or remedy the City may have, terminate this agreement by giving the Contractor or receiver or trustee in bankruptcy written notice; or
 - (b) If the Contractor is in breach of any term or condition of this agreement, and such breach is not remedied to the reasonable satisfaction of the City within 5 days after delivery of written notice from the City to the Contractor, then the City may, without prejudice to any other right or remedy the City may have, terminate this agreement by giving the Contractor further written notice.
- 9.2.2 If the City terminates this Agreement as provided by this Section, then the City may:

Nothing in this Agreement will be interpreted or construed to mean that the non-defaulting party has any duty or obligation to remedy any default of the defaulting party. Parties agree to act reasonably and diligently to remedy issues.

10. APPLICABLE LAWS

10.1 Applicable Laws

- 10.1.1 This agreement will be governed by and construed in accordance with the laws of the Province of British Columbia. The City and the Contractor accept the jurisdiction of the courts of British Columbia and agree that any action under this Agreement be brought in such courts.

- 10.3.1 The Contractor will, as a qualified and experienced professional, interpret laws and regulations applicable to the performance of the Services. If an authority having jurisdiction imposes an interpretation which the Contractor could not reasonably have verified or foreseen prior to entering into this Agreement, then the City will pay the additional costs, if any, of making alterations to the required interpretation.

11. CONFIDENTIALITY AND DISCLOSURE OF INFORMATION

11.1 No Disclosure

- 11.1.1 Except as provided for by law or otherwise by this Agreement, the Contractor and the City will keep strictly confidential any information supplied to, obtained by, or which comes to the knowledge of the Contractor and the City as a result of the performance of the Goods and Services and this agreement, and will not, without the prior express written consent of the Contractor and the City, publish, release, disclose or permit to be disclosed any such Confidential Information to any person or corporation, either before, during or after termination of this Agreement, except as reasonably required to complete the Services. The City acknowledges and agrees that the Software and documentation are confidential information of the Contractor.

Refer to Attachment #1 for additional information.

11.2 Freedom of Information and Protection of Privacy Act

11.2.1 The Contractor acknowledges that the City is subject to the *Freedom of Information and Protection of Privacy Act* of British Columbia and agrees to any disclosure of information by the City required by law.

Refer to Attachment #2 for additional information.

11.3 Return of Property

11.3.1 The Contractor agrees to return to the City all of the City's Data at the completion of this Agreement, including any and all copies or originals of reports provided by the City.

12. GRANT OF LICENSE

12.1 License and Use

The Contractor grants to the City a nonexclusive, nontransferable, and perpetual license to use the executable code version of the Software identified in each Schedule under this Contract, along with the related documentation, and if indicated in an applicable Appendix [], a future Appendix, the Source Code for the Software. The license begins on the date identified in the applicable Appendix [], a future Appendix as the start date for the license (the "Start Date"). Unless indicated otherwise in this agreement such use will be limited to use solely for the exercise of any function by the City. The applicable Appendix [], a future Appendix governing the license will describe the scope of each license granted to the City in further detail, and the City agrees to limit its use of the Software as described in the applicable Appendix [], a future Appendix. The City may not republish the Software or the documentation or distribute it to any third party, unless and only to the extent that this agreement or the scope of license in the applicable Appendix [], a future Appendix expressly so permits. The City will have a right to use the Software at any of its locations.

And the City may use these copies for such purposes without paying any additional fee or charge, so long as any such additional copies are not used in a production environment while the production copy or copies of the Software are used for production. No other copies of the Software may be made by or for the City. With respect to the documentation for any Software, the City may make as many copies of it in either paper-based or electronic form as the City may reasonably require for its own internal purposes. Additionally, the City may incorporate portions of the documentation in other materials, such as training and reference manuals, provided that such materials are used solely for the internal purposes of the City. If the Contractor has granted the City a license to use the Source Code for the Software, the City may make a reasonable number of copies of the Source Code, modify it, compile it, and otherwise use it as reasonably necessary to support its licensed use of the Software.

The City may withhold from any payment that is otherwise due, an amount that the City in good faith finds to be under dispute, if the Contractor does not provide a sufficient remedy.
