The City may negotiate changes to any terms of a Quotation, including terms in Attachment 1 and Schedules A and B and including prices, and may negotiate with one or more Contractors or may at any time invite or permit the submission of quotations (including prices and terms) from other parties who have not submitted Quotations.

#### **7. ACCEPTANCE**

A Quotation will be an offer to the City which the City may accept at any time by signing the copy of the Quotation and delivering it to the Contractor. A Quotation is not accepted by the City unless and until both the authorized signatory of the Contractor and the authorized signatory of the City have signed. Contractors are solely responsible for their own expenses in preparing and submitting Quotations, and for any meetings, negotiations or discussions with the City or its representatives and consultants, relating to or arising from the RFQ. The City will not be liable to any Contractor for any claims, whether for costs, expenses, losses or damages, or loss of anticipated profits, incurred by the Contractor in preparing and submitting a

Quotation, or participating in negotiations for a contract, or other activity related to or arising out of this RFQ.

## **9. CONTRACTOR'S QUALIFICATIONS**

By submitting a Quotation, a Contractor represents that it has the expertise, qualifications, resources, and relevant experience to supply the Goods and Services.

## **10. CONFLICT OF INTEREST**

A Contractor must disclose in its Quotation any actual or potential conflicts of interest and existing business relationships it may have with the City, its elected or appointed officials or employees. The City may rely on such disclosure.

- 10.2 The Contractor acknowledges that the City is subject to the *Freedom of Information and Protection of Privacy Act* of British Columbia and agrees to any disclosure of information by the City required by law.

10.3 The Contractor agrees to return to the City all of the City's property at the completion of this Agreement, including any and all copies or originals of reports provided by the City.

## **11. WARRANTIES**

11.1 The Contractor warrants that the Goods shall be free from defects in design, materials, workmanship and title, shall conform in all respects to the terms of this Agreement, shall be fit and suitable and perform satisfactorily for the purposes and under the conditions made known to the Contractor by the City or which were reasonably inferable. The Goods shall be at least equal to the higher of national standards or codes (such as, by way of illustration, CSA or ASTM), or standards and codes customarily applicable at the place where the City will use the Goods. The Goods shall be of the best quality, if no quality is specified. This general warranty is independent of and without prejudice to any specific warranty or service guarantee offered by the Contractor or third party manufacturer or supplier of the Goods in connection with the purpose for which the Goods were purchased. The Contractor shall assign to the City any warranty or service guarantee offered by a third party manufacturer or supplier of the Goods. Notwithstanding this assignment, if at any time up to one year from the date of delivery or installation (if applicable) the City determines the Goods or any part do not conform to these warranties, the City shall notify the Contractor within a reasonable time after such discovery, and the Contractor shall then promptly correct such nonconformity at the Contractor's expense. Goods used to correct a nonconformity shall be similarly warranted for one year from the date of installation. The Contractor's liability shall extend to all liabilities, losses, damages, claims and expenses incurred by the City caused by any breach of any of the above warranties.

11.2 The Contractor warrants and guarantees that Goods and Services delivered under this Agreement do not infringe any valid patent, copyright or trademark, foreign or domestic, owned or controlled by any other corporation, firm or person, and agrees to indemnify and save harmless the City and all of its elected and appointed officials, officers, employees, servants, representatives and agents (collectively the "Indemnitees"), from and against any and all claims, demands, causes of action, suits, losses, damages and costs, liabilities, expenses and judgments (including all actual legal costs) by reason of any claim, action or litigation arising out of any alleged or actual infringement of any patent, copyright or trademark, foreign or domestic, relating to the Goods and Services supplied under this Agreement.

## **12. INSURANCE AND DAMAGES**

12.1 The Contractor will indemnify and save harmless the Indemnitees from and against all claims, demands, causes of action, suits, losses, damages and costs, liabilities, expenses and judgments (including all actual legal costs) for damage to or destruction or loss of property, including loss of use, and injury to or death of any person or persons which any of the Indemnitees incur, suffer or are put to arising out of or in connection with any failure, breach or non-performance by the Contractor of any obligation of this Agreement, or any wrongful or negligent act or omission of the Contractor or any employee or agent of the Contractor.

12.2 The indemnities described in Sections 11.2, 12.1 and 18.3 will survive the termination or completion of this Agreement and, notwithstanding such termination or completion, will continue in full force and effect for the benefit of the Indemnitees.

- 12.3 The Contractor will, without limiting its obligations or liabilities and at its own expense, provide and maintain throughout this Agreement the following insurances in forms and amounts acceptable to the City from insurers licensed to conduct business in Canada:
- (a) commercial general liability insurance on an occurrence basis, in an amount not less than five million (\$5,000,000) dollars inclusive per occurrence against death, bodily injury and property damage arising directly or indirectly out of the work or operations of the Contractor, its employees and agents. The insurance will include cross liability and severability of interests such that the coverage shall apply in the same manner and to the same extent as though a separate policy had been issued to each insured. The insurance will include, but not be limited to: premises and operators liability, broad form products and completed operations, owners and contractors protective liability, blanket contractual, employees as additional insureds, broad form property damage, non-owned automobile, contingent employers liability, broad form loss of use, personal injury, and incidental medical malpractice. The City will be added as additional insured;
  - (b) automobile liability insurance on all vehicles owned, operated or licensed in the name of the Contractor in an amount not less than three million (\$3,000,000) dollars per occurrence for bodily injury, death and damage to property; and
  - (c) contractors' equipment insurance in an all risks form covering construction machinery and equipment used for the performance of the Services.
- 12.4 The Contractor will provide the City with evidence of the required insurance prior to the commencement of this Agreement. Such evidence will be in the form of a completed certificate of insurance acceptable to the City. The Contractor will, on request from the City, provide certified copies of all of the Contractor's insurance policies providing coverage relating to the Services, including without limitation any professional liability insurance policies. All required insurance will be endorsed to provide the City with thirty (30) days advance written notice of cancellation or material change restricting coverage. To the extent the City has an insurable interest, the builder's risk policy will have the City as first loss payee. The Contractor will be responsible for deductible amounts under the insurance policies. All of the Contractor's insurance policies will be primary and not require the sharing of any loss by the City or any insurer of the City.
- 12.5 The Contractor acknowledges that any requirement by the City as to the amount of coverage under any policy of insurance will not constitute a representation by the City that the amount required is adequate and the Contractor acknowledges and agrees that the Contractor is solely responsible for obtaining and maintaining policies of insurance in adequate amounts. The insurance policy coverage limits shall not be construed as relieving the Contractor from responsibility for any amounts which may exceed these limits, for which the Contractor may be legally liable.
- 12.6 The Contractor shall place and maintain, or cause any of its sub-contractors to place and maintain, such other insurance or amendments to the foregoing policies as the City may reasonably direct.
- 12.7 The Contractor hereby waives all rights of recourse against the City for loss or damage to the Contractor's property.

### **13. CITY RESPONSIBILITIES**

- 13.1 The City will, in co-operation with the Contractor, make efforts to make available to the Contractor information, surveys, and reports which the City has in its files and records that relate to the Goods and Services. The Contractor will review any such material upon which the Contractor intends to rely and take reasonable steps to determine if that information is complete or accurate. The Contractor will assume all risks that the information is complete and accurate and the Contractor will advise the City in writing if in the Contractor's judgment the information is deficient or unreliable and undertake such new surveys and investigations as are necessary.
- 13.2 The City will in a timely manner make all decisions required under this Agreement, examine documents submitted by the Contractor and respond to all requests for approval made by the Contractor pursuant to this Agreement.
- 13.3 If the City observes or otherwise becomes aware of any fault or defect in the delivery of Goods or the provision of Services, it may notify the Contractor, but nothing in this Agreement will be interpreted as giving the City the obligation to inspect or review the Contractor's performance with regards to delivering Goods or the performance of the Services.

### **14. DEFICIENCIES**

- 14.1 The City shall have a reasonable time to inspect and to accept the Goods and Services. The City may reject any Goods or Services not in accordance with this Agreement, whether due to damage resulting from improper packing, loading, unloading or otherwise. The City shall notify the Contractor of rejection of the Goods whereupon the Goods will be held subject to the disposition by the Contractor. Any costs or expenses incurred by the City as a result of the rejection of the Goods or Services are, immediately upon written demand by the City, payable by the Contractor, and may be set off against any payments owing by the City to the Contractor.
- 14.2 The City may hold back from payments otherwise due to the Contractor up to 150% of a reasonable estimate, as determined by the City, on account of deficient or defective Goods or Services. This holdback may be held, without interest, until replacement Goods are received or such deficiency or defect is remedied.

### **15. DEFAULT AND TERMINATION**

- 15.1 In the event the Contractor does not deliver the Goods or perform the Services by the date specified in this Agreement, then:
- (a) the City reserves the right to terminate this Agreement, in whole or in part, and in the event of such termination no payment will be owing by the City on account of this Agreement and the Contractor will be liable for any and all expenses or loss resulting from such failure or delay and will return all monies paid by the City; or
  - (b) if the City does not terminate this Agreement for late delivery or performance, the City may deduct and setoff from any payments owing to the Contractor all additional costs the City reasonably incurs on account of the late delivery or performance.

- 15.2 The City may by written notice at any time cancel this Agreement with respect to Goods which, as of the date of cancellation, have not been shipped.
- 15.3 The City may at any time and for any reason by written notice to the Contractor terminate this Agreement before the completion of all the Goods and Services, such notice to be determined by the City at its sole discretion. Upon receipt of such notice, the Contractor will perform no further Goods and Services other than the work which is reasonably required to complete the Goods and Services. Despite any other provision of this Agreement, if the City terminates this Agreement before the completion of all the Goods and Services, the City will pay to the Contractor all amounts owing under this Agreement for Goods and Services provided by the Contractor up to and including the date of termination, plus reasonable termination costs in the amount as determined by the City in its sole discretion. Upon payment of such amounts no other or additional payment will be owed by the City to the Contractor, and, for certainty, no amount will be owing on account of lost profits relating to the portion of the Goods and Services not performed or other profit opportunities.

## **SCHEDULE A**

### **SPECIFICATIONS OF GOODS AND SCOPE OF SERVICES**

#### **1. BACKGROUND**

In May 2014, the City of Surrey commenced the collection of the Packaging and Printed Paper (PPP) under the Multi-Material British Columbia (MMBC) Stewardship Program.

As a condition of the PPP program, the City is required that collected PPP cannot contain no more than 3% non-PPP material or category 8 glass or unsortable PPP. Since the program start date, MMBC has routinely been completing composition audits of PPP received from MMBC collectors. These audits are used to determine the average amount of non-targeted material being collected under the MMBC program.

MMBC has advised the City that the audit results indicate that the City's PPP exceeds the 3% requirement. Accordingly, MMBC requested that the City submit a detailed operational plan that outlines how the City will address this issue. One significant component of the plan is to carryout consistent audits and enforcement at curbside to ensure that we achieve a reduction in contamination level.

The City's goal is to achieve the lowest contamination for a single-stream PPP program. The purpose of this RFP is to select a Contractor to visually audit recycling carts at curbside and tag carts containing unacceptable items.

#### **2. SERVICES**

The City invites Quotations from experienced and qualified Contractors for the provision of auditing curbside recycling carts at single family households in specific City waste collection routes. The auditing will involve visually inspecting recycling carts for non-PPP material and tagging carts containing this material. Specifically, the work will include four (4) separate tasks: (1) curbside visual audits; (2) tagging contaminated carts; (3) logging contamination; and (4) reporting to the City. The outcome of this study will be to provide analysis of the curbside recycling contamination rates per route for the City.

##### **2.1 Curbside Visual Audits**

As the City's recycling is collected on a bi-weekly schedule, audits and tagging will occur during recycling collection weeks. The number of routes that will be audited will vary depending on results from the City's PPP composition study and MMBC PPP contamination audits. The routes will be provided by the City based on curbside waste collection routes (approximately ten routes per day, approximately 1000 household per route).

The City has contracted with Progressive Waste Solutions (Progressive) to collect garbage, recycling and organic waste from single-family homes Monday to Friday, 7:30 am to 7:30 pm. The Contractor will visually inspect the recycling carts set out for collection on the respective collection days for contamination, working ahead of Progressive's collection trucks to ensure that the materials inside the carts are inspected prior to collection.

The visual audit will consist of lifting the lid of the recycling carts to look inside for contamination. The auditor will have a tool to move the materials around in the cart to see if there are contaminants below the top layer of recycling. The auditor will not use their hands to examine

the cart's contents. If contamination is found in the recycling cart, the cart will be tagged and the address, contaminant observed, and amount of contamination (estimated percentage) will be recorded. The auditor will not enter private property or remove any contents from the carts.

## **2.2 Tagging Contaminated Carts**

The City will provide two different contamination stickers in which carts will be tagged (one for 1<sup>st</sup> and 2<sup>nd</sup> offence, another for the 3<sup>rd</sup> offence). The sticker should be placed on the top of the cart lid, visible to the Progressive collection vehicle. Stickers will be placed on the recycling cart with the following three step enforcement criteria:

- I. First incident – warning sticker informing the household that non-targeted PPP above 3% material was placed in their recycling cart and any further incidents may result in their carts not being serviced. The contractor will write on the sticker what contamination was found in the cart.
- II. Second incident - If a household's recycling cart is found to contain contamination for two weeks in a row (the week following the first incident), the cart will receive the same sticker as the first incident. The contractor will write on the sticker what contamination was found in the cart.
- III. Third incident - If a household's recycling cart is found to contain contamination for three weeks in a row, a sticker will be placed on the recycling cart informing the resident that their cart will not be serviced until non-PPP items are removed from the cart. The contractor will write on the sticker what contamination was found in the cart.

## **2.3 Logging Contamination**

If contamination is found in a recycling cart, the following information should be recorded in electronic format acceptable by the City:

- Address of contaminated cart;
- Contaminant observed;
- Estimated percentage of contamination found in the cart; and
- Date and time that the contaminant was found.

This information will be included in the daily, weekly, and final reports sent to the City.

## **2.4 Reporting to the City**

The outcome of this study will be to provide analysis of the curbside recycling contamination rates per route for the City. The Contractor is to submit electronic reports for the recycling route analysis as follows:

### **I. Daily Reports**

- Daily update with the number of households tagged for each category of contamination and a summary of the items most commonly found

## **II. Weekly Curbside Recycling Contamination Reports:**

- Data tabulated in Excel format for all weeks, including total number of tags per day, per route
- Data based on collection day and route
- Highlighted repeat offenders
- Graphs for comparison among weeks
- Overall reduction of contamination comparison week-by-week
- Draft report for comments

## **III. Final Curbside Recycling Contamination Report**

- Aggregate data from Seasonal Reports into final report
- Draft report for comments

### **3. ACCEPTED AT CURBSIDE - PACKAGING AND PRINTED PAPER (PPP)**

In order to identify contamination, the Contractor must be familiar with what is accepted in Surrey's curbside recycling stream (refer to Section 2.1). The foreign materials (materials that should not be present) observed in recycling are the contaminants that are non-packaging and printed paper (PPP) materials, category 8 glass, or unsortable PPP (refer to Section 2.2).
