SCHEDULE A – SPECIFICATION OF GOODS

All plant material must be grown, packaged, and graded according to "British Columbia Nursery Trades Association" specifications. Any material not conforming to these specifications shall be returned at the Contractor's expense. Likewise, any material having perennial weeds or grasses in the root zone shall not be accepted.

All materials offered by the Contractor and purchased shall be fit and suitable for its intended purpose.

Any material, as determined by the City, which is determined to be unsuitable, shall be removed at the Contractor's expense within five (5) business days after notification.

Quality Control

All trees may be inspected and hand selected by the City at the nursery supplying the trees before the trees are dug. All nursery stock certificates, registration or certification tags, etc. shall be supplied to the City by the Contractor when trees are shipped to the City's designated tree planting service provider. The City has the right to choose stock or reject stock in order to meet the standards in this specification.

Trees shall have a habit of growth that is normal for the species and shall be sound, healthy, vigorous and free from insects, pests, diseases, injuries, and structural defects and acclimatized to withstand outside temperatures without sustaining damage. Trees shall be heavily branched and leafed. Tree trunks and central main leaders shall be straight, smooth (within the character of the species), and free of fresh pruning cuts and planting scars or shipping damage.

All trees of excurrent genera to have single leaders (no trees with co-dominant stems permitted).

Container Grown trees

All container grown trees shall be well rooted and established in the container in which they are delivered. Soils in the container shall not contain disproportionate amounts of porous, excessively draining materials and shall have been well blended so that there is no concentration of any one material. The trees shall have been grown only in a container and shall have sufficient fibrous roots to hold the soil together when the tree is removed from the container. Root-bound trees will not be accepted. Trees shall not have roots circling the trunk or have a canopy system too large for the size of container. Inspection of roots will be done at delivery site if not done at nursery. Deficiencies as listed above will be grounds for rejection.

No pruning of the scaffold branches or leader should be undertaken prior to delivery. Only broken branches should be pruned.

Quotation should indicate where stock would be available for viewing currently. Trees brought in from outside of the Lower Mainland may be considered when no other sources are available locally.

Movement of the trees shall comply with the regulations of all applicable federal, provincial and local regulations, and all required inspection certificates shall accompany each shipment and shall be filed with the City.

Alternates and/or Variations to Specifications

Except where stated otherwise herein, the specifications describe what is considered necessary to meet the performance requirements of the City and Contractors should bid in accordance with such specifications, or, if the Contractor cannot meet specifications, the Contractor may offer an alternative which they believe to be the equivalent.

Contractors to clearly indicate any variances from the City's specifications or conditions in their Quotation.

The City is not obligated to accept any alternatives.

The City will determine what constitutes an allowable variation.

Guarantee Period

All trees to be warranted for a minimum period of twelve (12) months from the invoice date, and shall be alive and in satisfactory growth for each specific kind of tree, as determined by the City. Any tree, prior to the one-year period, showing signs of no growth, shall be replaced at the next available planting season (Spring or Fall) upon notification from the City.

The guarantee does not include vandalism, storm damage, animal damage, improper planting, abnormal weather conditions, or mechanical damage unrelated to nursery practices; nor does it include defects resulting from lack of adequate maintenance, neglect, or abuse by the City. Replacement plant material is subject to all requirements stated herein, and cost of replacement plant material shall be the responsibility of the Contractor.

Availability

The City understands that availability of each tree species may be limited by demand from other contracts. In the event a particular species sells out, the City will work with the Contractor(s) on choosing alternative species that are available or may choose to work with an alternative contractor for obtaining specific species of trees. Should the City and the Contractor agree upon alternative species when the original species is unavailable, those alternative trees will be paid at the same cost as the tree they are replacing.

Additional Requirements

The City reserves the right to add or delete items listed herein (*refer to Schedule B-1*) following award of any contract(s) or purchase order(s) resulting from this RFQ. The unit prices stated by the Contractor shall apply.

Delivery

Contractors will be required to deliver quantities as so ordered. The City will work with the Contractor(s) on delivery dates. Full delivery is required by December 1, 2018. All deliveries will be co-ordinated through the City's Parks Division.

All trees must be transported in enclosed trucks or fully tarped.

The Contractor shall protect trees during delivery to prevent damage to the root ball, trunk, and branches and desiccation of leaves. Trees shall be protected during transport by tying in the branches and covering the entire tree with tarps. Trees shall be thoroughly protected from chain marks, girdling or other damage, any of which will render a tree unacceptable. All plants shall be handled by the root ball or container only.

All trees are to be delivered to one of the following locations (the City will advise exact delivery location when order is placed):

1. Table 1 – Street Trees deliver to:
