

# CORPORATE REPORT

NO: *R186*

COUNCIL DATE: *December 21, 2020*

---

## REGULAR COUNCIL

TO: **Mayor & Council** DATE: **December 17, 2020**  
FROM: **General Manager, Planning & Development** FILE: **3900-20-16100**  
SUBJECT: **Proposed Amendments to Surrey Tree Protection Bylaw, 2006, No. 16100**

---

## RECOMMENDATION

The Planning & Development Department recommends that Council:

1. Receive this report for information;
2. Approve amendments to *Surrey Tree Protection Bylaw, 2006, No. 16100*, as documented in Appendix "I" of this report; and
3. Authorize the City Clerk to bring forward the related amendment bylaw for the required readings by Council.

## INTENT

The intent of this report is to obtain Council approval for amendments to *Surrey Tree Protection Bylaw, 2006, No. 16100* (the "Tree Bylaw"). The proposed amendments will help to simplify the administration of the Tree Bylaw and provide clarity on the collection and release of securities.

## BACKGROUND

On September 25, 2006, Council adopted the Tree Bylaw. This was the result of extensive consultation with various committees, interest groups and the public. The Tree Bylaw was intended to:

- encourage and provide incentives for tree retention and replacement;
- provide reasonable flexibility in tree retention and replacement;
- clarify trees to be protected and for replacement;
- provide for efficient administration and enforcement of the Tree Bylaw; and
- prescribe standards of practice.

Previous amendments to the Tree Bylaw were approved by Council in February 2008, March 2009, November 2009, February 2011, September 2011, and June 2016.

The proposed amendments are based on experience gained through administration of the Tree Bylaw. The proposed amendments aim to provide clarity on the collection and release of

securities. The proposed changes also include increases in penalty fees and security maximums. These increases better reflect the current cost of tree removals, replanting, and tree maintenance.

As part of the Tree Bylaw review, staff undertook a thorough public consultation process. A public survey was completed through an open community survey and a CitySpeaks Panel survey. The survey had over 1,300 responses. An open house was held in Cloverdale with over 100 people in attendance. In addition, staff presented the results of the survey and the proposed changes to the Environmental Sustainability Advisory Committee (“ESAC”), the Agriculture and Food Policy Advisory Committee (“AFPAC”), and the Development Advisory Committee (“DAC”).

### Tree Bylaw Review Process Timeline

August to September 2019	Literature Review
October 4 to November 1, 2019	Public Survey
October 16, 2019	Public Open House
November 2019	Review survey data and open house comments
November 2019	Review proposed amendments with Legal Services
December 2019 to February 2020	Draft proposed amendments
January 2020	Presentation to ESAC and AFPAC
February 2020	Presentation to DAC
October to November 2020	Draft amendments/Final Legal Services review

The survey and open house asked participants a series of questions. The questions were designed to gauge participant’s satisfaction levels with the current Tree Bylaw. On average, respondents were satisfied with the current Tree Bylaw; however, the one exception was the question related to penalties for unpermitted tree removal. Respondents felt that the current penalties are too low. The survey also gave participants an opportunity to include written comments for each question. The survey answers, and the written comments, were all reviewed and considered by staff. The proposed changes reflect the survey and open house results, as well as staff experiences while implementing the Tree Bylaw.

### DISCUSSION

The following changes are proposed to the Tree Bylaw, organized by Part as found in the Tree Bylaw.

#### Part 1: Introductory Provisions

Staff recommend that definitions in the Tree Bylaw be updated to reflect current industry standards. New definitions have also been recommended for inclusion to help provide clarity for implementation of the Tree Bylaw.

#### Part 2: Application and Exemptions

Staff recommend that the referenced senior government legislation is updated to include current and relevant legislation.

### Part 3: Prohibitions

No proposed changes.

### Part 4: Offences

No proposed changes.

### Part 5: Penalties

It is recommended that penalties for a Tree Bylaw offence – such as cutting, removing, or damaging a protected tree – be increased.

The current penalty for an offence related to a specimen quality tree is \$2,000. It is recommended that this be increased to \$5,000, per offence.

The current penalty for an offence related to a significant tree is \$10,000, per offence. It is recommended that this penalty be kept at \$10,000, per offence.

The current penalty for an offence related to any other protected tree is \$1,000, per offence. It is recommended that this be increased to \$3,000, per offence.

### Part 6: Significant Trees

No proposed changes.

### Part 7: Tree Cutting Permits

Staff recommends that the definition of pruning be changed. This change will help staff determine if a protected tree has been damaged from pruning.

It is recommended that a new section be added to the Tree Bylaw that will provide clarity on what constitutes “topping” a tree. This section will also allow for topping to be permitted under special circumstances.

Staff also recommends that minor changes be made to the section that determines if a tree can or cannot be approved for removal.

### Part 8: Permit Fees and Securities

Staff recommend that Part 8 be split into two parts: Part 8: Permit Fees and Part 8A: Securities. This change is recommended to provide clarity on how permit fees are calculated, and how securities are collected and released. This will also allow staff to process applications more efficiently.

Proposed changes to Part 8: Permit Fees include updating permit fees to include all Zones/lot sizes as found in *Surrey Zoning By-law, 1993, No. 12000* (the “Zoning By-law”).

Proposed changes to Part 8A: Securities include updating the sections related to how securities are collected and released. This includes increasing the securities for replacement trees from the current rate of \$400 or \$800 per tree to \$550 or \$1,100 per tree.

The maximum tree protection securities collected to ensure that trees are protected during development is recommended to increase from the current maximum of \$10,000 per lot or \$100,000 per subdivision to \$15,000 per lot or \$150,000 per subdivision.

Staff recommends that a new section be added to the Tree Bylaw that stipulates that if replacement trees are not planted within a specified timeframe, the securities will be used by the City to plant trees elsewhere on City-owned property.

It is also recommended that a new section be added to the Tree Bylaw that allows for landscape securities to be released to a strata to allow them to complete unfinished or deficient works on strata lands.

#### Part 9: Replacement Trees

Proposed changes to Part 9 include updating landscape industry standards. This includes providing clarity on where replacement trees can be planted.

Staff recommend that the number of replacement trees required be increased for all black cottonwood and red alder trees, if the trees are being removed from a riparian setback area. This increase is from one replacement tree to two replacement trees.

It is also recommended that the cash-in-lieu collected for replacement trees in deficit be increased from \$30,000 per acre of land to \$41,250 per acre of land.

#### Part 10: Tree Protection

Staff recommend a minor change to ensure tree protection is reflective of industry standards.

#### Part 11: Inspection and Assessment

Staff recommend a minor change to ensure tree protection is reflective of industry standards.

#### Part 12: General Provisions

Staff recommend that Part 12, Section 7 be deleted. This section referenced the previous Tree Bylaw changes from 2016 and provided a “grandfather” clause for development applications. Staff recommend that the proposed Tree Bylaw changes come into force on the date of final adoption. Staff also recommend that standard procedures are developed that allow in-stream tree cutting permit applications to be charged security rates from the 2016 version of the Tree Bylaw.

### **SUSTAINABILITY CONSIDERATIONS**

The work of this bylaw review and update supports the objectives of the City’s Sustainability Charter 2.0. In particular, this work relates to Sustainability Charter 2.0 theme of Built Environments and Neighbourhoods and Ecosystems. Specifically, this work supports the following Desired Outcomes (“DO”) and Strategic Directions (“SD”):

- Neighbourhoods and Urban Design DO5: Trees, green spaces and natural areas are integrated into all neighbourhoods.
- Neighbourhoods and Urban Design DO6: Land is used efficiently and sensitively, and development minimizes the impacts on the natural environment, viewscales, agricultural land and urban wildlife.
- Neighbourhoods and Urban Design DO14: Native vegetative cover and natural systems are an integral part of landscaping and the built environment, and provide environmental and health benefits.
- Natural Areas, Biodiversity and Urban Forest DO3: All development enhances, or minimizes the impacts on Surrey's lush tree canopy and natural environment, and avoids encroachment into natural areas, habitat features and parks.
- Green Infrastructure DO12: Surrey protects ecosystem services and manages natural assets in order to create resiliency to adapt and thrive in a changing climate.

## CONCLUSION

Surrey's tree canopy is important to protect and maintain for a number of reasons: it improves the quality of air, soil, and water; it mitigates urban heat island effects, by releasing water vapour into the air; it intercepts rainfall and reduces storm water runoff; it reduces greenhouse gas emissions; and it offers social and aesthetic benefits.

Based on the above information, it is recommended that Council approve the proposed amendments to *Surrey Tree Protection Bylaw, 2006, No. 16100*.

CITY OF SURREY

BYLAW NO. 16100

A Bylaw to regulate and prohibit the cutting, removal and damage of trees, the setting of fees and issuance of permits and the requirement for replacement trees and of security for their provision and maintenance.

.....

As amended by By-law No: 16532, 01/14/08; 16586 03/10/08; 16859, 01/19/09; 16894, 04/20/09; 17047, 11/30/09; 17082, 12/14/09; 17327, 01/10/11; 17371, 03/14/11; 17480, 10/03/11; 17569, 02/06/12; 17635, 05/07/12; 17810, 12/10/12; 17845, 12/17/12; 18138, 01/13/14; 18360, 01/12/15; 18592, 12/14/15; 18659, 03/07/16; 18710, 07/11/16; 18984, 12/19/16; 19430, 12/18/17; 19720, 12/19/18; 19986, 12/16/19; 20223, 12/21/20

THIS IS A CONSOLIDATED BY-LAW PREPARED BY THE CITY OF SURREY FOR CONVENIENCE ONLY. THE CITY DOES NOT WARRANT THAT THE INFORMATION CONTAINED IN THIS CONSOLIDATION IS CURRENT. IT IS THE RESPONSIBILITY OF THE PERSON USING THIS CONSOLIDATION TO ENSURE THAT IT ACCURATELY REFLECTS CURRENT BY-LAW PROVISIONS.

- (a) WHEREAS pursuant to Sections 8(3)(c) and 50 to 52 of the *Community Charter*, S.B.C. 2003, c. 26, a city may, by bylaw, exercise certain powers to preserve and protect trees within the city, regulate the cutting and removal of trees and require their replacement;
- (b) AND WHEREAS Council considers it is in the public interest to provide for the protection and preservation of trees, the regulation of their cutting and removal and their replacement;

Under its statutory powers, including Sections 8(3)(c) and 50 to 52 of the *Community Charter*, S.B.C. 2003, c. 26, the Council of the City of Surrey, in open meeting assembled, enacts the following provisions:

**Part 1**  
**Introductory Provisions**

**Title**

1. This Bylaw may be cited as "Surrey Tree Protection Bylaw, 2006, No. 16100".

## Definitions

2. In this Bylaw,

### "agricultural use"

means the use of land for the growing of crops or the raising of livestock as permitted under the Zoning Bylaw.

### "arborist"

means ~~an arborist~~ when a person who is both:

- (a) ~~is certified~~ as an arborist by the International Society of Arboriculture; and
- (b) ~~is certified as a qualified~~ as a tree risk assessor by ~~the Pacific Northwest Chapter of~~ the International Society of Arboriculture.

### "arborist report"

means a technical report prepared by an arborist which may include all or some of the following:

- (a) ~~identifies~~ information relevant to the purpose for which the report is to be submitted to the City including, but not limited to, surveyed location, species, size and condition of the subject tree or trees;
- (b) ~~provides~~ the reasons for any proposed removal of a tree or trees;
- (c) ~~describes~~ description of the recommended tree protection and mitigation measures; and
- (d) ~~includes~~ a tree replacement strategy.

and the General Manager will specify in each instance which of the items listed above are required.

### "caliper"

means the diameter of a tree at 15 centimetres [6 inches] above the natural grade of the ground, measured from the base of the tree.

### "City"

means the City of Surrey.

### "City Landscape Architect"

means a person employed by the City and designated by the General Manager as the City's landscape architect.

**"conifer"**

~~means a tree that has needle-shaped or scale-like leaves and is cone-bearing.~~  
means a cone bearing tree or other plant that has its seeds in a cone structure.

**"Council"**

means the municipal Council of the City of Surrey.

**"cut"**

means to cut down a tree and shall include to pull up, push or pull over or otherwise fall a tree. **"Cutting"** shall have the corresponding meaning.

**"damage"**

means any action which will likely cause a tree to die or to decline, including, but not limited to, ringing, poisoning, burning, topping, root compaction, root cutting, excessive pruning, excessive crown lifting, or pruning in a manner not in accordance with "Best Management Practices, Tree Pruning (Revised 2008)". Topping will not fall within this definition of **"damage"** if evidence satisfactory to the General Manager is provided to the City to establish that the tree in question has been previously topped. **"Damaged"** and **"damaging"** shall have the corresponding meaning.

**"D.B.H."**

means the diameter of a tree at ~~roughly~~ breast height or 1.4 metres [4.6 feet] above the highest point of the natural grade of the ground measured from the base of a tree. For multi-stemmed trees, the three (3) largest stems shall be measured 1.4 metres [4.6 feet] above the highest point of the natural grade and the D.B.H. of the tree shall equal the cumulative total of the D.B.H. of the three (3) largest stems.

**"deciduous"**

~~means a tree that naturally loses most or all of its leaves seasonally, most often in or around autumn.~~  
means a tree or other plant that sheds most or all of its foliage annually.

**"drip line"**

means a horizontal line on the ground encircling a tree corresponding to the furthest extension of the branches of a tree.

**"engineer"**

means a person registered or licensed as a professional engineer pursuant to the provisions of the *Engineers and Geoscientists Act*, R.S.B.C. 1996, c. 116, as amended.

**"Environmental Technician"**

means a person employed by the City and designated by the General Manager as a City environmental technician.

**"General Manager"**

means the person appointed by Council as the General Manager of Planning and Development or the duly authorized representative.

**"hazardous"**

~~in relation to a tree, means a tree that, in the opinion of an arborist, is in imminent danger of falling and injuring a person, or persons, or property. Deleted~~

**"landscape architect"**

means a landscape architect registered with the British Columbia Society of Landscape Architects.

"letter of assurance"

means a letter signed by the General Manager, Engineering when the following requirements have been met:

- (a) the engineer for the project on behalf of the owner has requested in writing the issuance of a letter of acceptance;
- (b) the maintenance period or any extension thereof as set out in the applicable servicing agreement has expired with no identified damage, defect, deficiency or holdback that needs to be dealt with by the owner; and
- (c) the owner has completed all of the terms and conditions in the applicable servicing agreement, including without limitation, the registration in the Land Title Office of all statutory right of ways, easements, restrictive covenants, subdivision plan or Land Title Act section 107 road dedication plan.

**"lot"**

means land designated as a separate and distinct parcel on a legally recorded subdivision plan or description filed in the records of the Land Title Office.

**"natural causes"**

means death or decline of a tree as a result of natural diseases, pests, climactic conditions, inherent structural defects, or senescence.

**"owner"**

means the registered owner in fee simple of a lot upon which a tree is located.

**"protected tree"**

means:

- (a) any tree, including multi-stemmed trees, within the City, regardless of species, having a D.B.H. of 30 centimetres [11.8 inches] or more or, where measurement of the D.B.H. is impossible or impractical, any tree with a stump having a diameter of ~~45-30~~ centimetres [~~17.7~~11.8 inches] or more, measured at the natural grade of the ground;
- (b) a replacement tree;
- (c) a tree planted or retained as a requirement of a subdivision application, development permit, development variance permit, building permit or demolition permit;
- ~~(d) within a high sensitivity area as identified on the "City of Surrey Environmentally Sensitive Areas Map" described in SCHEDULE "A";~~
- ~~(d) a tree located in a riparian area~~
- (e) a specimen quality tree;
- (f) a significant tree;
- (g) a tree with evidence of nesting or use by:
  - (i) raptors as defined in the *Wildlife Act*, R.S.B.C. 1996, c. 488,
  - (ii) osprey, or
  - (iii) a heron colony;
- (h) the following tree species where the tree is 3 metres [118.1 inches] or taller, if coniferous, or a tree having a 5 centimetres [1.9 inches] or greater caliper, if deciduous:
  - (i) Arbutus (*Arbutus menziesii*),
  - (ii) Garry Oak (*Quercus garryana*),
  - (iii) Coast Redwood (*Sequoia sempervirens*),
  - (iv) Dawn Redwood (*Metasequoia glyptostroboides*),
  - (v) Giant Redwood (*Sequoiadendron giganteum*),

(vi) Maidenhair Tree (*Ginkgo biloba*), ~~and~~

(i) Any tree located on City property

**"replacement tree"**

means a tree required to be planted to replace a tree cut, removed or damaged in accordance with this Bylaw.

**"remove"**

means to cut a tree and to remove it from the lot where it exists. **"Removed"**, **"removal"** and **"removing"** shall have the corresponding meaning.

"retained tree"

Means a tree that has not been permitted for removal. "Tree to be retained" shall have the corresponding meaning.

"riparian area"

means the horizontal area within a lot, that is calculated by measuring the distance perpendicularly, from the top of bank in the direction away from the stream, where land disturbance of any kind is prohibited by the *Riparian Areas Protection Regulation*, B.C. Reg. 178/2019.

**"significant tree"**

means a tree listed in SCHEDULE "B" and SCHEDULE "B1".

"stream"

Means any of the following, in accordance with the Water Sustainability Act, S.B.C. 2014, c. 15 as amended, and the *Riparian Areas Protection Regulation*, B.C. Reg. 178/2019, as amended, that provides fish habitat:

- (a) A watercourse, whether it usually contains water or not
- (b) A pond, lake, river, creek, brook, ravine, swamp, gulch or natural or channelized stream; or
- (c) A ditch, spring or wetland, that is connected by surface flow to any items referred to in (a) or (b) above.

**"sound arboricultural practice"**

means tree planting, pruning and maintenance practices endorsed by the International Society of Arboriculture.

**"specimen quality tree"**

means a tree of any size which an arborist, a landscape architect, or the General Manager deems to be of exceptional value because of its species, condition, form, age or size but which has not been designated by Council to be a significant tree.

"top of bank"

Means:

- (a) The point closest to the boundary of the active floodplain of a stream where a break in the slope of the land occurs such that the grade beyond the break is flatter than 3:1 at any point for a minimum distance of 15 metres measured perpendicularly from the break; and
- (b) For a floodplain area not contained in a ravine, the edge of the active floodplain of a stream where the slope of the land beyond the edge is flatter than 3:1 at any point for a minimum distance of 15 metres measured perpendicularly from the edge.

**"tree cutting permit"**

means the written authority granted by the General Manager pursuant to this Bylaw for the cutting or removal of a specified tree or trees.

**"tree protection barrier"**

means a barrier constructed around a tree in accordance with Schedule "C" of this Bylaw to protect the tree from damage during ~~site work or~~ construction, development or site disturbance.

**"Trees and Landscape Manager"**

means a person employed by the City and designated by the General Manager to oversee the implementation of this Bylaw.

**"tree protection zone"**

means the area within a tree protection barrier. Where a tree protection barrier has not been erected as required by this Bylaw, the tree protection zone shall be the area within which a tree protection barrier should have been erected in accordance with this Bylaw.

**"tree survey"**

means a survey plan prepared by an engineer or by a surveyor registered as a British Columbia land surveyor, that illustrates the location of trees in relation to the property lines of a lot, along with the size and species of each tree, plus any other information required by the General Manager for the purpose of assessing a tree cutting permit application.

## "Zoning Bylaw"

means Surrey Zoning Bylaw, 1993, No. 12000, as may be amended or replaced from time to time.

### **Part 2 Application and Exemptions**

3. This Bylaw applies to protected trees and to no other trees.
4. This Bylaw does not apply to protected trees, that are cut, removed or damaged, pursuant to the *Hydro and Power Authority Act*, R.S.B.C. 1996, c. 212 or the [\*Pipeline Act\*, R.S.B.C. 1996, c. 364](#); [\*Oil and Gas Activities Act\*, S.B.C. 2008, c. 36](#).
5. This Bylaw does not apply to trees on City-owned property or highways that are cut or removed by the City or its authorized agents in accordance with approved City operations.
- 5.1 This Bylaw does not apply to trees on property owned by either the Government of Canada, the Province, or Metro Vancouver that are cut or removed by that entity or its authorized agents.

### **Part 3 Prohibitions**

6. No person shall cut, remove or damage any protected tree or cause, suffer or permit any such tree to be cut, removed or damaged, except where permitted by and in accordance with the terms of this Bylaw.
7. In the event that a protected tree is in imminent danger of falling and injuring persons or property due to natural causes, and it is not possible to obtain a tree cutting permit prior to the tree falling, the owner may cut the tree or have it cut, but shall report the cutting of the tree to the General Manager within the next business day. The owner shall not remove the tree from the lot until the City has visited the lot and confirmed that the tree was in imminent danger of falling and injuring persons or property. If the City determines that the tree was not in imminent danger, or was in imminent danger, but due to reasons other than natural causes, the City may impose a penalty on the owner in accordance with Part 5.
8. No person shall fail to comply with the terms and conditions of a tree cutting permit issued pursuant to this Bylaw.
- 8.1 No person shall provide information in support of a tree cutting permit application, which is false, inaccurate, incomplete or erroneous.
9. For the purposes of this Bylaw, an arborist report will only be accepted by the City within two (2) years of the date of issuance of the arborist report.

**Part 4**  
**Offences**

10. Every person is guilty of an offence against this Bylaw and is liable to a fine of not less than FIFTY (\$50.00) DOLLARS and not more than TEN THOUSAND (\$10,000.00) DOLLARS per offence, who:
- (a) cuts, removes or damages a tree contrary to this Bylaw or contrary to the terms and conditions of a tree cutting permit;
  - (b) violates any of the provisions of this Bylaw or a tree cutting permit;
  - (c) suffers or permits any act or thing to be done in contravention or violation of any provision of this Bylaw or a tree cutting permit; or
  - (d) omits to do or refrains from doing anything required to be done by any of the provisions of this Bylaw or a tree cutting permit.
11. For the purposes of this Bylaw, each tree cut, removed or damaged in violation of this Bylaw and each day that a violation of this Bylaw is caused or permitted to exist by any person, shall constitute a separate offence.

**Part 5**  
**Penalties**

12. In addition to any prosecution pursuant to Part 4 of this Bylaw, where an owner cuts, removes or damages, or suffers or permits any tree to be cut, removed or damaged, in contravention of this Bylaw, or in excess of any permission, or in violation of any terms and conditions of a tree cutting permit issued pursuant to this Bylaw, the owner shall pay the penalties imposed under this Part 5 and:
- (a) shall plant on the same parcel of land the number, size and species of replacement trees required by this Bylaw, as determined by the General Manager in accordance with this Bylaw; and, in addition,
  - (b) where the tree cut, removed or damaged is identified in a tree preservation plan approved by the City as a tree to be retained or protected, then the General Manager may require the owner to plant the replacement trees at the exact location as the tree that has been cut, removed or damaged and may require that any building or structure shall not be located within the drip line of the replacement trees at full growth.
13. The penalty for cutting, removing or damaging a protected tree, other than a significant tree or a specimen quality tree, is ONE THREE THOUSAND (~~\$13~~,000.00) DOLLARS per tree, or the loss of any securities provided to the City to ensure protection and preservation of the tree, whichever amount is greater. The size, number, species and location of replacement trees and amount of securities required to ensure the planting and

maintenance of replacement trees, is to be determined by the General Manager, based on the size, condition, species and location of the tree cut, removed or damaged in contravention of this Bylaw.

14. The penalty for cutting, removing or damaging a significant tree is TEN THOUSAND (\$10,000.00) DOLLARS per tree. The size, number, species and location of replacement trees, and amount of securities required to ensure the planting and maintenance of replacement trees, is to be determined by the General Manager based on the size, condition, species and location of the tree cut, removed or damaged in contravention of this Bylaw.
15. The penalty for cutting, removing or damaging a specimen quality tree is ~~TWO-FIVE~~ THOUSAND (\$~~25~~,000.00) DOLLARS per tree, or the loss of any securities provided to the City to ensure protection and preservation of the tree, whichever amount is greater. The size, number, species and location of replacement trees and amount of securities required to ensure the planting and maintenance of replacement trees is to be determined by the General Manager, based on the size, condition, species and location of the tree cut, removed or damaged in contravention of this Bylaw.
16. The size, number, species and location of replacement trees required as a penalty under this Part 5 and the amount of securities required to ensure their planting and maintenance will be determined by the General Manager and is dependent upon the value of the tree removed and conditions of the lot where the replacement trees are to be planted. Where upsized replacement trees are required by this Bylaw, the amount of the securities will reflect the value of the upsized trees and the related planting and maintenance costs.
17. Except as specified in Section 48, if the owner fails or refuses to plant the required number, size and type of replacement trees in the specified locations within four (4) months of receiving written direction from the General Manager to do so, the City may use the security collected to either have the trees planted onto the owner's lot or use the securities to plant trees elsewhere on City-owned property.
18. If an owner fails or refuses to plant the required number, size and type of replacement trees in the specified locations after receiving written direction from the General Manager to do so, the City, by its employees or other persons, at reasonable times and in a reasonable manner, may enter the owner's lot and fulfill the requirement by planting the replacement trees at the expense of the owner.
19. In the event that the owner of the lot described in Section 18 fails to pay the costs of compliance before the 31<sup>st</sup> day of December in the year following the year that the compliance was effected by the City, the costs shall be added to and form part of the taxes payable on the lot as taxes in arrears.
20. Prosecution of a person pursuant to Part 4 of this Bylaw does not exempt the person from the provisions of Part 5 of this Bylaw.

**Part 6**  
**Significant Trees**

21. The owner of a significant tree shall maintain or cause to maintain the tree in accordance with sound arboricultural practice.
22. No person shall prune the branches or roots of a significant tree without first obtaining a tree cutting permit to do so in accordance with Part 7. There is no fee for such a permit.
23. A significant tree shall not be cut, removed or damaged in any way unless it is first removed from SCHEDULE "B" by an amendment to this Bylaw.
24. The General Manager, with the consent of the owner of the significant tree, may direct that a plaque or marker, that provides information about the significant tree, be placed near the significant tree.

**Part 7**  
**Tree Cutting Permits**

25. A person wishing to cut or remove a protected tree shall apply to the General Manager for a tree cutting permit to cut or remove the tree. A tree cutting permit application shall be in a form approved by the General Manager. The tree cutting permit shall be in a form approved by the General Manager. The tree cutting permit may determine the number, size, species and location of replacement trees and required security.
26. Notice of the tree cutting permit shall be posted on the lot for which a tree cutting permit has been issued in a location visible to the public, prior to the commencement of any cutting or removal of a protected tree and shall remain posted on the lot until the completion of all work related to the cutting or removal of protected trees on the lot. The notice shall include a copy of the tree cutting permit, identify by species and location the trees which are to be cut or removed and provide a contact number for the permit holder and the City.
27. A tree cutting permit is not required for the pruning of a protected tree, other than a significant tree. Pruning must follow sound arboriculture practice. , in accordance with sound arboricultural practice. The pruning and treatment of diseased trees in accordance with sound arboricultural practice, shall be practiced where possible and practical as an alternative to the cutting or removal of a protected tree. Sound arboricultural practice shall not include the following: The following is not considered sound arboriculture practice:
  - (a) the removal of branches or limbs on the upper sixty-seven percent (67%) of the total height of the protected tree; removal of branches in the upper 50% of the total height of the protected tree;
  - (b) the removal of more than twenty-five percent (25%) of the protected tree's total branches or limbs within one (1) twelve (12) month period"; the removal of more

than twenty-five percent (25%) of the protected tree's total branches or limbs:  
and

- (c) the topping of a protected tree, except where the owner has shown, to the General Manager's satisfaction, that the tree has been previously topped in compliance with this Bylaw. The topping of a protected tree, other than topping carried out under an issued tree cutting permit in the circumstances described in Section 27.2

27.1 Despite Section 27(a) and (b), the pruning of a protected tree may be approved if the owner submits an arborist report which certifies that the pruning is necessary and this report is approved by the City Landscape Architect, the Trees and Landscape Manager or an arborist chosen by the City.

27.2 A tree cutting permit may be issued for the topping of a protected tree if the tree was topped prior to the year 2006, or if the tree has lost a portion of the stem by natural causes. The owner is required to submit an arborist report which certifies that the pruning is necessary and where this report is approved by the City Landscape Architect, the Trees and Landscape Manager or an arborist chosen by the City. The General Manager may require, as a condition of the tree cutting permit issued under this Section 27.2, that all pruning activity be carried out under the on-site supervision of an arborist.

27.3 A tree cutting permit will be issued for the pruning of a significant tree where the owner submits an arborist report which certifies that the pruning is necessary and where this report is approved by the City Landscape Architect, the Trees and Landscape Manager or an arborist chosen by the City. The General Manager may require, as a condition of the tree cutting permit issued under this Section 27.3, that all pruning activity be carried out under the on-site supervision of an arborist.

28. The fee for the tree cutting permit shall be determined as set out in Part 8 and shall be paid upon application for the permit. No fee is required for a tree cutting permit issued pursuant to Part 7, Section ~~34~~27.1, 27.2 or 27.3.

29. Subject to Part 7, Section 35, a tree cutting permit to cut or remove a protected tree, other than a significant tree, may be issued by the General Manager only in the following circumstances:

- (a) where an arborist provides an arborist report to the satisfaction of the General Manager that a tree is an unreasonable hazard to the safety of persons or property, or where the applicant has otherwise demonstrated to the satisfaction of the General Manager that the tree is hazardous, dead, damaged, diseased or in decline beyond expectation of recovery;
- (b) where the General Manager, or his or her duly authorized representative, or an engineer employed by any public utility or an arborist certifies that in his or her opinion a tree is impairing, interfering with, or presents a risk or hazard to the operation of sewers, drains, water lines, septic fields, electrical lines, poles or other similar equipment and appurtenances and that the impairment, interference

or risk cannot be reduced or removed in any way other than the removal of the tree;

- (c) where the tree prevents the owner of the lot on which the tree is located from developing or using a lot in a manner permitted under the Zoning Bylaw, and the development or use cannot be modified to accommodate the tree without causing the owner undue hardship as determined by the General Manager;
- (d) where:
  - (i) the ~~tree has a mature height of eight (8) metres or less;~~ situated within two (2) metres of an existing building foundation wall permitted pursuant to the Zoning By-law, as measured from the outer stem of the tree at 1.4m up the stem, to the foundation; or
  - (ii) ~~the tree has a mature height of more than eight (8) metres situated within three (3) metres of an existing building foundation wall permitted pursuant to the Zoning By-law;~~ or
  - (iii) a building permitted by the Zoning By-law is proposed and the building layout, location, or shape cannot be modified to accommodate the tree without causing the owner undue hardship as determined by the General Manager.
- (e) where the tree is situated on a lot within the Agricultural Land Reserve, which is zoned to permit agricultural use and the application is accompanied by a sworn declaration of the owner declaring that the tree is to be cut or removed to permit agricultural use, that the agricultural use cannot be located elsewhere on the lot so as to accommodate the tree, and that the owner agrees in writing that no application for subdivision, rezoning, or development of that lot will be accepted by the City for a period of five (5) years commencing on the date of issuance of the tree cutting permit; or
- (f) where the tree is situated on a lot outside the Agricultural Land Reserve, which is zoned to permit agricultural use and the application is accompanied by an arborist report and by a sworn declaration of the owner declaring that the tree is to be cut or removed to permit agricultural use, that the agricultural use cannot be located elsewhere on that lot so as to accommodate the tree, and where the owner enters into a restrictive covenant registered on the title of the lot documenting that the owner has agreed not to make application for development of the lot for a period of ten (10) years, and that full replacement trees and all other applicable provisions of this Bylaw, as determined by the General Manager, will apply should the development application be considered for the lot within the ten (10) year period.

30. The General Manager may issue a tree cutting permit for the removal of a protected tree other than a significant tree where the owner submits an arborist report which documents that the protected tree, by virtue of its size and species, is inappropriate for its location

and the reasons that it is deemed to be inappropriate for its location, all to the satisfaction of the General Manager. The General Manager shall determine the number, size, species and location of replacement trees and required securities.

31. ~~Deleted A tree cutting permit will be issued for the pruning of a significant tree where the owner submits an arborist report which certifies that the pruning is necessary and where this report is approved by the City Landscape Architect, the Trees and Landscape Manager or an arborist chosen by the City, in which case the General Manager may require, as a condition of the tree cutting permit, that all pruning activity be carried out under the on-site supervision of an arborist.~~
32. The General Manager may, as a condition of any tree cutting permit:
  - (a) require that a tree survey, arborist report in accordance with the terms of the tree cutting permit application, or both, accompany the tree cutting permit application;
  - (b) require that preliminary lot grading and servicing plans accompany the tree cutting permit application;
  - (c) require that the cutting and removal of trees or specific trees be carried out under the supervision of an arborist;
  - (d) recommend the treatment of diseased trees in accordance with sound arboricultural practice as an alternative to the removal of a protected tree; ~~and~~
  - ~~(e)~~ determine the location, number, species and size of replacement trees required; ~~and-~~
  - ~~(e)(f)~~ Require that a replacement tree plan be submitted by an arborist.
33. The General Manager may revoke a tree cutting permit if the terms and conditions of the permit have been breached or the information supplied by the applicant in support of the permit is found by the General Manager to have been inaccurate, incomplete or erroneous.
34. The General Manager may retain the services of an independent arborist to review an arborist report submitted to the City under the provisions of this Bylaw, in support of an application for a tree cutting permit, in instances where the completeness or accuracy of the report are brought into question through a field inspection by the City Landscape Architect, Trees and Landscape Manager or the Environmental Technician. Where the original arborist report submitted to the City is shown to be incomplete or inaccurate, the cost of the independent arborist report shall be paid by the owner and collected by the City, prior to the adoption of the related rezoning or the subdivision approval or the issuance of the related tree cutting permit, whichever comes first.
35. The General Manager may refuse to grant a tree cutting permit for trees located ~~with the high sensitivity area as described in SCHEDULE "A".~~ within a riparian area.

**Part 8**  
**Permit Fees and Securities**

**Permit Fees**

**36. Existing Lots Where No Subdivision is Proposed**

On existing lots zones for residential use where no subdivision is proposed, as well as on the lots zoned for commercial, industrial, or institutional use where neither subdivision consolidation, nor any development requiring a development permit or development variance permit is proposed, the fee for tree cutting permit shall be a NINETY-THREE (\$93.00) DOLLARS base fee plus THIRTY-SIX (\$36.00) DOLLARS for every protected tree removed.

**37. Proposed Subdivisions for Single Family Residential Lots**

The following table shall be used to calculate the fee for a tree cutting permit for proposed subdivisions involving single family residential lots:

Zone and Lot Size	Fees
RF-12, and RF-G, RF-9, RF-12C, RF-13, RF-10, RF-10S, <a href="#">RF-9S</a> , <a href="#">RF-SD</a> and RF-9C Lots smaller than 340 m <sup>2</sup>	\$130.00 per proposed Lot
RF, RF-G Lots greater than or equal to 340 m <sup>2</sup> , RF-SS, R-F(R), R-F(F), R-F(C)	\$155.00 per proposed Lot
RH, RH-G, R-H(G), RQ, <a href="#">RF-O</a>	\$187.00 per proposed Lot
RA, RA-G, RC	\$591.00 per proposed Lot

All fees are subject to applicable taxes.

**38. Proposed Multi-Family Residential Lots, Commercial, Industrial and Institutional Lots (Other than those described in Part 8, Section 36)**

The following table shall be used to calculate the fee for a tree cutting permit for sites proposed for multi-family residential, commercial, industrial and institutional use:

Zone Designation	Fees
RM-D, RM-M, RM-10, RM-15 RM-30, RM-45 RM-70, RM-135 RMC-135, RMC-150, RMS-1, RMS-1A, RMS-2, R-F(D), R-F(m), R-T(1), RM-1, RM-2, RM-3, RM-4, P-P, C-4, C-5, C-8, C8A, C-8B, C-15, C-35, CHI, CG-1, CG-2, CTA, CCR, CPR, CPG-, CPM, C-L, C-R(1), CR(2), C-R(3), C-S, C-C, C-H, I-S, C-G(1) C-G(2), C-T(1), C-T(2), P-P(1), P-R, P-D, IB, IL, IH, IS, IA, CD, I-1, I-P(2), I-G, I-T, I-W, I-H, I-W, I-L(S), I-A PC, PA-1, PA-2, PI <a href="#">RM-23, IB-1, IB-2, IB-3, IL-1</a>	\$591.00 per acre

All fees are subject to applicable taxes.

**39. Agricultural Lots**

The following table shall be used to calculate the fee for a tree cutting permit for sites zoned or proposed for agricultural use:

Zone Designation	Fees
A-1, A-2, A-3	\$484.00 per acre
A-1, A-2, A-3 within the ALR	\$484.00 per acre

All fees are subject to applicable taxes.

For the purposes of Part 8, Section 39, the number of acres is based on the area to be cleared and not on the area of the entire lot.

40. Where a tree cutting permit must be amended to show a change in the number or location of trees to be retained or removed after the tree cutting permit has been issued, the permit

holder will be required to pay a non-refundable permit amendment fee in the amount of NINETY-SEVEN (\$97.00) DOLLARS plus applicable taxes.

41. For the purposes of determining the fees under Part 8, any lot against which a land use contract has been registered shall be deemed to have the zone underlying the applicable land use contract and lots zoned pursuant to Surrey Zoning Bylaw, 1979, No. 5942, as amended, shall be deemed to have the zoning which corresponds to the zone name in Zoning Bylaw, 1979, No. 5942, as amended.

## **Securities**

### Part 8A Securities

#### General

42. Where replacement trees or retention of existing trees are required as a condition of a tree cutting permit or as part of a penalty for cutting, removing or damaging protected trees without a tree cutting permit or cutting, removing or damaging trees in excess of the number allowed by the tree cutting permit, the owner or person responsible for the cutting, removal or damage shall provide to the City a security deposit in cash or letter of credit in the amount specified on the tree cutting permit or a penalty notice, for the period and on the terms specified in Part 8A of this Bylaw. No interest shall be paid by the City on security deposits.
43. Any letter of credit required to be provided under this Bylaw shall be a clean, unconditional and irrevocable letter of credit drawn from a Canadian financial institution acceptable to the City and in a form acceptable to the City. If, for any reason, the irrevocable letter of credit ceases to be effective security or becomes unenforceable so as to remove or reduce its purpose as full security for the due and proper performance of the requirements of this Bylaw, the owner shall replace it with a further letter of credit acceptable to the City within twenty-one (21) days prior to the expiry of the letter of credit then held by the City. If the owner fails to do so, the City will draw down on the current letter of credit without notice or restriction and hold the monies in lieu thereof.
44. If at any time an owner fails to comply with the provisions of this Bylaw relating to requirements for retention of existing trees or replacement trees and their maintenance, the City may by its employees or others under its direction enter upon the lands that are the subject of the requirements to plant replacement trees or maintain protected trees and for such purposes may draw upon the securities provided and expend the funds to cover all costs and expenses of so doing. Alternatively, the City may use the securities to plant trees elsewhere on any City-owned property.

#### Replacement Trees

- 44.1 If replacement trees are not planted as required under a tree cutting permit issued independently of a building permit, development permit, subdivision or rezoning, the replacement tree securities will be forfeited to the City two (2) years from the date of

issuance of the tree cutting permit.

45. The amount of the security for the provision, installation and maintenance of replacement trees, as may be required by this Bylaw, shall be as follows:

- (a) ~~FOUR FIVE HUNDRED AND FIFTY~~ (~~\$400550.00~~) DOLLARS, plus applicable taxes per replacement tree where the replacement tree required is a five (5) centimetre caliper deciduous tree or a three (3) metre tall conifer;
- (b) ~~EIGHT HUNDRED ONE THOUSAND ONE HUNDRED~~ (~~\$8001100.00~~) DOLLARS, plus applicable taxes per replacement tree where the replacement tree required is an eight (8) centimetre caliper deciduous tree or a four (4) metre tall conifer;
- (c) as specified by the General Manager when the replacement tree is other than the sizes listed in 45(a) or 45(b); and
- (d) where the replacement trees are part of the overall landscaping required under a development permit, development variance permit or subdivision, the security is to be in the amount specified in the approved landscape cost estimate associated with the development permit, development variance permit or subdivision; ~~and~~

Retained Trees

46. The amount of security for the trees proposed to be retained as a requirement of a subdivision application, development permit, development variance permit, building permit or demolition permit shall be as follows:

- (a) TEN THOUSAND (\$10,000.00) DOLLARS per significant tree;
- (b) FIVE THOUSAND (\$5,000.00) DOLLARS per specimen quality tree;
- (c) THREE THOUSAND (\$3,000.00) DOLLARS per protected tree other than 46(a) and 46(b) above; and
- (d) ~~The total amount of security deposited under Section 46 may not exceed ONE HUNDRED THOUSAND (\$100,000.00) DOLLARS or, in the case of a single family subdivision, TEN THOUSAND (\$10,000.00) DOLLARS per lot created by the subdivision, whichever amount is lower, for each tree cutting permit or for each subdivision application, development permit.~~ The total amount of security required under this Section 46 may not exceed FIFTEEN THOUSAND (\$15,000.00) DOLLARS for a single family dwelling on an existing lot of record; and
- (e) The total amount of security deposited under this Section 46 may not exceed ONE HUNDRED AND FIFTY THOUSAND (\$150,000.00) DOLLARS for each subdivision, development permit, development variance permit or re-zoning application.

### Release of Securities for Retained Trees

46.1 The security provided to the City under Section 46 will be held by the City until two (2) years after building final approval has been issued. If an Environmental Technician determines that the retained trees have not been damaged during construction, ~~then the General Manager may, at his or her sole discretion, release the security after building final approval has been issued.~~

46.2 The security provided to the City under Section 46 for retained trees will be eligible for an inspection by an Environmental Technician if one of the following conditions are met:

- a. Twelve (12) months after a Letter of Acceptance is issued by the City;
- b. Two (2) years after Building Final has been issued; or
- c. At the discretion of the General Manager

### Release of Securities for Replacement Trees and Landscaping

47. The amount of security held by the City under Section 45 shall be released in stages as provided in Sections 48 and 49. It will be a condition of the release of any security provided under this Bylaw, that the General Manager be satisfied that the owner has complied with the tree replacement and maintenance requirements of this Bylaw and the tree cutting permit.

48. Subject to Section 47, a security deposit collected to cover the cost and maintenance of a replacement tree, shall be reduced as follows:

- (a) by fifty (50%) percent of the original amount after the planting of replacement trees has been approved by the City in accordance with the inspection requirements as set out in Part 11; and
- (b) by the balance of the deposit after one year from the date of the first reduction provided that the condition of the replacement trees has been approved by the City in accordance with the inspection requirements as set out in Part 11.

49. Subject to Section 47 a security deposit collected to cover the total costs of the required landscaping, including replacement trees, shall be reduced as follows:

- (a) by ninety (90%) percent of the original amount after the landscaping is completed and approved by the City in accordance with the inspection requirements set out in Part 11; and
- (b) by the balance of the deposit after one yearthree (3) months from the date of the first reduction provided that the landscaping is approved by the City in accordance with the inspection requirements set out in Part 11.

49.1 If the time in Section 49(b) has passed without completion of the required work, a strata corporation that owns the lands upon which the work is to be done may request that the balance of the deposit be paid to the strata corporation. Upon receipt of such request the City will provide

written notice the person who paid the deposit at the last contact address in the City's files. The person who paid the deposit may then:

(a) carry out the required work; or

(b) agree in writing to allow the City to pay the deposit to the strata corporation

and if the person does not carry out the work or respond within the time specified in the notice, the City may pay all or part of the deposit to the strata corporation upon completion by the strata corporation of the required work. The General Manager may require copies of invoices paid by the strata corporation, or such other proof as may be determined necessary by the General Manager, prior to payment of all or part of the deposit to the strata corporation.

#### Forfeit of Securities

49.2 If replacement trees are not planted as required under a tree cutting permit issued independently of a building permit, development permit, subdivision or rezoning, the replacement tree securities will be forfeited to the City two (2) years from the date of issuance of the tree cutting permit.

49.3 If replacement trees are not planted as required under a tree cutting permit issued for a building permit, development permit, subdivision or rezoning, the replacement tree securities will be forfeited to the City two (2) years from the date the building receives final approval or a letter of acceptance has been issued for the project, whichever is earlier. If the replacement trees are not planted and the building does not receive final approval or a letter of acceptance has not been issued, then the replacement tree securities will be forfeited to the City five (5) years from the date the tree cutting permit was issued.

49.4 If required landscaping, including replacement trees, is not carried out, the securities described in Section 49 will be forfeited to the City ten (10) years from the date the securities were paid to the City.

### **Part 9 Replacement Trees**

50. Replacement trees shall be required in accordance with this Bylaw for each lot from which any protected tree is cut, removed or damaged and must be of a species and size as determined by the General Manager or as specified in the tree cutting permit, at the discretion of the General Manager. Replacement trees required pursuant to Part 5 shall be of a size, species and location as determined by the General Manager.
51. Replacement Trees must meet the plant condition and structure requirements set out in the latest edition of the BCSLA/BCLNA "B.C. Landscape Standard" and the CNFA "Canadian Standards for Nursery Stock"–CLNA/CSLA "Canadian Landscape Standard" and the CNLA "Canadian Nursery Stock Standard" to be considered acceptable by the General Manager.

52. Replacement Trees must be planted and maintained in accordance with the requirements set out in the latest edition of the CNLA/CSLA "Canadian Landscape Standard."~~BCSLA/BCLNA "B.C. Landscape Standard".~~

53. Replacement Trees shall be planted, where possible, on the same lot as the trees that are cut or removed from the lot, to the extent that the lot will accommodate such replacement trees in accordance with sound arboricultural practice.

53.1 Replacement trees shall not be planted:

- ~~(a) in the case of trees having a mature height of eight (8) metres or less, within two (2) metres of a building foundation wall; or~~
- ~~(b) in the case of trees having a mature height of greater than eight (8) metres, within three (3) metres of a building foundation wall; and~~
- ~~(c) within one (1) metre of any property line of a lot.~~

- (a) Within 1m of any property line of a lot
- (b) Within 3.5m of a permitted building or structure's foundation wall
- (c) Within 1m of service lines including but not limited to sanitary, water, electrical, underground services
- (d) Within 1m of any hardscape including but not limited to retaining walls, driveways, patios, walkways
- (e) Within 3m of another tree
- (f) Within 3m of overhead powerlines

53.2 Replacement trees must be planted in a space that will be appropriate for the mature height and size of the tree species planted. Appropriate tree species may be recommended by an arborist and must be accepted by an Environmental Technician.

54. Where no construction or site disturbance is proposed that would affect the planting of replacement trees, the replacement trees must be planted within ninety (90) days of the date of issuance of the tree cutting permit.

55. Where a replacement tree is to be planted pursuant to Part 5 of this Bylaw, it must be planted within ninety (90) days of written notice being delivered to the owner by the City.

56. Where the planting of replacement trees would hinder proposed construction or where proposed construction would jeopardize the survival of replacement trees, the replacement trees must be planted within ninety (90) days of the final occupancy approval for the last building being constructed that would jeopardize the survival of the tree, but in any case, within three (3) years of the date of the issuance of the tree cutting permit when the date of construction completion is not known, except where an extension of time is granted in writing by the General Manager.

1. The number of replacement trees required under Section 50 shall be two (2) replacement trees for each one (1) protected tree that is cut, removed or damaged, except that where the protected tree is an alder or cottonwood tree then one (1)

~~replacement tree shall be required for each alder or cottonwood tree that is cut, removed or damaged. If, in the assessment of the General Manager, the lot cannot accommodate two (2) replacement trees for each protected tree that is cut, removed or damaged without compromising sound arboricultural practices, due to the size or other characteristics of the lot, the owner shall be required to pay cash-in-lieu to the City in the amount of FOUR HUNDRED (\$400.00) DOLLARS plus applicable taxes for each replacement tree that cannot be accommodated.~~

57. The number of replacement trees required under Section 50 shall be two (2) replacement trees for each one (1) protected tree that is cut, removed, or damaged except as follows:

(a) if the protected tree is a red alder or black cottonwood, and the tree is not located within a riparian area, the number of replacement trees required shall be one (1) tree for each one (1) protected tree that is cut, removed, or damaged; and

(b) if, in the assessment of the General Manager, the lot cannot accommodate two (2) replacement trees for each protected tree that is cut, removed or damaged without compromising sound arboricultural practices, due to the size or other characteristics of the lot, then the number of replacement trees required will be reduced to the number of replacement trees that can be accommodated as determined by the General Manager;

(c) if Section 57(a) applies and, in the assessment of the General Manager, the lot cannot accommodate one (1) replacement tree for each protected red alder or black cottonwood tree that is cut, removed or damaged without compromising sound arboricultural practices, due to the size or other characteristics of the lot, then the number of replacement trees required for the red alder and black cottonwood trees will be reduced to the number of replacement trees that can be accommodated as determined by the General Manager.

If the number of replacement trees required is reduced under Section 57(b) or (c), the owner shall be required to pay cash-in-lieu to the City in the amount of FIVE HUNDRED AND FIFTY (\$550.00) DOLLARS plus applicable taxes for each replacement tree that cannot be accommodated.

57.

58. The General Manager may reduce the number of replacement trees required in Section 57 and increase the size of the required replacement trees and increase the amount of securities from ~~FOUR HUNDRED~~ FIVE HUNDRED AND FIFTY (\$400~~550.00)~~ DOLLARS plus applicable taxes per tree to EIGHT HUNDRED ONE THOUSAND ONE HUNDRED (\$800~~1100.00)~~ DOLLARS plus applicable taxes per tree where it is ~~required~~ determined by the General Manager that upsizing is required.

59. The cash-in-lieu described in Section 57 shall not exceed ~~THIRTY-FOURTY ONE THOUSAND~~ THOUSAND TWO HUNDRED AND FIFTY (\$30,000~~41,250.00)~~ DOLLARS, plus applicable taxes per acre of land from which trees are removed.

60. The number of replacement trees to be planted on each lot in single-family subdivisions, based on the zoning designation of the lot being created, may not exceed the number as specified below, provided that the requirements of Sections 57, 58, and 59 are met:

Size of Lot Being Created	No. of Replacement Trees Required Per New Lot
<del>RF-12 and RF-G (those RF-G Lots smaller than 340 m<sup>2</sup>)</del>	0, unless otherwise determined by the General Manager
<del>RF, RF-G Lots greater than or equal to 340 m<sup>2</sup>, RF-SS, R-F(R), R-F(F), R-F(C) Lots 341m<sup>2</sup> to 460m<sup>2</sup></del>	<u>3</u> <del>2</del>
<del>RH, RH-G, R-1, R-H(G) Lots 461m<sup>2</sup> to 580m<sup>2</sup></del>	<u>5</u> <del>3</del>
<del>Lots 581m<sup>2</sup> to 700m<sup>2</sup></del>	<u>4</u>
<del>Lots 701m<sup>2</sup> to 820m<sup>2</sup></del>	<u>5</u>
<del>Larger than RHLots larger than 821m<sup>2</sup></del>	To be determined by the General Manager

61. Where the total number of replacement trees required for the subdivision is less than one-half of the total number of protected trees to be removed from the parent lots that are being subdivided, the General Manager may require that the size of the replacement trees be increased and the amount of securities be increased to reflect the larger size of the replacement trees.
62. Where a tree that is not a protected tree is proposed to be retained within a proposed subdivision, and where the tree is the same size or larger than the size of the required replacement tree, the retained tree may be considered as one (1) of the replacement trees required for that lot, provided that it is growing in a location that does not conflict with proposed buildings, driveways, services or the construction of those buildings, driveways or services. If the number of trees retained on one (1) lot exceeds the number of replacement trees required for that lot, the extra trees may be credited against other lots. However, this transfer of credits from one (1) lot to another will be limited to a maximum of ~~two-one~~ (2) credits per lot, provided that a minimum of one (1) tree is planted in the front yard of each new lot.

### Part 10 Tree Protection

63. Where the trunk of any protected tree is within ten (10) metres of any excavation, demolition, construction, or engineering works, or as otherwise required by the General Manager, a tree protection barrier must be installed around the protected tree in accordance with Schedule "C".

64. No demolition permit, building permit or tree cutting permit shall be issued before the tree protection barrier has been installed and approved by either the Environmental Technician or the General Manager or his duly authorized representative, unless otherwise directed by the General Manager.
65. A tree protection barrier must remain in place and in accordance with Schedule "C" until the removal of the tree protection barrier is approved by the General Manager.
66. Site disturbance within the tree protection zone is prohibited including, but not limited to, site grading, deposition or storage of soil or any other any material, disposal of any toxic material, access by any vehicular traffic or heavy equipment, storage of construction equipment, excavation, or use of the area as an amenity space during construction.
67. Any work within a tree protection zone must be approved by the General Manager, prior to its commencement and the General Manager may refuse to allow the work or may specify conditions under which the work is to be undertaken.

## **Part 11 Inspection and Assessment**

68. The Landscape-Environmental Technician, City Landscape Architect, Trees and Landscape Manager, an arborist or similarly qualified expert retained by the General Manager to provide technical advice to the General Manager, or any Bylaw Enforcement Officer of the City is authorized to enter at all reasonable times without the consent of the owner on any lot that is subject to the Bylaw to ascertain whether the regulations, prohibitions and requirements of this Bylaw or any tree cutting permit are being met or to assess or inspect any tree or tree remains on the lot.
69. Where a protected tree has been cut or damaged on a lot in violation of this Bylaw, without a tree cutting permit, or in excess of any permission or in violation of any terms and conditions of a tree cutting permit, the trunks, limbs, roots, and remains of the cut or damaged tree shall not be removed from the lot until an investigation and assessment by the General Manager is completed and the removal is expressly authorized by the General Manager.
70. In accordance with Part 8, Section 47, once all replacement trees required under a tree cutting permit have been planted, or once the landscaping requirements of a development permit or building permit have been substantially completed, the owner may either:
  - (a) request that the Environmental Technician conduct a field review to confirm that the replacement trees or landscaping have been provided and installed in accordance with this Bylaw and any related permits, and if a reduction or release of securities is in order; or
  - (b) have a landscape architect submit to the City a sealed BCSLA Schedule L-3, provided that the same landscape architect has previously submitted to the City, a BCSLA Schedule L-1 and L-2 for the same project and work, have a landscape architect submit to the City a sealed BCSLA Schedule C-L along with a field

review, provided that the same landscape architect has previously submitted to the City a BCLSA Schedule L for the same project and work.

(b)

71. A TWO HUNDRED and SEVEN (\$207.00) DOLLARS plus applicable taxes Site Visit fee will be charged for every field review that has been requested and conducted after the first review for any project, where no reasonable attempt has been made by the owner to correct the deficiency(s) identified during the previous field review. No further field reviews will be conducted until the Site Visit fee has been paid in full.

**Part 12  
General Provisions**

72. ~~Surrey Tree Preservation Bylaw, 1996, No. 12880 and all amendments thereto are hereby repealed, except in the case of applications for rezoning, subdivision, development permit or building permit, which have been submitted to the City and the applicable fees have been paid as of the date of adoption of this Bylaw, in which case Surrey Tree Preservation Bylaw, 1996, No. 12880, as amended, shall apply to such applications for a period of twelve (12) months after the date of adoption of this Bylaw. After the expiration of twelve (12) months, this Bylaw shall apply to all trees in the City of Surrey and Surrey Tree Preservation Bylaw, 1996, No. 12880 and all amendments thereto, shall be wholly repealed.~~ Deleted
73. All Schedules referred to herein are attached to and form part of this Bylaw.
74. The provisions of this Bylaw are several and the invalidity of any part of this Bylaw shall not affect the validity of the remainder of this Bylaw.
75. This Bylaw shall come into force on the date of final adoption hereof.

PASSED THREE READINGS on the 11<sup>th</sup> day of September, 2006.

RECONSIDERED AND FINALLY ADOPTED, signed by the Mayor and Clerk and sealed with the Corporate Seal on the 25<sup>th</sup> day of September, 2006.
