Corporate NO: L013
Report COUNCIL DATE: October 6,

REGULAR COUNCIL - LAND USE

 TO:
 Mayor & Council
 DATE:
 October 3, 2003

 FROM:
 General Manager, Plansing and Previous Plansing and Plansing and

### RECOMMENDATION

The Planning an Development Department recommends that Council:

- 1. Receive this report as information
- 2. Approve an amendment to the Official Community Plan to delete the lands illustrated in Appendix "A" from the Designated Development Permit Area and authorize the City Clerk to bring forward the required amendment by-law for the required readings and to set a date for a Public Hearing;
- 3. Approve amendments to Surrey Zoning By-law, 1993, No. 12000 to incorporate the Business Park 1 Zone (IB-1) and Business Park 2 Zone (IB-2) and other related text amendments, as documented in Appendices "B" and "C", respectively, and authorize the City Clerk to bring forward the required amendment by-law for the required readings and to set a date for a Public Hearing;
- 4. Authorize the City Clerk to bring forward a by-law for the required readings which will rezone the lands illustrated in Appendix "D" from Intensive Agriculture Zone (A-2) (By-law No. 12000) and Comprehensive Development Zone (By-law No. 5942) to Business Park 1 Zone (IB-1) (By-law No. 12000) and to set a date for the related Public Hearing;
- 5. Authorize the City Clerk to bring forward a by-law for the required readings which will rezone the lands as described in Appendix "D" of this report from General Agriculture Zone (A-1) (By-law No. 12000) and Comprehensive Development Zone (By-law No. 5942) to Business Park 2 Zone (IB-2) and to set a date be set for the related Public Hearing;
- 6. Authorize the City Clerk to bring forward a by-law for the required readings, which will rezone the lands shown in Appendix 'D'' of this report from Intensive Agriculture Zone (A-2) (By-law No. 12000) to Neighbourhood Commercial Zone (C-5) and to set a date for the related Public Hearing; and
- 7. Instruct staff to resolve the following issues prior to Final Adoption of the above by-laws:
  - (a) Ensure that all engineering requirements and issues, including restrictive covenants, dedications and rights-of-way, where necessary, are addressed to the satisfaction of the General Manager, Engineering.
  - (b) Ensure that the Purchaser (i.e., Kingswood Capital Corporation and Progressive Construction Ltd.) have signed an appropriate agreement and posted a letter of credit with the City that will act to guarantee the completion of the detailed design plans of the Development Cost Charge funded engineering services for the Plane I lands; and

### (c) Finalize the Campbell Heights Business Park Design Guidelines to the satisfaction of the General Manager, Planning and Developmen

## INTENT

The purpose of this report in to prote flow in propri in to prote Ground with a summary of public input carecived a open houses held carlier this summer in relation to the gravement between the City of Surrey and Kingswood Capital Corporation and Progressive Construction Lat. to allow the Campbell Heights area to be opened for development. This report also decuments the steps required to implement the first phase of industrial development in Completed Heights. Including the pre-arosing of source learns, to prevent one of adaptive and present and personal process.

#### BACKGROUND

Council, on December 11, 2000, adopted the Campbell Heights Local Area Plan that provided a land use concept and engineering servicing strategy for the development of lands in the Campbell Heights area of the City.

On Jone 9 2003, Council considered Corporate Report No. 1008 entitled "Campbell Heights Local Area Plan Amendments - Status Report" (Appendix "E") and approved the recommendations of the report, including authorizing staff to proceed to a public information meeting/spea house to present information to and receive input from the public on the proposed implementation of the Campbell Heights Local Area Plan.

More recently, on July 24, 2003, Council approved a Purchase and Sales Agreement with Kingswood Capital Corporation and Progressive Construction Ltd. (the "Purchaser") to sell approximately 265 acres (200 developable acres) of City-owned land on the east and west sides of 192 Street between 20 Avenue. The sale) is under a partnership agreement with the City that includes an arrangement related to providing engineering services to the Campbell Heights area. The subject lands are illustrated in Appendix "P"

As part of the Purchase and Sales Agreement, approximately 100 acres of the land is to be used for "high-end", light impact industrial zones, these being the Business Park 1 (IB-1) and Business Park 2 (IB-2] Zones.

### DISCUSSION

### A. Open Houses

Bablic open basses were held on an AZ 2 and Jame 25, 2003. to receive public import on the proposed implementation plan for Campbell Highly. Approximately 260 per 10 per

Attendees were asked to complete a comment sheer to document their opinion on various supects of the poposed implementation plan. The comment sheer included a series of statements on various supects of the plan with structured responses after each statement ranging from "Strongly Agree" to "Strongly Disagree". In addition, the comment sheer included a number of open-ended questions.

## B. Summary of Comments

Of the 266 people who attended the two open houses, each of 37 people completed and returned a comment sheet. In addition, the Planning and Development Department also received a number of letters on various aspects of planning for the City-owned land.

The information gathered from the Open House comment sheets is summarized in the following table:

Issue	Strongly Agree/Agree	Disagree/ Strongly Disagree	Neutral	No Response
The land uses proposed for Phase 1 City lands are generally consistent with the overall planning objectives for Campbell Heights	15 (41%)	7 (19%)	12 (31%)	3 (8%)
The significant environmental features of the Phase 1 lands are adequately preserved and protected.	12 (32%)	16 (43%)	8 (22%)	1 (3%)
The proposed road network provides good access to the Phase 1 City lands.	15 (41%)	13 (35%)	5 (14%)	4(11%)
Preliminary design guidelines will see the development of buildings with a high quality of design and landscaping.	16 (43%)	9 (24%)	9 (24%)	3 (8.1%)
Proposed IB- 1 and IB-2 Zones are generally supportable.	14 (38%)	15 (41%)	5 (14%)	3 (8.1%)

A synopsis of the comment sheet responses is provided in Appendix "H".

### C. Main Issues and Concerns

The responses and concerns expressed through the open houses can be grouped into a number of main issues. These are as follows:

### Loss of Fish and Wildlife Habitat and Open Space

Concerns have been expressed that the proposed modifications to the Plan pay insufficient attention to the fish and wildlife values in the Plan area and that new development, if it is allowed to proceed, needs to be better integrated with the environmental values of the lands. Specific concerns focus around the loss of wildlife habitat and wildlife corridors, potential impacts of development on the Little Campbell River to the east and south and to the Twin Creeks to the west and south, of the Plan Area.

### Staff Commen

A series of environmental reports have been completed for the City-owned lands in Campbell Heights. The proposed land use plan implementation incorporates the recommendations of these reports.

With respect to fish habital a, and habital a construction concept gain has been prepared and has been prepare

Will respect to wildlife, a comprehence widdlife inventority and habitat preservation plan has been prepared to protect the bio deverly of the area. High expects and/or species and/or sp

In addition to these high value habitat areas, some moderate value habitat is proposed to be retained (and enhanced) along the southern boundary of the study area. This is to primarily provide an improved linkage between high value habitats.

The enforcemental constitutes, as recommended to print unmorabent and printing as a recommended to pr

### 2. Loss of Stokes Pit as a Natural Recreational Area

The Stokes Pit/Latimer Lake area is currently used as a recreational area for a variety of outdoor recreation activities. A number of individuals have expressed concerns that there are fewer and fewer natural areas in the City of Surrey to accommodate the growing number of hikers, walkers, horseback riders and cyclists and that the conversion of this area into an industrial park runs contrary to Surrey's "Active City" initiative

#### Staff Comments

The implementation plan for the first phase of Campbell Heights development generally supports the policies of the Local Area Plan pertaining to parks and recreation. More specifically, the following recreational amenities are proposed

- . Latimer Park will be retained and enhanced. The coniferous forest, east of Latimer Park, is also proposed to be preserved and dedicated as par
- A pedestrian trail system will be developed to connect the existing trail system in Latimer Park with a linear open space corridor in the south. Where located in proximity to environmental features, the pedestrian routes will be developed along the outer edges of habitat areas involving design and construction practices that are sensitive to the natural environmental features.

As discussed in the greatous section, a portion of a north-nouth trait system arising what would be 190 Street, identified in the original band use concept level, from 50 metres, which provides a trail system for pedestrians and a contributor will be provided from the contributor of the provides a trail system from the provides a trail system for pedestrians and a contributor of the provides a trail system from the provides a trail system from pedestrians and a contributor of well-the from the provides of the provides a trail system from pedestrians and a contributor of the provides. The relevant concept is the provides of the provides of the provides a trail system from pedestrians and a contributor of the provides a trail system from pedestrians and a contributor of the provides a trail system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the provides a train a system from pedestrians and a contributor of the pedes

### 3. 4-Year Servicing Moratorium and Development of Lands Outside of Phase 1

As part of the Purchase and Sales Agreement, individual properties outside of the initial phase of development (the "Phase 1 lands") are not permitted to connect to the sanitary sewer for a period of 4 years. This arrangement and the apparent lack of a servicing strategy for lands beyond the Phase 1 boundary is identified as a key concern, particularly by owners of properties which will front the sanitary sewer line, but will not have access

#### Staff Comment

The four year servicing moratorium is intended to address two objectives. From a business perspective, it provides the City's development partner with a comfort level that lands outside of the Phase 1 lands. These other lands could potentially be brought to market at a lower price since they would not be exposed to the heavy off-site servicing costs associated with the Phase 1 lands. From a land use and servicing perspective, the morationum on servicing for lands outside of the initial phase of development under serve to direct all the initial development for lands outside of the initial phase of development under service, if such other proposal, containing of all test 25 services of lands, being development under a sa unit.

### 4. Design Submission Approval Process and Quality of Development

The proposal to evenual development applications from the Development Permit process and to transfer the design review and approval process to a Design Review Committee will always approve developments are approved and that a developments are approved and that a development are approved and the approved are approved and approved are approved and approved are approved and approved are approved and approved are a

### Staff Comments

#### Design Review Process:

Council has endorsed, in principie, a design review process to replace the Development permit process for the lands comprising the initial phase of development in Campbell Heights. The design of sites in the Phase 1 lands is proposed to be reviewed and approved by a Design Review Committee. This process is being implemented on a pilot basis. Council can choose to re-implement the development permit process for the lands comprising the initial phase of development in Campbell Heights. The design of sites in the Phase 1 lands is proposed to be reviewed and approved by a Design Review Committee was to consist of a representative of the Purchaser (i.e. Master Developer), the project design consultant for the master developer and the City Architect or other staff person designated by the Central Manage of Phaning and Development.

In response to the concerns risined at the open houses, the membership on the besign flewing Committee has been adjusted to consist of four gregories on the concerns risinguisted by the General Manager, Plumming and Development. This revised Committee structure strikes an even balance between the developer group and the Ciliy and will be a results-oriented team focused on identifying design issues and assisting each application and between the development of development of been developed fettule design issues and assisting each application and between the development of the other particular development of been about the second and the Committee in the results or a fine of the process includes specific terminate in the virtual and the Committee in the results or a fine of the process includes a fine of the results or a fine of the resu

To further ensure that development in the initial phase of development in Committee is unstanded for further in the Committee cannot reach consensus, will be referred to the Advisory besign Panel (ADP) for review. The ADP's recommendation from those specific aspects of the design and expected the design man achieving a consensus will be referred to the Advisory besign Panel (ADP) for review. The ADP's recommendation from the Development of the design and achieves a proposal design man achieving a consensus will be referred to the Advisory besign Panel (ADP) for review. The ADP's recommendation from the Development of the design and achieves a proposal design. If the members of the Committee is unstantial to the Committee is unstantial

The proposed Design Review Process and the Committee structure will be implemented on a trial basis. The effectiveness of the process will be monitored and modifications will be implemented as needed.

### Quality of Developmen

The review of development proposals by the Cessign Review Committee will be based on a set of competenches design guidelines, which will be extended and context to prospective sile developers for the planning and design of individual developments to ensure design coordination and to maintain a consistently high

The design guidelines are to be used in conjunction with the development policies and design guidelines for the Campbell Heights area contained within the Campbell Heights Local Area Plan and the Development Permit Area Guidelines contained in the Surrey Official Community Plan

### 5. Purchase and Sale of City Lands/Public Input Process

There continues to be concerns that the purchase and sale of City lands was completed "behind closed doors" and that decisions relating to the development of the lands have already been made with no meaningful input from the public. There are also concerns that the costs of developing the necessary roads and services will far outweigh the revenue from the sale of the lands

### Staff Comments

The sale of the City-connect lands to Kingswood Capital Corporation am of progressive Construction Ltd. is based on the Memorandum of Understanding (MOU) between the City and the Campbell Heights Group (i.e., Kingswood Capital Corporation and Progressive Construction Ltd.) approved by Council on July 24, 2002. The City as completed with all of the requirements of the Local Government Act related to the public notification and disclosure and intention to provide "assistance". On July 24, 2002, Council approved the Purchase and Salest Agreements between the City of Surrey and Kingswood Capital Corporation and Progressive Construction Ltd.) approved by Council on July 24, 2002. The City as completed with all of the requirements of the Local Government Act related to the public notification and disclosure and intention to provide "assistance". On July 24, 2002, Council approved by Council on July 24, 2002. The City entered into this agreement with a recognition that the City's current business development base is delicitent relative to providing sufficient jobs in the City for those members of the work force that reside in the City and relative to achieving a healthy tax base from which to provide a full range of services for the City's cliziens. It was also recognized, due to the very high costs associated with bringing engineering services to the Campbell Heights are and in the absence of some form of partnership, that it could be many years before the area would see unban forms of business development in accordance within Its COP designation. The City's does not recognized, due to the law gare available for business development in accordance within the City's focus in structuring the purchase was as a secure and with the provises were made agreement with the provises were made agreement with the provises were made administent for the completed in the city's focus in structuring the purchase was not exclude by the contrastive to the completed from the city's focus in structuring the purchase was not excludely beginned to the completed from the city's focus in structuring the purchase was not excludely beginned to the completed from them be sized of its land, value to the provise of the completed from them to be excluded from them to the completed fr

# D. Implementation Measures

One of the Emms of the Purchase and Sales Agreement between the City and Kingswood Capital Corporation and Progressive Construction Ltd. is that the City will undertake to modify the local area plan for Campbell Heights, if necessary, and to rezone the City land that may be used for "high end" light impact industrial uses. To this effect, two new industrial zones were presented and endorsed, in principle, by Council, on June 3, 2003 – Business Park 1 Zone (B-1) and Business Park 2 Zone (B-2). These two proposed zones were presented for public input at the open houses. As documented previously in this report, no serious concerns were identified with these two proposed zones some interest in the Collowing Source (B-1) and Business Park 1 Zone (B-1) and Business Park 1 Zone (B-1). These two proposed zones were presented for public input at the open houses. As documented previously in this report, no serious concerns were identified with these two proposed zones some interest than some concerns that if outdoor storage is permitted in the IB-2 Zone that it be adequately screened. An overview of these two zones is presented in the following sever present of the City land on or proposed zones and a concerns that if outdoor storage is permitted in the IB-2 Zone that it be adequately screened. An overview of these two zones is presented in the following severage and a concerns that if outdoor storage is permitted in the IB-2 Zone that it be adequately screened. An overview of these two zones is presented in the following severage and a concerns that if outdoor storage is permitted in the IB-2 Zone that it be adequately screened. An overview of these two zones is presented in the following severage and a concerns that if out a concern that it is a concern to the concerns that it is a concern that it is a concern that it is a concern that

### Business Park 1 Zone (IB-1)

The IB-1 Zone is modelled after the existing IB — Business Park Zone with modifications to the range of permitted uses, yards and service uses carried out in enclosed buildings forming part of a comprehensively designed evelopment. Outdoors to stoage of any goods, installed among the special prohibited in this zone. In a similar viet, the IB-1 Zone includes a prohibition on the location of loading areas and garbage containers in any required front or flanking street yard settack. This zone will apply to the lands located on the north side of 24 Avenue in the area of the designated Technology/Business Park as illustrated in Appendix "D". The details of the IB-1 Zone includes a prohibition on the location of loading areas and garbage containers in any required front or flanking street yard settack. This zone will apply to the lands located on the north side of 24 Avenue in the area of the designated Technology/Business Park as illustrated in Appendix "D". The details of the IB-1 Zone includes a prohibition on the location of loading areas and garbage containers in any required front or flanking street yard settack. This zone will apply to the lands located on the north side of 24 Avenue in the area of the designated Technology/Business Park as illustrated in Appendix "D". The details of the IB-1 Zone includes a prohibition on the location of loading areas and garbage containers in any required front or flanking street yard settack. This zone will apply to the lands to the specific and the prohibition of the designated Technology/Business Park as illustrated in his zone. In a similar viet, the IB-1 Zone includes a prohibition on the location of loading areas and garbage containers in any required front or flanking street. The prohibition of the part of o

### Business Park 2 Zone (IB-2)

The IB 2 Zone is intended to accommendate. "Figh most if fight impact industrial uses and is similar to the IB-1 Zone except the the IB-1 Zone permits outdoor storage and display within a rear art the lost covered by auditor storage cannot exceed the area of the lot covered by the principal building. This zone also includes requirements for the screening of and the maximum height of any outdoor storage and display within a rear art the lost covered by the principal building. This zone also includes requirements for the screening of and the maximum height of any outdoor storage cannot exceed the area of the lot covered by the principal building. This zone also includes requirements for the screening of and the maximum height of any outdoor storage and display within a rear art the lot covered by the principal building. This zone also includes requirements for the screening of and the maximum height of any outdoor storage and display within a rear art the lot covered by the principal building. This zone also includes requirements for the screening of and the maximum height of any outdoor storage and display within a rear art the lot covered by the principal building. This zone also includes requirements for the screening of any outdoor storage and display within a rear art the lot covered by outdoor storage and display within a rear art the lot covered by outdoor storage cannot exceed the area of the lot covered by outdoor storage cannot exceed the area of the lot covered by outdoor storage and display within a rear art the lot covered by outdoor storage and display within a rear art the lot covered by outdoor storage and display within a rear art the lot covered by outdoor storage and display within a rear art the lot covered by outdoor storage and display within a rear art the lot covered by outdoor storage and display within a rear art the lot covered by outdoor

Truck parking and loading, other than that accessory to a principal use such as light impact industry, warehouse or distribution, is specifically prohibited in both the IB-1 and IB-2 Zones. Accessory truck parking will be counted as outdoor storage area for the purposes of calculating the area of outdoor storage on any lot in this Zone.

### By-law Amendments

The incorporation of the box new zones into the Zoning (is-lar and the coscious) of ju-law and the coscious (is-law and the coscious) of j

In addition to the Zoning By-law amendments described above, the replacement of the Development Permit process by the design review and approval process previously described in this report, requires an amendment to the Official Community Plan to delete the subject lands from the Designated Development Permit Areas.

### Conditions Precedent to Final Adoption of Rezoning By-laws

It is recommended that the following conditions be satisfied, prior to final adoption of the rezoning by-laws recommended in this report:

- 1. Ensure that all engineering requirements and issues, including restrictive covenants, dedications and rights-of-way, where necessary, are addressed to the satisfaction of the General Manager, Engineering
- 2. Ensure that the Purchaser (i.e., Kingswood Capital Corporation and Progressive Construction Ltd.) have signed an appropriate agreement and posted a letter of credit with the City that will act to guarantee the completion of the detailed design plans of the DCC-funded engineering services for the Phase 1 lands; and
- 3. Finalize the Campbell Heights Business Park Design Guidelines to the satisfaction of the General Manager, Planning and Development.

Condition 1 is a standard condition with all reasoning by justes. Condition 2 is being recommended in the absence of the final agreement between the City and the Purchaser will be posting a letter of credit with the City in the amount of \$1.5 million that will object the scanding of the purchaser will be posting a letter of credit with the City in the amount of \$1.5 million that will object the scanding of the purchaser will be posting as letter of credit with the City in the amount of \$1.5 million that will object the scanding of the s

### CONCLUSION

Open house were field entire risks ummer to present and receive public input on the proposed implementation of the Planse I development in the Campbell Highly in England (Indicated June 2), and the proposed of the proposed of the Planse I development of a developme

eering servicing studies. It is recommended that Council authorize staff to proceed with a process to rezone the Phase 1 lands, in accordance with the descriptions provided in this report and subject to the conditions documented in this report.

Murray Dinwoodie General Manager, Planning and Development

Business Park 1 Zone Part 47A IB-1

This zone is intended to permit development of industrial business parks with a high standard of design consisting of light impact industrial uses, high technology industry, industry with a significant amount of research and development activity, warehouse, offices and service uses carried out in enclosed buildings forming part of a comprehensive design. These uses shall be carried out such that no missance is apparent outside an enclosed buildings forming part of a comprehensive design.

### B. Permitted Uses

Land and structures shall be used for the following uses only, or for a combination of such uses:

- 1. Light impact industry including wholesale and retail sales of products produced within the business premises or as part of the wholesale or warehouse operations provided that the total floor area used or intended to be used for retail sales and display to the public shall not exceed 20% of the gross floor area for each individual business or establishment or 460 square metres [5,000 sq.ft.] whichever is less.
- Warehouse uses.
- (a) social escort services;
- (b) methadone clinics:
- (c) offices of professionals including without limitation, accountants, lawyers, doctors, dentists, chiropractors, physiotherapists, massage therapists and related health care practitioners and notary publics, nor the offices of real estate, advertising and insurance
- Accessory uses including the following:
  - (a) General service uses excluding drive-through banks;
  - (b) Eating establishments limited to a maximum of 200 seats and excluding drive-through restaurants;
  - (c) Community services:
- (d) Child care centre; and
- (e) Dwelling unit(s) provided that the dwelling unit(s) is (are):
- i. Contained within a principal building

- ii. Occupied by the owner or a caretaker, for the protection of the businesses permitted;
- iii. Restricted to a maximum number of:
- a. One dwelling unit in each principal building less than 2,800 square metres [30,000 sq. ft.] in floor area;
- Two dwelling units in each principal building of 2.800 square metres [30,000 sq. ft.] or greater in floor area;
- c. Notwithstanding Sub-sections B.4(c) iii.a. and iii.b., the maximum number shall be two davelling units for lots epsal to or greater than 4.0 hectures [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [10 acres] in area, and where a lot has been subdivided by a strata plan then the shall only be one 140-square metre [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [1,500-sq. ft.] dwelling units for lots equal to or greater than 4.0 hectures [1,500-sq. ft.] dwelling units for lots equal to
- iv. Restricted to a maximum floor area of:
  - a. 140 square metres [1,500 sq. ft.] for one (first) dwelling unit on a lot;
  - b. 90 square metres [970 sq. ft.] for each additional dwelling unit; and
  - c. Notwithstanding Sub-sections B.4(e) iv.a. and iv.b., the maximum floor area shall not exceed 33% of the total floor area of the principal building within which the dwelling unit is contained
- 5. For the purpose of Subsections B.1 and B.2 of this Zone, parking, storage or service of trucks and trailers on any portion of the lot not associated with the uses or operations permitted thereof shall be specifically prohibited

### C. Lot Area

The minimum site area for subdivision shall be 4 hectares [10 acres], except in the case of a remainder lot, where the lots including the remainder lot which were created by the same plan of subdivision are zoned IB-1.

### D. Density

- 1. In Neighbourhood Concept Plan and Infill Areas as described and outlined on the maps attached as Schedule Fattached to this By-law, the maximum floor area ratio shall not exceed 0.1 or a gross floor area of 300 square metres [3,220 sq. ft.] whichever is smaller. The maximum floor area ratio may be increased to 1.00 if amenities are provided in accordance with Schedule G of this By-law.
- In areas other than the ones in Sub-section D.1 of this Zone, the maximum floor area ratio shall not exceed of 1.00.

### E. Lot Coverage

The maximum lot coverage shall be 45% .

### F. Yards and Setbacks

Buildings and structures shall be sited in accordance with the following minimum setbacks:

Use	Setback	Front Yard	Rear Yard	Side Yard	Side Yard on Flanking Street
Principal and Accessory Buildings and Structures		16.0 m.* [52 ft.]	7.5 m. [25 ft.]	7.5 m.** [25 ft.]	9.0 m.*** [30 ft.]

Measurements to be determined as per Part 1 Definitions, of this By-law

- \* The front yard setback may be reduced to 7.5 m. [25 ft.] if the area between the front face of any building or structure and a highway is not used for parking and is landscaped.
- \*\* One (1) side yard setback may be reduced to 3.6 metres [12 ft.] if the side yard abuts land which is commercial or industrial.
- \*\*\* The side yard setback on a flanking street may be reduced to 7.5 m. [25 ft.] if the area between the flanking street face of any building or structure and a highway is not used for parking and is landscaped.

### G. Height of Buildings

Measurements to be determined as per Part 1 Definitions, of this By law:

- <u>Principal buildings</u>: The building height shall not exceed 14 metres [45 ft.].
- Accessory buildings and structures: The building height shall not exceed 6 metres [20 ft.].

### H. Off-Street Parking and Loading/Unloading

- 1. Refer to Table C.3, Part 5 Off-Street Parking and Loading/Unloading of this By law.
- 2. Notwithstanding Subsection D.3(a)ii of Part 5 Off-Street Parking and Loading/Unloading of this By-law, additional areas for parking of trucks and trailers associated with the uses and operations allowed on the lot may be permitted within the designated loading/unloading areas provided that:
  - (a) the number of parking spaces shall not exceed the number of loading spaces and/or shipping/receiving doors; and
  - (b) the parking spaces shall not be visible from the highways abutting the lo

## L Landscaping

- 1. All developed portions of the lot not covered by buildings, structures or paved areas shall be landscaped including the retention of mature trees. This landscaping shall be maintained.
- 2. Along the developed sides of the lot which abut a Major Road as shown in the Official Community Plan, a continuous landscaping strip of not less than 6 metres [20 ft.] in width shall be provided within the lot.
- 3. Along the developed sides of the lot which abut all highways other than a Major Road, as shown in the Official Community Plan, a continuous landscape strip of not less than 3.0 metres [10 ft.] in width shall be provided within the lot.
- 4. A continuous landscape strip of not less than 1.5 metres [5 ft.] in width shall be provided along all side lot lines between a highway and 3.0 metres [10 ft.] back from the front face of the closest principal building fronting a highway.
- 5. A continuous landscaping strip of not less than 6.0 metres [20 ft.] shall be created along all lot lines separating the developed portion of the lot from any residential lot.
- 6. Loading areas, earbage containers and nussive recycling containers shall be screened to a height of at least 2.5 metres 18 ft.1 by buildings, a landscaping screen, a solid decorative fence, or a combination thereof.

### J. Special Regulations

- Land and structures shall be used for the uses permitted in this Zone only if such uses:
- (a) Constitute no unusual fire, explosion or safety hazard
- (b) Do not emit noise in excess of 70 dB measured at any point on any boundary of the lot on which the use is located, provided that where a lot abuts a lot other than an industrial lot the noise level shall not exceed 60 dB; and
- (c) Do not produce heat or glare perceptible from any boundary of the lor on which the use is located.
- Outdoor storage of any goods, materials or supplies is specifically prohibited.
- 3. Loading areas shall not be located within any required front yard setback or flanking street setback which abuts a major road, as shown in the Official Community Plan or any required setback adjacent any residential lot.
- 4. Garbage containers and passive recycling containers shall not be located within any required front or flanking street setback or any required setback adjacent any residential lot.
- 5. Child care centres shall be located on the lot such that these centres have direct access to an open space and play area within the lot.

## K. Subdivision

Lots created through subdivision in this Zone shall conform to the following minimum standards:

Dimensions shall be measured in accordance with Section E.21, Part 4 General Provisions of this By-law.

### L. Other Regulations

In addition to all statutes, by-laws, orders, regulations or agreements, the following are applicable:

- Definitions are as set out in Part 1 Definitions, of Surrey Zoning By-law, 1993, No. 12000, as amended.
- 2. Prior to any use, the Lands must be serviced as set out in Part 2 Uses Limited, of Surrey Zoning By-law, 1993, No. 12000, as amended and in accordance with the servicing requirements for the IB-1 Zone as set forth in Surrey Subdivision and Development By-law, 1986, No. 8830, as amended.
- General provisions are as set out in Part 4 General Provisions, of Surrey Zoning By-law, 1993, No. 12000, as amended.
- 4. Additional off-street parking requirements are as set out in Part 5 Parking and Loading/Unloading, of Surrey Zoning By-law, 1993, No. 12000, as amended.
- Sign regulations are as set out in Surrey Sign By-law, 1999, No. 13656, as amended.
- 6. Special building setbacks are as set out in Part 7 Special Building Setbacks, of Surrey Zoning By-law, 1993, No. 12000, as amended.
- 7. Building permits shall be subject to the Sarrey Building By-law, 1987, No. 9011, as amended, and the Sarrey Development Cost Charge By-law, 2002, No. 14650, as amended, and the development cost charges shall be based on the IB-1 Zone.
- 8. Surrey Tree Preservation By-law, 1996, No. 12880, as amended.
- Development permits may be required in accordance with the Surrey Official Community Plan, 1996, By-law No. 12900, as amended.
- 10. Provincial licensing of child care centres is regulated by the Community Care Facility Act R.S.B.C. 1996. c. 60, as amended, and the Regulations pursuant thereto including without limitation B.C. Reg 319/89/213.

### Business Park 2 Zone

Part 47B		

#### A Intent

This Zone is intended to accommodate and regulate the development of light impact industry, office and limited service uses with a high standard of design that are generally compatible with one another and with adjoining zones.

#### B. Permitted Uses

Land and structures shall be used for the following uses only, or for a combination of such uses:

- 1. Light impact industry including the wholesale and retail sale of products produced within the business premises or as part of the wholesale or warehouse operations provided that the total floor area used or intended to be used for retail sales and display to the public shall not exceed 20% of the gross floor area for each individual business or establishment or 460 square metres [5,000 sq.ft.], whichever is less.
- Warehouse uses.
- Office uses excluding.
  - (a) Social escort services:
  - (b) Methadone clinics; and
- (c) Offices of professionals including without limitation, accountants, lawyers, doctors, dentists, chiropractors, physiotherapists, massage therapists and related health care practitioners and notary publics, nor the offices of real estate, advertising and insurance

#### 4. Accessory uses including the following:

- (a) Coffee shops provided that the seating capacity shall not exceed 35 and the said coffee shop is not licensed by the Liquor Control and Licensing Act. R.S.B.C. 1996, chapter 267, as amended.
- (b) General service uses excluding drive-through banks:
- (c) Child care centres; and
- (d) Dwelling unit(s) provided that the dwelling unit(s) is (are)
- Contained within the principal building:
- ii. Occupied by the owner or a caretaker, for the protection of the businesses permitted;
- iii. Restricted to a maximum number of:
  - a. One dwelling unit in each principal building less than 2,800 square metres [30,000 sq. ft.] in floor area;
  - b. Two dwelling units in each principal building of 2,800 square metres [30,000 sq. ft.] or greater in floor area;

IB-2

- c. Notwithstanding Sub-sections 8.4 (d) iii.a. and iii.b., the maximum number shall be two dwelling units for lost sess than 4.0 hectares [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square mette [1500-sq. ft]. dwelling units for lost sess than 4.0 hectares [10 acres] in area, and where a lot has been subdivided by a strata plan then there shall only be one 140-square mette [1500-sq. ft]. dwelling units for lost sess than 4.0 hectares [10 acres] in area, and where a lot has been subdivided by a strata plan.
- iv. Restricted to a maximum floor area of:
  - a. 140 square metres [1,500 sq. ft.] for one (first) dwelling unit on a lot;
  - b. 90 square metres [970 sq. ft.] for each additional dwelling unit; and
  - c. Notwithstanding Sub-sections B.4(e) iv.a. and iv.b., the maximum floor area shall not exceed 33% of the total floor area of the principal building within which the dwelling unit is cont.
- 5. For purposes of Subsection B.1 and B.2 of this Zone, parking, storage or service of trucks and trailers on any portion of the lot not associated with the uses or operations permitted thereof shall be specifically prohibited.

### C. Lot Area

ot applicable to this Zone.

#### D. Density

- 1. In Neighbourhood Concept Plan and Infill Areas as described and outlined on the maps attached as Schedule F attached to this By-law, the maximum floor area ratio shall not exceed 0.1 or a gross floor area of 300 square metres [3,230 sq. ft.] whichever is smaller. The maximum floor area ratio may be increased to 1.00 if amenities are provided in accordance with Schedule G of this By-law.
- 2. In areas other than the ones in Sub-section D.1 of this Zone, the maximum floor area ratio (FAR) shall not exceed 1.00.

### E. Lot Coverage

The maximum lot coverage shall be 60%.

### F. Yards and Setbacks

Buildings and structures shall be sited in accordance with the following minimum setbacks

Use	Setback	Front Yard	Rear Yard	Side Yard	Side Yard on Flanking Street
Principal and Accessory Buildings and Structures		16 m.* [52 ft.]	7.5 m. [25 ft.]	7.5 m.** [25 ft.]	9.0 m.*** [30 ft.]

### Measurements to be determined as per Part 1 Definitions, of this By-law.

- \* The front yard setback may be reduced to 7.5 m [25 ft.] if the area between the front face of any building or structure and a highway is not used for parking and is landscaped.
- \*\* One (1) side yard setback shall be 7.5 metres [25 ft.] or 0.0 metre if the said side yard abuts land which is commercial or industrial.
- \*\*\* The side yard setback on a flanking street may be reduced to 7.5 m [25 ft.] if the area between the flanking street face of any building or structure and a highway is not used for parking and is landscaped

## G. Height of Buildings

Measurements to be determined as per Part 1 Definitions, of this By-law:

- Principal building: The building height shall not exceed 14 metres [45 ft.].
- 2. <u>Accessory buildings and structures</u>: The building height shall not exceed 6 metres [20 ft.].

### H. Off-Street Parking and Loading/Unloadin

- Refer to Table C.3, Part 5 Off-Street Parking and Loading/Unloading of this By law.
- 2. Notwithstanding Subsection D.3(a)ii of Part 5 Off-Street Parking and Loading/Unloading of this By-law, additional areas for parking of tracks and trailers associated with the uses and operations allowed on the lot may be permitted within the designated loading/unloading areas provided that:
  - (a) the number of parking spaces shall not exceed the number of loading spaces and/or shipping/receiving doors; and
  - (b) the parking spaces shall not be visible from the highways abutting the lot.

## I. Landscaping

- 1. All developed portions of the lot not covered by buildings, structures or paved areas shall be landscaped including the retention of mature trees. This landscaping shall be maintained.
- 2. Along the developed sides of the lor which abut a Major Road, as shown in the Official Community Plan, a continuous landscaping strip of not less than 6.0 metres [30 ft.] in width shall be provided within the lor.
- 3. Along the developed sides of the lot which abut all highways other than a Major Road, as shown in the Official Community Plan, a continuous landscape strip of not less than 3.0 metres (10 ft.) shall be provided within the lot.
- 4. The boulevard areas of highways abutting a lot shall be seeded or sodded with grass on the side of the highway abutting the lot, except at driveways.
- 5. A continuous landscuping strip of not less than 1.5 metres [5 ft.] in width shall be provided along all side lot lines between a highway and 3.0 metres [10 ft.] back from the front face of the closest principal building fronting a highway
- 6. A continuous landscaping strip of not less than 6.0 metres (20 ft.) shall be provided along all lot lines separating the developed portion of the lot from any residential lot.
- 7. Loading areas, earbage containers and nussive recycling containers shall be screened to a height of at least 2.5 metres 18 ft.1 by buildings, a landscaning screen, a solid decorative fence, or a combination thereof.

## J. Special Regulations

- Land and structures shall be used for the uses permitted in this Zone only if such uses:
  - (a) Constitute no unusual fire, explosion or safety hazard;
  - (b) Do not emit noise in excess of 70 dB measured at any point on any boundary of the lor on which the use is located, provided that where a lor abuts a lor other than an industrial lor the noise level shall not exceed 60 dB; and
  - (c) Do not produce heat or glare perceptible from any lot line of the lot on which the use is located.
- Area for outdoor display and storage of any goods, materials or supplies shall:
  - (a) Not be located within any front or side yard;
  - (b) Not to be used for storage of trucks or trailers;
- (c) Not exceed a total area greater than the *lot* area covered by the *principal building*; and
- (d) Be completely screened to a height of at least 25 metres [8 ft, 19 houldhug; and/or solid decorative fencing and/or substantial landscaping strips of not less than 25 metres [5 ft, 2] in width. No display or storage of material shall be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 1] of the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft, 1] width 5 metres [16 ft, 2] of the said screen and in no case shall these materials be piled up to a height of 25 metres [16 ft, 2] of the said screen and in no case shall these materials be piled up to a height of 25 metres [16 ft, 2] of the said screen and in no case shall these materials be piled up to a height of 25 metres [16 ft, 2] of the said screen and in no case shall the said screen and in no case shall
- 3. Loading areas shall not be located within any required front yard setback or flanking street setback or within any required setback adjacent any residential lot.
- 4. Garbage containers and passive recycling containers shall not be located within any required front or flanking street setback, or any required setback adjacent any residential lot.

5. Child care centres shall be located on the lot such that these centres have direct access to an open space and play area within the lot.

### K. Subdivision

 $Lots \ created \ through \ subdivision \ in \ this \ Zone \ shall \ conform \ to \ the \ following \ minimum \ standards:$ 

Lot Size	Lot Width	Lot Depth
1,800 sq. m.	30 metres	30 metres
[ 0.5 acre]	[ 100 ft.]	[100 ft.]

Dimensions shall be measured in accordance with Section E.21, Part 4 General Provisions, of this By-law.

#### L. Other Regulation

In addition to all statutes, by-laws, orders, regulations or agreements, the following are applicable:

- 1. Definitions are as set out in Part 1 Definitions, of Surrey Zoning By-law, 1993, No. 12000, as amended.
- 2. Prior to any use, the Lands must be serviced as set out in Part 2 Uses Limited, of Surrey Zoning By-law, 1993, No. 12000, as amended and in accordance with the servicing requirements for the IB-2 Zone as set forth in Surrey Subdivision and Development By-law, 1986, No. 8830, as amended
- 3. General provisions are as set out in Part 4 General Provisions, of Surrey Zoning By-law, 1993, No. 12000, as amended.
- 4. Additional off-street parking requirements are as set out in Part 5 Parking and Loading/Unloading, of Surrey Zoning By-law, 1993, No. 12000, as amended.
- Sign regulations are as set out in Surrey Sign By-law, 1999, No. 13656, as amended.
- 6 Special building setbacks are as set out in Part 7 Special Building Setbacks of Surrey Zoning Ry, law 1993 No. 12000 as amend
- 7. Building permits shall be subject to the Surrey Building By-law, 1987, No. 9011, as amended, and the Surrey Development Cost Charge By-law, 2002, No. 14650, as amended, and the development cost charges shall be based on the IB-2 Zon.
- 8. Surrey Tree Preservation By-law, 1996, No. 12880, as amended.
- 9. Development permits may be required in accordance with the Surrey Official Community Plan, 1996, By-law No. 12900, as amended.
- 10. Provincial licensing of child care centres is regulated by the Community Care Facility Act R.S.B.C. 1996. c. 60, as amended, and the Regulations pursuant thereto including without limitation B.C. Reg 319/89/213.

Corporate Report NO: <u>L008</u> COUNCIL DATE: <u>June 9, 2003</u>

### REGULAR COUNCIL - LAND USE

TO: Mayor & Council DATE: June 2, 20
FROM: General Manager, Planning and Development Heinbris

Campbell Heights Local

Area Plan Amendments
- Status Report

### RECOMMENDATION

The Planning and Development Department recommends that Council:

- Receive this report as information;
- 2. Endorse, in principle, the proposed Business Park 1 (IB-1) and Business Park 2 (IB-2) Zones for the Campbell Heights Group lands;
- 3. Endorse, in principle, the Campbell Heights design review process as described in this report; and
- 4. Authorize staff to proceed to a Public Information Meeting/Open House to present information to and receive input from, the public on the proposed amendments to the Campbell Heights Local Area Plan.

### INTENT

This report provides Concell with an overview of the work, to date, on proposed amendments to the Campbell Heights Local Area Plan to include an allowance for a portion of the land in the Campbell Heights area to be used for "high-end" light impact industrial uses. These amendments are being undertaken in consideration of the Menorandum of Understanding between the City of Surrey and The Campbell Heights Group that was approved by Council in July 2002.

BACKGROUND

## Campbell Heights Local Area Plan

Council, on November 22, 2000, approved a local area plan for Campbell Heights. Campbell Heights comprises about 798 hectares (1,971 acres) of land located south of 44 Avenue, east of 186 Street, north of 18 Avenue and west of the Surrey/Langley border (196 Street) (as illustrated on Appendix I). The Campbell Heights Local Area Plan (the "Plan") includes a land use concept plan featuring a variety of high technology, research, office and business park uses, planning policies, design guidelines and an engineering servicing strategy. The development of the subject Plan included a program of consultation with the public, City Departments and external agencies. The Plan put an emphasis on attracting large anchor users, especially in the high-tech sectors, to kick start development in Campbell Heights. For example, the Plan identified three large Technology Park sites ranging from 80 hectares (198 acres) to 101 hectares (249 acres).

### Agreement with Campbell Heights Group

More recently, Council on July 24, 2002, approved a Memorandum of Understanding (the "MOU") with the Campbell Heights Group (the "CHG") to sell approximately 250 acres of City-owned land within the Campbell Heights area to the CHG, subject to a number of conditions. The mutual objective of the City and the CHG, with respect to the subject land, is as follows:

"To create an internationally recognized industrial business park which has been competitively positioned and marketed so that it will be a catalyst for significant business investment and job creation in Surrey".

The purpose of this report its to provide Council with an update on the work which has been undertaken, to date, in relation to preparing amendments to the Plan in support of the MOU and to obtain Council approval in respect of the general approaches to land use and zening engineering servicing and design review. This report also includes a proposed work program/schedule to complete Plan amendments, including a public information meeting/open house to receive community input on the proposed Plan amendments

# DISCUSSION

### Current Plan Designations

The Campel Heights Cropy Insoft (the TAIG bands's Comptise approximately 250 acres and are generally bounded by 28 Avenue to the north, 195 Street to the west, 250 Avenue to the south and 194 Street to the west, 250 Avenue to the south and 194 Street to the west, 250 Avenue to the south and 194 Street to the west, 250 Avenue to the confidence in the Street to the west, 250 Avenue to the confidence in the Street to the west, 250 Avenue to the confidence in the Street to the west, 250 Avenue to the confidence in the Street to the west, 250 Avenue to the Call Endods is a Street to the West, 250 Avenue to the Call Endods is a Street to the West, 250 Avenue to the Call Endods is a Street to the West, 250 Avenue to the Call Endods is a Street to the West, 250 Avenue to the Call Endods is a Street to the West, 250 Avenue to the Call Endods is a Street to the West, 250 Avenue to the Cal

#### Proposed Local Area Plan Amendments

The Business Park designation requires that all permitted uses be enclosed in buildings. While the range of uses within the Business Park and iocated on the south side of 24 Avenue (Appendix IV). These lands cover an area of approximately 136 acres.

The engineering servicing strategy component of the Plan is being updated to reflect a change in the location of the first phase of development in the area. This use placed a much higher demand on engineering services than is now expected on the CHG lands.

The proposed amendments also include modifications to open space corridors and the location of stormwater drainage ponds to reflect updated studies.

#### Plan Amendment Process to Dat

Staff of the Planning and Development Department and the Engineering Department have worked closely with representatives of the CHG and their consultants to prepare the proposed amendments to the Plan.

The process has included the following work

- . An evaluation of the proposed amendments on all aspects of the Plan, including land use, environment and open space, engineering services, roads and transportation and the funding of services;
- . The preparation of draft zones to implement the proposed Plan amendment
- The preparation of preliminary design guidelines to control the form and character of the built environment within Campbell Heights; and
- The development of an alternative design review process.

The following sections of this report provide a brief summary of each of these elements of work.

#### Consultant Studies

A comprehensive engineering servicing study and servicing plan was prepared as part of the Plan. The overall servicing plan addresses sanitary sewer, water supply, transportation/roads, storm water management and development phasing. As well, an environmental review of the Campbell Heights area was conducted.

To provide input to the current Plan amendment process, an engineering consultant was retained to review the original servicing study and update this study, as necessary, to reflect the new development phasing. The original servicing study and update this study, as necessary, to reflect the new development phasing study envisioned development proceeding from the north part of the CHG lands and will establish a services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the CHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the cHG lands and will establish as services phasing schedule to reflect the new development proceeding from the north part of the cHG lands and

An overview of each of the various consultant studies, which have been completed or are in process, is outlined below

#### Environmenta

The CHG lands have been the subject of a series of environmental studies. As part of the 2000 Campbell Heights Local Area Plan Review, Gattner Lee modernook a comprehensive environmental study of the entire Campbell Heights area. This study examined the GHG lands as moderately sensitive with management priorities being to relocate existing disches/creeks to enhance the fish habitat and to consider restaining a wildlife, vegetation and groundwater resources. The Gattner Lee report documented the CHG lands as moderately sensitive with management priorities being to relocate existing disches/creeks to enhance the fish habitat and to consider resources. The

More specific environmental site analyses for the CHG lands, relating to aquatic habitat, wildlife, vegetation and contamination, were carried out by Dillon Consulting in 1999, and 2002 and by ECL Environment Consultants in 2003. Additional studies are underway to classify wildlife and vegetation values in the area.

### Roads and Transportation

A traffic consultant, Ward Consulting Group, has been retained to update the previous work undertaken as part of the 2000 Local Area Plan study to reflect the changes associated with the CHG lands being the initial phase of development in Campbell Heights. The consultant has established a list of recommended road improvements to be constructed in conjunction with development of the CHG lands as outlined in Appendix V.

## Engineering Servicing

An engineering consultant, New East Consulting Services Lat., has been retained to update the previous work completed for the 2000 Local Area Plan review. The results of the engineering servicing study, to date, are outlined in Appendix V.

### Proposed IB-1 and IB-2 Zones

To address the mutual objectives of the CHy, and the CHG to create an internationally recognized business park, within the context of the IMpo. These are described in the following sections.

### Business Park 1 Zone (IB-1)

A new IB-1 Zone is proposed that is modeled after the existing IB - Business Park Zone with modifications to the range of Permitted Uses, Yards and Setbacks and Landscaping. A full description of this zone is contained in Appendix IV). This zone is intended to apply to the CHG Lands located on the north side of 24 Avenue in the area of the Plan designated Technology Part/Business Park (Appendix IV).

### Permitted Use

The IB Zone permits a variety of non-industrial commercial uses. These uses are inconsistent with the objectives for the CHG lands. Accordingly, the proposed IB-1 Zone includes the following modifications to the existing IB Zone:

- 1. The IB-1 Zone limits the amount of retail sales area associated with the manufacturing, processing, research and warehousing activities to a maximum of 20% of the gross floor area of each individual business or 440 square meters (\$5,000 sq. ft.), whichever is less. The IB Zone does not regulate the amount area that can be used for commercial/retail uses;
- 2. The IB-1 Zone excludes professional office uses such as accountants, lawyers, doctors and real estate agencies, which are permitted in the IB Zone. The IB-1 Zone will accommodate larger corporate office uses that are seeking to locate in an industrial business park setting.
- 3. General service uses (industrial first aid training, trade schools, appliance repair services, etc.) excluding drive-through hanks are permitted as an accessory use. These uses are permitted as a principal use in the IB Zone;
- 4. Personal service uses (burber shop, beauty parbour, shoe repair shop, etc.) are not permitted in the IB-1 Zone. They are permitted as an accessory use in the IB Zone. The Campbell Heights Local Area Plan identifies a commercial node at 24 Avenue and 192 Street. Personal service uses are better suited to this commercial node;
- 5. Eating establishments, excluding drive-through restaurants as an accessory use, are limited in the IB-1 Zone to a maximum of 200 seats. The IB Zone does not regulate the number of seats that are permitted in eating establishments;
- 6. Recreational facilities are not a permitted use in the IB-1 Zone while they are a permitted use in the IB Zone;
- 7. Assembly halls, limited to churches, are not a permitted use in the IB-1 Zone while they are a permitted use in the IB Zone.

### Yards and Setbacks

The HB Zince requires a 75 mente (25) have requires a 75 mente (25) have required and the side yard senhex case of 90 ments (25) had a side yard on a flushing street on 99 ments (25) had a side yard on a flushing street may be reduced to 3.5 mentes (25) had a side yard on a flushing street may be reduced to 7.5 mentes (25) had a side yard on a flushing street may be reduced to 7.5 mentes (25) had a side yard on a flushing street of 90 mentes (25) had a side yard on a flushing street of 90 mentes (25) had a side yard on a flushing street of 90 mentes (25) had a side yard on a flushing street of 90 mentes (25) had a side yard on a flushing street of 90 mentes (25) had a side yard on a flushing street may be reduced to 7.5 mentes (25) had a side yard on a flushing street may be reduced to 7.5 mentes (25) had a side yard on a flushing street may be reduced to 7.5 mentes (25) had a side yard on a flushing street may be reduced to 7.5 mentes (25) had a side yard

### Landscapin

The proposed III- 2 Zens includes a summer of modifications on the landscape strip along major roads and prescribes in some detail the treatment of this landscape strip of not be sharing a long major roads and prescribes in some detail the treatment of this landscape strip. This modification is intended to assist in defining the image of Lengthed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location, the proposed Hinglish as a street measured from back of curb or projected faintee curb location and the proposed Hinglish as a street measured from back of curb or projected faintee curb location and the projected faintee curb

## Special Regulations

In keeping with the overall objective of creating an industrial business park with a high quality of design and landscaping, the proposed IB-1 Zone includes a prohibition on the location of loading areas and garbage containers in any front yard. The current IB Zone only requires that garbage containers not be located adjacent to any residential lot.

### Business Park 2 (IB-2) Zone

The proposed drulf IB-2 Zone is intended to accommodate "high-end" light impact industrial uses and is similar to the proposed drulf IB-1 Zone with one significant difference. The details of this zone are contained in Appendix VII. This zone is intended to apply to the CHG lands located on the south side of 24 Avenue, which are designated in the Plan as Business Park (Appendix IV).

Whereas the Bh-1/Zme requires that all uses be carried out within an enclosed bidding, the proposed Bh-2/Zme permits a finited amount of outdoor strongs and display. More pecifically, control strongs including accessory track parking, cannot exceed the area of the lot covered by the principal bidding. The zone also contains requirements with respect to screening of and the maximum height of any outdoor strongs.

Track parking and loading, other than that accessory to a principal use such as light impact industrial, warehouse or distribution, is specifically prohibited in both the IB-1 and IB-3 Zones. As well, the combined area of outdoor storage and accessory track parking is not to exceed an area greater than the area covered by the principal building on the same lot.

### Proposed Design Review Process

To assis in positioning Campbedl Heights competitively within the international marketplace, a design review process, which will replace the Development Permit process involves several steps with design proposals being assessed by City stuff against Development Permit process involves several steps with design proposals being assessed by City stuff against Development Permit process involves several steps with design proposals being assessed by City stuff against Development Permit process contained within the City's Official Community Plan and then involving a review before the Advisory Design Punel (the \*ADP?) and, subsequently, approval by City Connell. The current process can cause prospective purchasers to feel uncertain as to the cost and timing of construction on the lot they are considering for purchase

To increase the level of certainty for prospective purchasers of land with respect to design criteria and timing, it is proposed that a detailed set of design guidelines, which clearly speciefy the design requirements for the CHG lands, be developed and approved by Council. These guidelines would be reviewed and approved by a Design Reviewer Committee (the Chmmittee Character) and the CHG and the CH

The Committee will function on a consensus basis. For a project to be approved by the Committee must approve all aspects of the project design will be considered final. Any additional suggestions the ADP surpose and support suppor

### A flow chart illustrating the proposed design review Design Guidelines

The design guidelines will provide overall direction, guidance and context to assist future owners of lots in the CHG lands and their consultants in the planning of site development. The objectives of the design guidelines are as follows:

- To ensure that private investment in Campbell Heights is enhanced through careful planning and de
- To encourage urban design excellence by promoting a high level of visual identity and quality
- To maintain a high standard of quality in landscape and building design;
- To integrate urban design and environmental protection into the development process to maintain, protect and preserve important elements of the natural environment including creeks, wildlife corridors and tree
- To ensure that a cohesive and harmonious image is maintained; and
- To ensure that the integrity of the public and private domains within the Campbell Heights Business Park are not compromised by the development of any particular lot.

Preliminary design guidelines have been prepared by design consultants retained by the CHG Group, working collaboratively with City staff. The overall development concept of the Campbell Heights Business Park, articulated in the design guidelines, is a series of freestanding, high quality buildings set within individually and substantially landscaped lots, each contributing to the overall selective of a diverse business community. The requirements in the design guidelines will supplement the Development premit Guidelines, contained in the Plan.

Community Plan and the Development Policies contained in the Plan.

Appendix IX contains an outline of the elements covered by the design guidelines.

## Next Steps/Timeline

Subject to Council's endorsement of the approaches continued in this report, it is recommended that Council authorize staff to arrange a public open house to present the proposed B-1 and B-2 Zones, the revised engineering servicing strategy, the proposed design revised process and the preliminary Campbell Heights Bosiness Park design guidelines. Subsequent to the open house and with due consideration of the input received through the open house process, staff will finalize the necessary amendments to the Plan and the engineering servicing strategy, the proposed B-1 and B-2 Zones, frame for the final agreement with the CDQ, regarding the size and development of the CDQ and agreement with the CDQ and agreement with the CDQ. Teaching the conditions of the size and presentations of the CDQ are controlly below the CDQ are controlly conditionally within a development of the CDQ are controlly below the CDQ are controlly below the CDQ are controlly below to the CDQ are controlly below the CDQ are controlly consideration in the accurate for weeks.

Appendix X illustrates the steps and timeline from the present to Council's final consideration of the matters discussed in this report.

### CONCLUSION

City staff has been working collaboratively with representatives of the CHG over the last six months to prepare proposed amendments to the Plan in opening an update of the engineering servicing strategy to reflect a change in the intended location of the first phase of development of an innovative design guidelines for the CHG over the last six months to prepare proposed amendments to the Plan to permit Thigh end "light impact industrial uses, the preparation of proposed draft IB-1 and IB-2 Zones that will assist in implementing the proposed Plan amendments and the contractively entire preparation of proposed draft IB-1 and IB-2 Zones that will assist in implementing the proposed Plan amendments and the contractively entire preparation of proposed Plan amendments and other matters listed above.

Engineering Servicing Summary

The engineering servicing studies proposed for 2000 Campbell Highly Local Area Plan Review have been updated to reflex a change in location of the frest plane of Campbell Highly and to reflex bewer initial stully requirements in the initial years without a high demand chip plant. This study identifies the required roads and manicipal utility services as well as the privace utility requirements. We see the identified and to the object initials and ununcingal utility services as well as the privace utility requirements where the initial years without a high demand chip plant. This study identifies the required roads and manicipal utility services as well as the privace to the initial years without a high demand chip plant. This study identifies the required roads and manicipal utility services and the plant of the initial years without a high demand chip plant. This study identifies the required roads and manicipal utility services and the plant of the pl

1. Sanitary sewer- new pump station and combination of force main and gravity sewers along 192nd St. to the GVSSDD trunk sewer line at 189 Street and 52 Avenue.

Water - new connection to the Grandview Heights reservoir and new feeder main along 24<sup>th</sup> Ave. from 166<sup>th</sup> St. to 192<sup>nd</sup> St. and 28<sup>th</sup> Ave. to connect to the GVRD main.

Simm drainage - in the excavated area of the Stokes Pt a convertional drainage system serviced by storm sewers, open ditches and a detention pond. The location of the detention pond will be finalized pending soils investigations at the site. In the unexcavated area where the water table is sufficiently tow to permit ground water rechange, an exfiltration system is being considered in conjunction with the environmental consultant, hydrogeologist and DFO to ensure water of an acceptable quality is being returned to the ground water.

Roads - interim and ultimate intersection and road widening will be required along portions of 32<sup>nd</sup> Avenue, 24<sup>th</sup> Avenue, and 192<sup>nd</sup> St. south of 32 Avenue plus several of the area intersections.

Environmental – Environmental

Ground Wart Studies - Please and Associates have carried one of goodyshology (ground water) studies for the 2000 Local Area Plan and more site specific studies for the CHG lands. The purposes of these studies were to ensure that groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely all feeding groundwater flows can be maintained by stormwater extillration on without adversely impact the plants of the constitution of the constitu

Business Park 1 Zone

Part 47 - 1B, Business Park Zone

Part 47 IB-1

This zone is intended to permit development of industrial business parks with a high standard of design consisting of light impact industrial uses, high technology industry, industry with a significant amount of research and development activity, warehouse, offices and service uses carried out in enclosed buildings forming part of a comprehensive designed development. These uses shall be carried out such that no missance is apparent outside an enclosed building.

B. Permitted Uses

tendments: B3, 12333, 07/25/94; B4, 12715, 12/04/95; B3, 13844, 11/16/98; B3, 13703, 05/17/99; B4, 13970, 17/00; B4, 13709, 04/22/01

Land and structures shall be used for the following uses only, or for a combination of such uses:

- 1. Light impact industry including wholesale and retail sales of products produced within the business premises or as part of the wholesale or warehouse operations provided that the total floor area used or intended to be used for retail sales and display to the public shall not exceed 20% of the gross floor area for each individual business or establishment or 460 square meters (5,000 sq. ft.) whichever is less.
- Warehouse uses.
- Office uses excluding:
  - (a) social escort services
  - (b) methadone clinics

fde://C/Users/GB3/Desktop/bylaw%20project/AB%208fTML%20Files/7918/html[05/06/2015/3-44:01PM]

- (c) offices of accountants, lawyers, doctors, dentists, chiropractors, physiotherapists, massage therapists and related health care practitioners and notary publics, nor the offices of real estate, advertising, insurance, travel and ticket agencies.
- Accessory uses including the following:
  - (a) General service uses excluding drive-through banks;
  - (b) Eating establishments, excluding drive-through restaurants, limited to a maximum of 200 seats;
  - (c) Community services:
  - (d) Child care centre: and
  - (e)  $Dwelling\ unit(s)$  provided that the  $dwelling\ unit(s)$  is (are):
  - i. Contained within a principal building
  - ii. Occupied by the owner or a caretaker, for the protection of the businesses permitted;
  - iii. Restricted to a maximum number of:
    - a. One dwelling unit in each principal building less than 2.800 square metres [30,000 sq. ft.] in floor area:
    - b. Two dwelling units in each principal building of 2,800 square metres [30,000 sq. ft.] or greater in floor area; and
    - c. Notwithstanding Sub-sections B.5 (g) iii.a. and iii.b., the maximum number shall be two dwelling units for lots less than 4.0 hectares [10 acres] in area and three dwelling units for lots equal to or greater than 4.0 hectares [10 acres] in area.
  - is: Partricted to a maximum floor area of
  - a. 140 square metres [1,500 sq. ft.] for one (first) dwelling unit on a lot and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500-sq. ft.] dwelling unit within the strata plan;
  - b. 90 square metres [970 sq. ft.] for each additional dwelling unit; and
  - c. Notwithstanding Sub-sections B.5 (g) iv.a. and iv.b., the maximum floor area shall not exceed 33% of the total floor area of the principal building within which the dwelling unit is contained.
- 5. For the purpose of Subsections B.1 and B.2, parking, storage or service of trucks and trailers on any portion of the lot not associated with the uses or operations permitted thereof shall be specifically prohibited.

## C. Lot Area

The minimum site area for subdivision shall be 4 hectares [10 acres], except in the case of a remainder lor, where the loss including the remainder lor which were created by the same plan of subdivision are zoned IB.

### D. Density

#### Amendments: B/L 13155, 62/09/98; 14541, 11/19/01

- 1. In Neighborthood Concept Plan and Infill Areas as described and outlined on the maps attached as Schedule F attached to this By-law, the maximum dentity shall not exceed a floor area ratio (FAR) of 0.1 or a building area of 300 square metres [3,230 sq. ft.] whichever is smaller. The maximum dentity may be increased to a maximum floor area ratio (FAR) of 1.00 if amenities are provided in accordance with Schedule G of this By-law.
- 2. In areas other than the ones in Sub-section D.1 of this Zone, the maximum density shall not exceed a floor area ratio (FAR) of 1.00.

#### I -t C-----

The maximum lot coverage shall be 45%.

### F. Yards and Setbacks

Measurements to be determined as per Part 1 Definitions, of this By-law

Use	Setback	Front Yard	Rear Yard	Side Yard	Side Yard on Flankins Street
Principal and Accessory Buildings and Structures		16.0 m.* [52 ft.]	7.5 m. [25 ft.]	7.5 m.** [25 ft.]	9.0 m.*** [30 ft.]

Measurements to be determined as per Part 1 Definitions, of this By-law

- \* The front yard setback may be reduced to 7.5 m. [25 ft.] if the area between the front face of any building or structure and a highway is not used for parking and is landscaped.
- \*\* One (1) side yard setback may be reduced to 3.6 metres [12 ft.] if the side yard abuts land which is commercial or industrial.
- \*\*\* The side yard setback on a flanking street may be reduced to 7.5 m. [25 ft.] if the area between the flanking street face of any building or structure and a highway is not used for parking and is landscaped.

## G. Height of Buildings

Measurements to be determined as per Part 1 Definitions, of this By law:

- 1. <u>Principal buildings:</u> The height shall not exceed 14 metres [45 ft.].
- 2. <u>Accessory buildings and structures</u>: The height shall not exceed 6 metres [20 ft.].

### H. Off-Street Parking and Loading/Unloading

### Amendments: B/L 13774, 67/26/9

- 1. Refer to Table C.3, Part 5 Off-Street Parking and Loading/Unloading of this By law.
- 2. Notwithstanding Subsection D.3(a)ii of Part 5 Off-Street Parking and Loading Unloading of this By-law, additional areas for parking of trucks and trailers associated with the uses and operations allowed on the lor may be permitted within the designated loading/unloading areas provided that:
- (a) the number of parking spaces shall not exceed the number of loading spaces and/or shipping/receiving doors; and
- (b) the parking spaces shall not be visible from the highways abutting the lot.

### I. Landscaping

- 1. All developed portions of the lot not covered by buildings, structures or paved areas shall be landscaped including the retention of mature trees. This landscaping shall be maintained.
- 2. Along the developed sides of the lor which abut a Major Road as shown in the Official Community Plan, a continuous landscaping strip of not less than 6 metres [20 ft.] in width shall be provided within the lot.
- 3. Along the developed sides of the lot which abut all highways other than a Major Road, a shown in the Official Community Plan, a continuous landscape strip of not less than 3.0 metres [10 ft.] in width shall be provided within the lot.
- 4. A continuous landscape strip of not less than 1.5 metres [5 ft.] in width shall be provided along all side lot lines between a highway and 3.0 metres [10 ft.] back from the front face of the closest principal building fronting a highway
  - 5. A continuous landscaping strip of not less than 6.0 metres [20 ft.] shall be created along all lot lines separating the developed portion of the lot from any residential lot.
- 6. Loading areas, garbage containers and passive recycling containers are specifically prohibited between the front of a principal building and a highway, and shall be screened to a height of at least 2.5 metres [8 ft.] by huildings, a landscaping screen, a solid decorative fence, or a combination thereof.

### J. Special Regulations

- Land and structures shall be used for the uses permitted in this Zone only if such uses:
  - (a) Constitute no unusual fire, explosion or safety hazard;
  - (b) Do no emit noise in excess of 70 dB(A) measured at any point on any boundary of the lot on which the use is located, provided that where a lot abuts a lot other than an industrial lot the noise level shall not exceed 60 dB(A); and
  - (c) Do not produce heat or glare perceptible from any boundary of the lor on which the use is located.
- Outdoor storage of any goods, materials or supplies is specifically prohibited.
- 3. Loading areas, gurbage containers and pussive recycling containers shall not be located within any required front or flanking street serback and shall be screened to a beight of at least 2.5 metres [8 ft.] by buildings, a landscape screen, a solid decorative fence, or a combination thereof
- 4. Child care centres shall be located on the lot such that these centres have direct access to an open space and play area within the lot.

### K. Subdivision

 ${\it Lots} \ {\it created} \ {\it through subdivision} \ {\it in this Zone shall conform to the following minimum standards:}$ 

Lot Size	Lot Width	Lot Depth
2,000 sq. m.	30 metres	30 metres

Dimensions shall be measured in accordance with Section E.21, Part 4 General Provisions of this By-law.

### L. Other Regulations

Amendments: B4. 13457, 63/22/99; B4. 13774, 67/26/99

In addition, land use regulations including the following are applicable:

- 1. Prior to any use, lands must be serviced as set out in part II Uses Limited, of this By-law and in accordance with the "Surrey Subdivision and Development By law".
- 2. General provisions on use are as set out in Part 4 General Provisions, of this By-law.
- 3. Additional off-street parking requirements are as set out in Part 5 Off. Street Parking and Loading /Unloading of this By-law.
- Sign regulations are as provided in Surrey Sign By-law No. 13656.
- 5. Special building setbacks are as set out in Part 7 Special Building Setbacks, of this By-law.
- 6. Floodproofing regulations are as set out in Part 8 Floodproofing, of this By-law.
- 7. Building permits shall be subject to the "Surrey Building By-law" and the "Surrey Development Cost Charge By law".
- Development permits may be required in accordance with the Official Community Plan.
- 9. Safety regulations are as set out in the Health Act R.S.B.C. 1979, c. 161 and the "Surrey Fire Prevention By-law".
- 10. Permits may be required for the storage of special wastes in accordance with the Waste Management Act R.S.B.C.
- 11. Provincial licensing of child care centres is regulated by the Community Care Facility Act R.S.B.C. 1979, c. 57 and the Child Care Regulations set out under B.C. Reg 31989.

APPENDIX VII

### .

### Business Park 2

#### Part 48 - IL, Light Impact Industrial Zone

### Part 48

This Zone is intended to accommodate and regulate the development of light impact industry, office and limited service uses with a high standard of design that are generally compatible with one another and with adjoining zones.

### B. Permitted Uses

Amendments: B/L 12333, 67/25/94; B/L 12715, 12/04/95; B/L 13261, 09/16/97; B/L 13212, 16/06/97; B/L 13763,

Land and structures shall be used for the following uses only, or for a combination of such uses:

1. Light impact industry including the wholesale and retail sale of products produced within the business premises or as part of the wholesale or warehouse operations provided that the total floor area used or intended to be used for retail sales and display to the public shall not exceed 20% of the gross floor area for each individual business or establishment or 460 square meres [5,000 sq.fl.] whichever is less.

- Warehouse uses.
- Office uses excluding:
  - (a) Social escort service
  - (b) Methadone clinics:
- (c) Offices of accountants, lawyers, doctors, dentists, chiropractors, physiotherapists, massage therapists and related health cure practitioners and notary publics, nor the offices of real estate, advertising, insurance, travel and ticket agencies;
- Accessory uses including the following:
  - (a) Coffee shops provided that the seating capacity shall not exceed 35 and the said coffee shop is not licensed by the Liquor Control and Licensing Act. R.S.B.C. 1996, chapter 267, as amended.
  - (b) General service uses excluding drive-through banks:
- (c) Child care centres; at
- (d) Dwelling unit(s) provided that the dwelling unit(s) is (are)
- Contained within the principal building;
- ii. Occupied by the owner or a caretaker, for the protection of the businesses permitted;
- iii. Restricted to a maximum number of
- a. One dwelling unit in each principal building less than 2,800 square metres [30,000 sq. ft.] in floor area;
- b. Two dwelling units in each principal building of 2,800 square metres [30,000 sq. ft.] or greater in floor area; and
- c. Notwithstanding Sub-sections B.10 (f) iii.a. and iii.b., the maximum number shall be two dwelling units for lots less than 4.0 bectares [10 acres] in area and three dwelling units for lots equal to or greater than 4.0 bectares [10 acres] in area.
- iv. Restricted to a maximum floor area of:
- a. 140 square metres [1,500 sq. ft.] for one (first) dwelling unit on a lot and where a lot has been subdivided by a strata plan then there shall only be one 140-square metre [1,500 sq. ft.] dwelling unit within the strata plan.
- b. 90 square metres [970 sq. ft.] for each additional dwelling unit; and
- c. Notwithstanding Sub-sections B.10 (f) iv.a. and iv.b., the maximum floor area shall not exceed 33% of the total floor area of the principal building within which the dwelling unit is contained.
- 5. For purposes of Subsection B.1 and B.2, parking, storage or service of trucks and trailers on any portion of the lot not associated with the uses or operations permitted thereof shall be specifically prohibited.

### C. Lot Are

Not applicable to this Zone.

### D. Density

### Amendments: B4. 13155, 62/09/98;

- 1. In Neighbourhood Concept Plan and Infill Areas as described and outlined on the maps attached as Schedule Franched to this By-law, the maximum durity shall not exceed a floor over article PAR) of L1 or a building area of 300 sources generally a state of the part of the PAR of the
- 2. In areas other than the ones in Sub-section D.1 of this Zone, the maximum density shall not exceed a floor area ratio (FAR) of 1.00.

### E. Lot Coverage

The maximum lot coverage shall be 60%.

# F. Yards and Setbacks

### Amendments: B/L 12333, 67/25/

 $\label{problem} \textit{Buildings} \text{ and } \textit{structures} \text{ shall be sited in accordance with the following minimum } \textit{setbacks}:$ 

Use	Setback	Front Yard	Rear Yard	Side Yard	Side Yard on Flanking Street
Principal and		16 m.+	7.5 m.	7.5 m.**	9.0 m.***
Accessory Buildings and Structures		[52 ft.]	[25 ft.]	[25 ft.]	[30 ft.]

## Measurements to be determined as per Part 1 Definitions, of this By-law

- \* The front yard setback may be reduced to 7.5 m [25 ft.] if the area between the front face of any building or structure and a highway is not used for parking and is landscaped.
- \*\* One (1) side yard setback shall be 7.5 metres [25 ft.] or 0.0 metre if the said side yard abuts land which is commercial or industrial.
- The side yard setback on a flanking street may be reduced to 7.5 m [25 ft.] if the area between the flanking street face of any building or structure and a highway is not used for parking and is landscaped

### G. Height of Buildings

Measurements to be determined as per Part 1 Definitions, of this By-law:

- <u>Principal building</u>: The height shall not exceed 14 metres [45 ft.].
- 2. <u>Accessory buildings and structures</u>: The height shall not exceed 6 metres [20 ft.].

### H. Off-Street Parking and Loading/Unloading

### Amendments: B/L 13774, 67/26/99

- Refer to Table C.3, Part 5 Off-Street Parking and Loading/Unloading of this By law.
- 2. Notwithstanding Subsection D.3(a)ii of Part 5 Off: Street Parking and Loading/Unloading of this By-law, additional areas for parking of warks and trailers associated with the uses and operations allowed on the for may be permitted within the designated loading/unloading areas provided that
  - (a) the number of parking spaces shall not exceed the number of loading spaces and/or shipping/receiving doors; and

(b) the parking spaces shall not be visible from the highways abutting the lot.

### I. Landscaping

#### Amendments: BJ 13301 09/16/7

- 1. All developed portions of the lot not covered by buildings, structures or paved areas shall be landscaped including the retention of mature trees. This landscaping shall be maintained.
- 2. Along the developed sides of the lot which abut a Major Road, as shown in the Official Community Plan, a continuous landscaping strip of not less than 6.0 metres [30 ft.] in width shall be provided within the lot.
- 3. Along the developed sides of the lot which abut all highways other than a Major Road, as shown in the Official Community Plan, a continuous landscape strip of not less than 3.0 metres (10 ft.) shall be provided within the lot.
- 4. The boulevard areas of highways abutting a lot shall be seeded or sodded with grass on the side of the highway abutting the lot, except at driveways.
- 5. A continuous landscuping strip of not less than 1.5 metres [5 ft.] in width shall be provided along all side lot lines between a highway and 3.0 metres [10 ft.] back from the front face of the closest principal building fronting a highway.
- 6. A continuous landscaping strip of not less than 6.0 metres (20 ft.) shall be provided along all lot lines separating the developed portion of the lot from any residential lot.
- 7. Loading areas, garbage containers and passive recycling containers shall not be located within any required front or flanking street setback and shall be screened to a height of at least 2.5 metres [8 ft.] by buildings, a landscaping screen, a solid decorative fence, or a combination thereof.

### J. Special Regulations

#### \_\_\_\_

- Land and structures shall be used for the uses permitted in this Zone only if such uses:
  - (a) Constitute no unusual fire, explosion or safety hazard;
  - (b) Do no emit noise in excess of 70 dB(A) measured at any point on any boundary of the lot on which the use is located, provided that where a lot abuts a lot other than an industrial lot the noise level shall not exceed 60 dB(A); and
  - (c) Do not produce heat or glare perceptible from any lot line of the lot on which the use is located.
- Area for outdoor display and storage of any goods, materials or supplies shall:
  - (a) Not be located within any front or side yard;
  - (b) Not to be used for storage of trucks or trailers;
  - (c) Not exceed a total area greater than the lot area covered by the principal building; and
  - (d) Be completely screened to a beight of at least 25 metres [8 ft] by buildings and/or solid decorative fencing and/or substantial landscoping strips of not less than 25 metres [8 ft,] in height and not less than 15 metres [5 ft,] in width. No display or storage of material shall be piled up to a height of 25 metres [8 ft,] within 5 metres [16 ft,] of the said screen and in no case shall these materials be piled up to the height of more than 35 metres [12 ft,] or the said screen and in no case shall these materials be piled up to the height of more than 35 metres [12 ft,] or the said screen and in no case shall these materials be piled up to the height of more than 35 metres [12 ft,] or the said screen and in no case shall these materials be piled up to the height of more than 35 metres [12 ft,] or the said screen and in no case shall these materials be piled up to the height of more than 35 metres [12 ft,] or the said screen and in no case shall the piled up to the height of more than 35 metres [12 ft,] or the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or the said screen and in no case shall these materials be piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or the said screen and in no case shall the said screen and in no case shall the piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or the said screen and in no case shall the said screen and in no case shall the piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or the said screen and in no case shall the piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or the said screen and in no case shall the piled up to a height of 25 metres [8 ft,] within 5 metres [15 ft,] or
- 3. Garbage containers and passive recycling containers shall not be located within any required setback adjacent any residential lot.
- 4. Child care centres shall be located on the lot such that these centres have direct access to an open space and play area within the lot.

#### K. Subdivision

 ${\it Lots}$  created through subdivision in this Zone shall conform to the following minimum standards:

Lot Size	Lot Width	Lot Depth
1,800 sq. m.	30 metres	30 metres
[ 0.5 acre]	[ 100 ft ]	[100 ft ]

Dimensions shall be measured in accordance with Section E.21, Part 4 General Provisions, of this By-law.

### L. Other Regulations

### Amendments: Bil. 13301, 69/14/97; Bil. 13457, 63/22/99; Bil. 13774, 67/24/99;

In addition, land use regulations including the following are applicable:

- 1. Prior to any use, lands must be serviced as set out in Part 2 Uses Limited, of this By-law and in accordance with the "Surrey Subdivision and Development By-law".
- General provisions on use are as set out in Part 4 General Provisions, of this By-law.
- 3. Additional off-street parking requirements are as set out in Part 5 Off-Street Parking and Loading/Unloading of this By law.
- Sign regulations are as provided in Surrey Sign By-law No. 13656.
- 5. Special building setbacks are as set out in Part 7 Special Building Setbacks, of this By-law
- 6. Floodproofing regulations are as set out in Part 8 Floodproofing, of this By-law.
- 7. Building permits shall be subject to the "Surrey Building By-law" and the "Surrey Development Cost Charge By-law".
- 8. Development permits may be required in accordance with the Official Community Plan.
- 9. Safety regulations are as set out in the Health Act R.S.B.C. 1979, c. 161 and the "Surrey Fire Prevention By-law".
- 10. Permits may be required for the storage of special wastes in accordance with the Waste Management Act R.S.B.C.
- 11. Provincial licensing of child care contres is regulated by the Community Care Facility Act R.S.B.C. 1979, c. 57 and the Child Care Regulations set out under B.C. Reg 319/89.

Campbell Heights Local Area Plan

Phase 1 Lands Open House – June 23 and June 26, 2003

## Land Use Plan and Zoning

Please circle the response which best reflects your opinion on the following statements.

1. The proposed range of land uses envisioned for the Phase 1 lands is generally consistent with the overall planning objectives for Campbell Heights.

Strongly Agree Agree Neutral Disagree Strongly Disagree

2. The development of the Phase 1 lands adequately preserves and protects the significant environmental features of the area.

Strongly Agree Agree Neutral Disagree Strongly Disagree 3. The road network as shown provides good access to the Phase 1 lands.

Strongly Agree Agree Neutral Disagree Strongly Disagree

4. The preliminary design guidelines for the Phase 1 lands will see the development of buildings with a high quality of design and landscaping

5. The proposed Business Park 1 and Business Park 2 Zones (IB-1 and IB-2) are generally supportable.

Strongly Agree Agree Neutral Disagree Strongly Disagree

# **Engineering Servicing Strategy**

### Proposed Design Review Process

What aspects of the proposed design review process do you like?

Are there any aspects of the proposed design review process that you do not like?

## **Other Comments**

Please use the space below to make any other comments you may have regarding the information presented for the first phase of development of Campbell Heights

Please return completed comment sheets to the City of Surrey Planning & Development Department 14245 – 56 Avenue, Surrey, B.C., V3X 3A2 or FAX to (604) 591-2507 on or before July 4, 2003

The display materials shown at the Open House may be viewed in the City Hall Foyer during office hours between June 27 and July 11, 2003 or on our website at www.city.surcey.bs.ca beginning June 24, 2003.

## Thank you very much for your comments

COMMENT SHEET SYNOPSIS

## Proposed Land Uses

Of the people completing the counteers these, 41% either "Strongly Agree" or "Agree" that the range of land uses is generally consistent with the overall planning objectives for Campbell Heights. On the other hand, 19% either "Disagree" or "Strongly Disagree" or "Agree" that the range of land uses is generally consistent with the overall planning objectives for Campbell Heights. In fact, the Campbell Heights. In fact, the Campbell Heights, but have been for Technology Part uses. The Business Part use. The Business Part use and the subject lands south of 24 Avenue for Technology Part uses are intended for high technology, science based industries with a significant research and development composed to business part uses. The Business Part use. The Business Part use. The Business Part use. The Business Part use and the subject lands south of 24 Avenue for Technology Part uses are intended for high technology, science based industries with a significant research and development composed to business part uses. The Business Part use. The Business

### **Environmental Preservation and Protection**

Of the people completing the comment theer, a significant number of the responses to the open-ended questions on the Environmental Management Strategy growide some more detailed explanations for these responses and are categorized as follows:

What aspects of the environmental strategy do you like?

- Like nothing (6)
   Like the proposed conservation green spaces (4)
   Appreciate that a study was done (1)
   Appreciate the acknowledgement that important species will be affected (1).

What aspects of the environmental strategy do you not like?

Negative impact on habitat/loss of open space (8)

- Study done too quickly (1)
   Not enough detail (1)
   Over-committed to retaining second growth forest (1)
   Over-committed to retaining second growth forest (1)
   A man-made area is labelled an environmental area to satisfy environmentalists (1)
- Proposed Road Network

41% of people completing the comment sheet either "Strongly Agree" or "Agree" hat the road network provides good access to the Phase 1 lands. On the other hand, 35% either "Disagree" or "Strongly Disagree" that the road network provides good access to the Phase 1 lands and 22% are neutral. The main transportation and traffic-related responses to the open-ended question on the engineering servicing study provide explanations for these responses and are categorized as follows:

What aspects of the engineering servicing strategy (as they relate to transportation and traffic) do you like?

Like traffic improvements including 4 lanes at 24 Avenue and 192 Street; expanding 32 Avenue to 4 lanes; and the proposed new interchange at 24 Avenue.

What aspects of the engineering servicing strategy (as they relate to transportation and traffic) do you dislike?

- Truck route should be placed back on 32 Avenue.
- 24 Avenue should be extended into Langley.
- Road upgrades are insufficient.
- Highway 10 needs upgrading at various locations.
- . Traffic congestion and noise from trucks.
- Inadequate access for increased traffic.
- . Truck routes should be 24 Avenue and 32 Avenue.
- 16 Avenue should not be 4 lanes within the ALR.
- 24 Avenue should be upgraded from 152 Street to 200 Street in Langley.

### Preliminary Design Guidelines

Of the papers completing by completing the group co

What aspects of the preliminary design guidelines do you like?

- . Like the design review process (1)

Are there any aspects of the preliminary design guidelines do you not like?

- · Dislike everything/not needed here (3)
- Loss of green space/habitat (2)
- Concerns over design review process (3)
- Should be of higher quality with guidelines like Gloucester Estates (1)

### IB-1 and IB-2 Zones

The people completing the comment sheet, 38% either "Strongly Agree" or "Agree" hat the proposed IB-1 and IB-2 Zones are generally supportable. Alternatively, 41% either "Disagree" or "Strongly Disagree" that the proposed IB-1 and IB-2 Zones are generally supportable and 18-2 Zones are generally supportable. Alternatively, 41% either "Disagree" or "Strongly Disagree" that the proposed IB-1 and IB-2 Zones are generally supportable and 18-2 Zones are generally supportable and 18-2 Zones are generally supportable. Alternatively, 41% either "Disagree" or "Strongly Disagree" that the proposed IB-1 and IB-2 Zones are generally supportable and 18-2 Zones are generally supportable. Alternatively, 41% either "Disagree" or "Strongly Disagree" that the proposed IB-1 and IB-2 Zones are generally supportable and 18-2 Zones are generally supportable. Alternatively, 41% either "Disagree" or "Strongly Disagree" or "Strongly Disagree" that the proposed IB-1 and IB-2 Zones are generally supportable and 18-2 Zones are generally supportable. Alternatively, 41% either "Disagree" or "Strongly Disagree" or "Str

What aspects of the proposed IB-1 and IB-2 Zone do you like?

- Like/okay (2)
- Like nothing (5)
- High quality development/building standards (2)
- No front truck parking (2)
- High end status of IB-1 Zone (1)

Are there any aspects of the proposed IB-1 and IB-2 Zones that you do not like?

- Dislike everything/not needed here (2)
- IB-2 is of lower quality/additional controls needed/more landscaping (2)
- Chain link fencing (1)
- Should have no outdoor storage at all or should be further limited or screened in the IB-2 Zone (2)
- May deter development through limitation/exclusions of certain industrial land uses (1)
- . No noisy trucks or air conditioning (1)
- Requires monitoring of the site/building maintenance (1)

### Other Comments

The Open House comment sheet also included a number of open-ended questions to seek community input on the engineering servicing strategy, the proposed design review process, and any other aspects of the material displayed at the Open Houses. The following provides a summary of paraphrased comments that were noted by more than one respondent.

# Most Like Aspects of the Engineering Servicing Strategy

- Approve/OK (3)
- Opposed/like nothing/stay away/not needed (5)
- Increased jobs, businesses, industrial areas (2)
- Sewer extension down 192 Street (2)
- Traffic improvements (3)

### Most Disliked Aspects of the Engineering Servicing Study

- Decision has already been made (2)
- Dislike everything/not needed here (3)
- Road upgrades are insufficient (5) Traffic congestion/noise from trucks (2)
- Loss of natural area/leave for wildlife (2)

### Most Liked Aspects of the Design Review Process

- Flexibility (2)
- That a process will be established for the review of design submissions (3)

### Most Disliked Aspects of the Design Review Process

- Dislike everything/not needed here (3)
- Not enough opportunity for public debate/too late/too short (5)

## Other General Comments

- Use other existing industrial land and maintain Campbell Heights as open space and park (3)
- Concerns over the conversion of the Stokes Pit (Latimer Lake) recreational area into an industrial park (7)
- The decision to proceed has already been made and input will be disregarded (4)
- Keep 32 Avenue as a truck route (2)
- 24 Avenue needs to be major access route including trucks (2)
- Improvements to 32 Avenue and 192 Street should be made before 2014 (2)
- Traffic lights are needed at 192 Street and 32 Avenue (2)
- Do not disturb wildlife habitat and open space (5)
- Unfair to limit development to just Phase 1 4-year moratorium too harsh (6)
- Industrial development should not take place next to existing established residential/disruption of residential areas (3)

Annendix

Appendix "J"

Appendix "K"

### Appendix "M"

### MAIN DIFFERENCES BETWEEN THE IB AND PROPOSED IB-1 ZONES

The proposed IB-1 Zone is modeled after the existing IB - Business Park Zone with modifications to the range of Permitted Uses, Yards and Setbacks and Landscaping. This zone is intended to apply to the lands located within the initial phase of development located on the north side of 24 Avenue in the area of the Plan designated Technology Park/Business Park.

The IB Zone permits a variety of non-industrial commercial uses. These uses are inconsistent with the objectives for the City-lunds. Accordingly, the proposed IB-1 Zone includes the following modifications to the existing IB Zone:

- 1. The IB-1 Zone limits the amount of retail sales area associated with the manufacturing, processing, research and warehousing activities to a maximum of 20% of the gross floor area of each individual business or 460 square metres (5,000 sq. ft.), whichever is less. The IB Zone does not regulate the amount area that can be used for commercial retail uses;
- 2. The IB-1 Zone excludes professional office uses such as accountants, lawyers, doctors and real estate agencies, which are permitted in the IB-Zone. The IB-1 Zone will accommodate larger corporate office uses that are seeking to locate in an industrial business park setting:
- 3. General service uses (industrial first aid training, trade schools, appliance repair services, etc.) excluding drive-through hanks are permitted as an accessory use. These uses are permitted as a principal use in the IB Zone;
- 4. Personal service uses (barber shop, beauty parbour, shoe repair shop, ext.) are not permitted in the IB-I Zone. They are permitted as an accessory use in the IB Zone. The Campbell Heights Local Area Plan identifies a commercial node at 24 Avenue and 192 Street. Personal service uses are better suited to this commercial node;
- 5. Eating establishments, excluding drive-through restaurants as an accessory use, are limited in the IB-1 Zone to a maximum of 200 seats. The IB Zone does not regulate the number of seats that are permitted in eating establish
- 6. Recreational facilities are not a permitted use in the IB-1 Zone while they are a permitted use in the IB Zone;
- 7. Assembly halls, limited to churches, are not a permitted use in the IB-1 Zone while they are a permitted use in the IB Zone.

### Yards and Setbacks

The IE Zone requires a 75 neter; [5] ht] front, side and near setback except that one side yard suph be reduced to 3.6 metres [28, B.] and a side yard one a flushing street or 9.0 metres [30, B.]. However, both the front yard setback and the side yard street was except that one side yard street or 9.0 metres [30, B.]. However, both the front yard setback and the side yard street in your continues and the public street in your continues and the public street in your continues and the public street in your continues and your continues and the public street in your continues and you continues

The proposed IB-1 Zone includes a number of modifications to the landscape strip along major roads and prescribes in some detail the treatment of this landscape strip. This modification is intended to assist in defining the image of Campbell Heights as a high quality and well-landscaped houses park.

### Special Regulations

In keeping with the overall objective of creating an industrial business park with a high quality of design and landscuping, the proposed IB-1 Zone includes a prohibition on the locution of loading areas and garbage containers in any front yard. The current IB Zone only requires that garbage containers not be located adjacent to any residential lot.
