Model Node and Location: _____ Main Size: _____ mm

DATE mailed/faxed: _____ **SIGNED:** _____

This information is provided solely for the fire protection and sprinkler system design. No representations or warranties are given regarding the adequacy or the accuracy of this information. Extracts from "Surrey Waterworks Regulation and Charges By-Law - 2007, No. 16337", as amended from time to time:

- 13. Except for distribution to parcels in the agricultural land reserve, the water supplied by the City is for normal use and fire service.*
- 15. The City shall not be liable for the failure of the water supply in consequence of any accident or damage to the Works, or for excessive pressure or lack of pressure, or any temporary stoppage on account of alterations or repairs, whether the failure arises from the negligence of any person in the employ of the City or any other person or through natural deterioration or obsolescence of the City's system, or otherwise.*
- 16. The City does not guarantee pressure nor continuous supply of water, nor does it accept responsibility at any time for the maintenance of pressure on its lines not for increase or decrease in pressure. The City reserves the right at any and all times, without notice, to change operating conditions of a service or service connection for the purposes of making repairs, extensions, alterations, or improvements, or for any other reason, and to increase or reduce pressure at any time.*
