**QUESTIONS AND ANSWERS:**

Q1. Could you give us some insight as to how the Evaluation Criteria in Section 3.2 will be weighed?

**A1. Equal weighting will be applied to each of 3.2 a (Experience, Reputation & Resources) and 3.2 b (Technical Response).**

Q2. How many structures are there?

**A2. Two structures are anticipated. One to cover a lacrosse box and one to cover a turf practice area.**

Q3. Will they all proceed concurrently or could the construction be staggered?

**A3. A construction timetable has not been finalized. Construction will probably be staggered. To be determined at RFP stage.**

Q4. Will they all be the same or will custom solutions for each site be required?

**A4. The lacrosse box structure is smaller than the turf field structure. Each is unique. However, both should be typical designs that can, with minor adjustments related to site, be replicated at other lacrosse boxes and turf practice areas.**

Q5. Assuming lighting will be required but no ventilation? Sprinklers? Fire alarm, paging, security, CCTV or other scope?

**A5. The scope of each project includes all design elements required to create a functional space that complies with all regulations that apply.**
