QUESTIONS AND ANSWERS:

Q.1. Are Proponents for RFP 024 (Drupal Hosting) required to know the requirements in RFP 038 (Website Redesign) in order to be able to respond to RFP 024?

A.1. It is not required that proponents of RFP 024 are intensely familiar with RFP 038 and vice versa. However, it's important that both proponents are aware and understand the high level requirements of each, as vendors will have to work together, with support of the City, to ensure the new website is set up for success in its new hosting environment.

Q.2. Section 16.9 regarding liability of the provider related to any data breach and Section 24 which requires escrow of all code including passwords to be transported on a schedule to a third party provider appears to create an onerous liability on the service provider. Should there be a security breach with the third party provider, how would liability be determined?

A.2. The City recommends the Proponent list any departure in Section 16.9 to the Statement of Departures.
