1. QUESTIONS AND ANSWERS:

Q1. I would like some info on the type of mower I need for the dyke mowing... I would need this information for my quote since I will need to know which mowers I need and how many passes I need to do on sides of dyke. If I need to do four passes with boom mower obviously will take more time.

A1. Refer to Schedule A-5 – Dyke Mowing Typical. We would like a full cross section of the Dyke mowed from the toe of the Dyke on land side to the toe on water side.

All Addenda will become part of the Contract Documents.
