ADDENDUM No. 1

REQUEST FOR QUOTATIONS No.: 1220-040-2021-014

TITLE: SOUTH SURREY ATHLETIC PARK – TRACK AND
FIELD RECONSTRUCTION

ADDENDUM ISSUE DATE: MARCH 11, 2021

DATE: PREFER TO RECEIVE SUBMISSION ON OR
BEFORE MARCH 26, 2021.

INFORMATION FOR CONTRACTORS

Contractors are advised that Addendum No. 1 to RFQ # 1220-040-2021-014 is hereby issued by the City. This addendum shall form part of the contract documents and is to be read, interpreted and coordinated with all other parts. The following information is provided to answer questions raised by Contractors for the above-named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the Contractors or any sub-contractor not being familiar with this addendum. This Addendum No. 1 contains fifty (50) pages in total.

INFORMATION ONLY

Refer to item 15 in Section 8 – ‘Schedule of Quantities and Prices’ of Schedule C, delete “1100 sq.m.” and replace with “1300 sq.m.”.

QUESTIONS AND ANSWERS:

- Q1. Request to approve the following as “Approved Equivalent”:
“Beynon Track systems - BSS 1000 system (Full Pour)”**
- A1. City of Surrey approves the product to be used for this project as “Approved Equivalent - Beynon Track Systems BSS 1000 system (Full Pour)”, Vendor – Playteck Enterprises as attached.**
- Q2. Is bonding required?**
- A2. Refer to section 10 of Schedule C. The City, at its sole discretion will choose whether to require bonding from the successful contractor. Bond pricing should not be included in the Total Quotation Price.**

Q3. Is there a deadline day for questions?

A3. The City will prefer to receive all questions four business days prior to closing.

Q4. Section 32 18 23.39 item 1.2.3 – Pre-approved vendors - You have asked for World Athletics approved systems, however, notice that OM4000 that is listed, is not a World Athletics Certification System.

A4. For Ocean Marker Sport Surfaces Product - Delete “OM4000 (Full Pour)” and Add “OM4000 (Full Pour - Stobitan Full PUR)”.

Q5. Are there civil drawings available for this?

A5. Refer to Schedule B – Appendix 2 and Appendix 2-A for instructions.

All Addenda will become part of the Contract Documents.

- END OF ADDENDUM -

February 17, 2021

To Whom it May Concern

Athletics Canada, the National Governing Body responsible for promoting the overall growth and development of Track and Field across Canada, is pleased to confirm a partnership agreement with:

- Beynon Sports, North America's largest manufacturer of synthetic track and field surfaces.
- Playteck Enterprises, the Canadian Official Distributor and Installer of Beynon synthetic tracks.

Athletics Canada is delighted to partner with Beynon and Playteck on a long-term basis, to at least the end of 2025, as it recognizes the elite quality of these running track surfaces. Our Olympic Trials in June at Centre Claude Robillard in Montreal will once again be on a Beynon track, as it was in 2016 at University of Alberta and Calgary's Foothills Athletic Park in 2012.

Next year, the same will occur with the Canada Summer Games at the newly completed Beynon track at Brock University in St. Catharines, Ontario, following up on a similar Beynon track at University of Manitoba in 2017. And of course, 2022 will see the jewel in the crown – the World Athletics Championships to be staged on Beynon's elite system when the world's finest athletes meet to determine global honours at University of Oregon's Hayward Field, known as 'TrackTown USA'.

With more than sixty Beynon tracks installed across all ten provinces by Playteck, including Canada's first outdoor 8 lane 400 metre synthetic track installed last year in Whitehorse, Yukon, we are pleased to confirm that Beynon synthetic tracks, as installed by Playteck Enterprises, has been formally endorsed as the "Official Synthetic Running Track for Athletics Canada." Whether you are considering building or resurfacing a small 3 lane indoor 200 metre recreational track or a full 8 lane outdoor 400 metre elite competitive track to World Athletics International Class II certification standards, we encourage you to consider using this high quality system. With all polyurethane products manufactured within North America and Playteck's installation crew headquartered in New Brunswick, the reliability of the product has been proven in all environmental conditions for more than 30 years across the continent, and more than 15 years across Canada. The fully insured, prepaid third-party warranty issued by Beynon Sports, A Tarkett Company is industry leading.

Athletics Canada would be pleased to provide further comment to you, should you so desire and invite you to contact us at any time. For your information as well, please check either Facebook page or their website at: www.playteckenterprises.com

Good luck in your project planning!

David Bedford

PLAYTECK & BEYNON TO PROVIDE TRACK SURFACES FOR 2021 CANADA GAMES AT BROCK UNIVERSITY

The 2021 Canada Games are coming to Brock University and its new Canada Games Park — a community athletics complex that will host a variety of sporting events, including track and field, during the country’s premier two-week showcase for young athletes. All track events at the new facility will be raced on a new Beynon surface which will include a warmup track within the new state-of-the-art facility. The track & field facilities’ design and construction is led by the consortium of Ritchfield Inc, Playteck Enterprises and The MBTW Group.

Officials awarded the \$90 million design/build contract of the track facilities after profound research into the optimal surfacing and construction options available in the market. The venues are part of larger project that will result in the construction of the primary venues for the 2021 Canada Games: Canada Games Park and the Royal Henley Rowing Centre in Port Dalhousie. Both are considered legacy projects and are expected to serve the Niagara Region for decades to come. Brock and its partners — the City of St. Catharines, the City of Thorold and the Niagara Region — will own the facility, and the university will operate it in cooperation with both cities.

Canada Games Park, which broke ground in December 2019 on the Brock University campus, will host the wrestling, beach volleyball, volleyball, box lacrosse and track & field events. Brock University will host the athletes’ village, which is expected to house 5,000 athletes, coaches, managers and technical support staff. The Beynon tracks are slated for installation in May 2020

The outdoor track which is planned to be certified World Athletics (formerly IAAF) Class II will feature Beynon’s most popular surface, the BSS 1000 with Hobart Texture. It offers a bio-engineered force-reduction layer integrated with fine SBR rubber granules to create an impermeable shock-absorbing cushion. Part of Beynon’s performance line, the system delivers optimal shock absorbency and superior energy return.

The 200-meter indoor track will feature Beynon’s leading indoor system, the BSS 1000 with Hobart Texture, which delivers exceptional shock absorption with a tunable force-reduction layer. Engineered to eliminate EPDM granule migration, Hobart Texture™ locks the granules with an exclusive binder and water-based aliphatic coating.

“It’s fitting that Canada’s finest athletes will be competing on Beynon surfaces. Just as they’ve trained for years to be the best in their sport, we’ve strived for more than four decades to provide the safest and highest-performing running surface in the world. We’re proud to be a part of the 2021 Canada Games.”

JOHN BEYNON
Founder of Beynon Sports

(continue)

WHY PLAYTECK

A Canadian leader in sports surfacing, Playteck Enterprises has changed the face of Canadian track and field over the past 12 years. Renowned for our 9 World Athletics Class II Certified Surfaces (Canadian Leader), our team is comprised of experts in project management and construction. With Playteck, you can rest easy; we'll take care of your project from start to finish.

Playteck is the exclusive Canadian distributor of Beynon Sports, the leader in track surfacing.

“Everyone from in town and out of town have raved about the fieldhouse, both from a competition side and the aesthetics”

CLAUDE BERUBE
Head Coach
University of Manitoba

WHY PLAYTECK POLYURETHANE SYSTEMS

Polyurethane is designed to perform on race day and be forgiving for daily training. Available in a wide array of colors and textures, Playteck make your dream facility a reality.

- ▶ Polyurethane systems are 100% seamless and full pour polyurethane systems actually bond molecularly to the base
- ▶ Polyurethane is resilient by formulation meaning it won't harden with age
- ▶ Polyurethane self-levels when it's poured, eliminating minor deviations in the asphalt or concrete
- ▶ Can be resurfaced for a fraction of the initial construction cost

TRUSTED

As the trusted choice of the elite programs in Canada, Playteck is the home surface of over 80 facilities across the country.

EXPERIENCED

Renowned for our 9 World Athletics Class II Certified Surfaces (Canadian Leader), we're dedicated to producing high quality surfaces that promote increased athletic performance while respecting the environment.

QUALITY MATERIAL

As the exclusive Canadian partner of Beynon Sports, Playteck surfaces showcase a premier grade product manufactured in an ISO 9001 certified facility.

CONSTRUCTION & INSTALLATION

We live and breathe track & field. Playteck's specialized crews offer unmatched quality and customer service.

BEYNON[®]
A Tarkett Sports Company

BEYNONSPORTS.COM

BEYNONSPORTS.COM

EXPERTS IN TRACK SURFACING

Beynon Sports Surfaces, Inc. is a sole source manufacturer and installer for polyurethane athletic surfacing for indoor and outdoor uses. Beynon has been in business for over 16 years and has over 250 years of combined experience in the design, production and installation of synthetic polyurethane athletic surfaces. Our track and field systems can be found in the world's renowned athletic arenas including the University of Oregon, Hayward Field, site of the 2008 Olympic Trials, and a Class I IAAF Facility, as well as Warm up track for the 1992 US Olympic Trials, Auburn University (Class I IAAF), the University of North Carolina, Duke University, North Carolina State University, Wake Forest University, the University of Maryland, the United States Coast Guard Academy, The University of Wisconsin and the University of Massachusetts to name a few.

MANUFACTURING

Every Beynon track is manufactured in our ISO 9001 certified headquarters in Hunt Valley, Maryland, USA

IAAF PRODUCT CERTIFICATION

WHY BEYNON

VERTICALLY INTEGRATED

Beynon controls all aspects of the manufacturing value chain. From start to finish, your project doesn't leave our hands.

TARKETT SPORTS BRAND

Part of Tarkett Sports, Beynon can offer a full range of additional surfacing products. From FieldTurf artificial turf to Tarkett gymnasium flooring, we have the solution for your project.

EXPERIENCE

With over 2500 installations in North America in the last 10 years, Beynon has been the trusted surface of track and field programs.

DESIGN & CONSTRUCTION EXPERTS

With over 30 factory trained installation crews worldwide, three Certified Track Builders on staff, in-house IAAF testing, as well as a team of designers, Beynon has one of the most experienced and knowledgeable teams in the industry.

UNMATCHED DURABILITY

Manufactured and installed with the highest attention to detail, Beynon's systems showcase proven durability. Numerous Beynon surfaces have seen over 20 years of use.

FINANCIALLY STABLE

Part of Tarkett Sports, a division of flooring giant the Tarkett Group, Beynon has unprecedented financial support and stability. You can rest easy.

TRUSTED

For indoor or outdoor venues, Beynon is the trusted track and field surface of 9/10 NCAA Div I programs and the most high school facilities in North America.

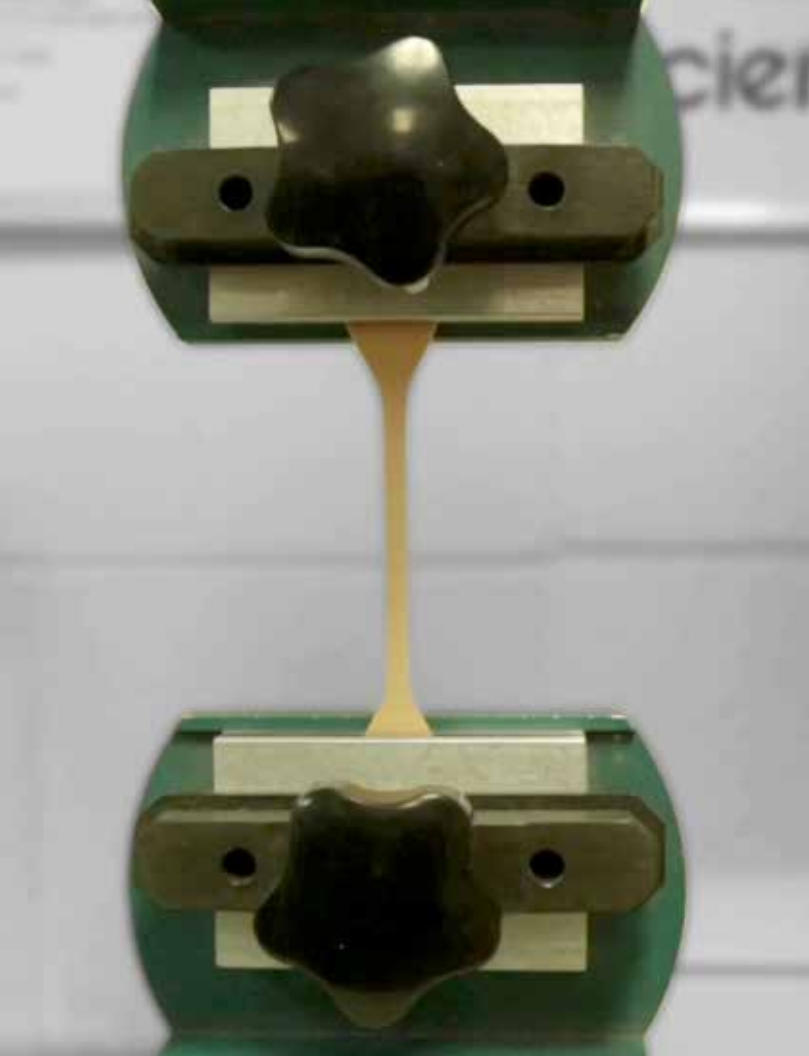

ENDLESS INNOVATION

From the original full pour systems to our resurfacing technology and post-tensioned concrete tracks, our innovations continue to sprint past the competition.

SERVICE

We are as committed to your program as you are, and we're with you for the long term. When you buy a track from Beynon, you're buying from a company that knows how to take care of you. It's what we do best.

WE'RE WITH YOU EVERY STEP OF THE WAY

Beynon controls all aspects of the manufacturing chain, which allows us to create the right product, regardless of the facility. Because our founder's name stands behind each track that we make, we take special care throughout the entire installation process. We do this by only using certified Beynon track installers, specialized equipment, and skilled craftsmen, which ensures impeccable results.

DESIGN

Our team has been involved in the conceptual planning of over 150 collegiate track and field facilities. We work directly with local engineers and architects on your project, adding years of expertise to the planning and execution process.

FORMULATION

Our philosophy on materials selection is simple: use only the best environmentally friendly, bio-based raw materials because we understand that the material choices we make today will affect your athletes for years to come.

MANUFACTURING

Every Beynon track is manufactured in our ISO 9001 certified headquarters in Hunt Valley, Maryland, USA.

INSTALLATION

Only Beynon installation crews and select certified partners are allowed to work on your projects, ensuring superior craftsmanship and quality.
