**ADDENDUM #2**

---

**REQUEST FOR QUOTATIONS (RFQ) No. : 1220-040-2022-086**

**TITLE: SUPPLY AND DELIVERY OF SERVERS**

**ADDENDUM ISSUE DATE: November 22, 2022**

**CLOSING DATE: prefer to receive Quotations on or before  
November 25, 2022.**

---

**INFORMATION FOR CONTRACTORS**

This Addendum is issued to provide additional information to the RFQ for the above-named project, to the extent referenced and shall become thereof. No consideration will be allowed for extras due to the Contractor not being familiar with this Addendum. This Addendum No. 2 contains two (2) pages in total.

**QUESTIONS AND ANSWERS:**

**Q.1.** The R740XD2 holds up to 24 drives but the minimum config requires you to have 12. So we can upgrade to 12 but that would put your drive count up above the estimated quantity listed below in the table. You would need to add 48 more drives total (6 per server, (4 x 4TB and 2 x 8TB)) to cover all 8 R740XD2 Servers. Please advise if you approve putting 12 drives in each of the R740XD2 servers... The good news is that still leaves you lots of capacity add more drives down the road.

**A.1.** Yes, please provide a quote to meet the minimum configuration requirements for the R740XD2 with requested quantity changes specified in the section 9 table and detailed in section 4 of Schedule B.

**Q.2.** The R740XD2 only has option for processors up to 20 cores not the 22 you are asking for. Please advise if your okay with that slightly reduced core count.

**A.2.** Yes, please provide a quote with the option that best fits and specify the changes to the requested specifications in section 4 of Schedule B.

**Q.3.** If you don't agree with changing 1 and 2 above, then the other option you have is to go with all R750's but that would limit your capacity to only 12 drives per server.

**A.3.** Reference A.1. and note any requested specification changes in section 4 of Schedule B.

**– END OF ADDENDUM –**
