INFORMATION FOR CONTRACTORS

This Addendum is issued to provide additional information to the RFQ for the above named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the Contractor not being familiar with this Addendum. This Addendum No. 4 contains two (2) pages in total.

QUESTIONS AND ANSWERS

- Q1:** Would the City of Surrey consider a 1 week extension to the closing date? This will ensure we are able to provide the best response possible to the RFQ.
- A1:** The Closing Date will not be extended further as the City has already extended the Closing Date by approximately four (4) weeks.
- Q2:** Items 3.17, 3.18, 3.19 under heading 3.00 Cab Exterior (page 66) call for provisions and a 15000# winch installed within the front bumper. Item 3.10 calls for a front bumper trash line bin to accommodate 150' of 1.75" hose and fog nozzle. Please confirm we are to include both the trash line hose bin as per item 3.10 and the 15000# winch as per items 3.17-3.19 regardless of whether the unit is a rescue or not?
- A2:** Please provide items as per 3.10 for all units. Please provide the ability to install a winch should the need arise on all units. The winch shall only be supplied for the rescue units.

Q3: Item 1.01 on page 130 describes a 12000# winch recessed into the front bumper for rescue units only (with reference to items 3.17 & 3.18 as described in question 2). Please confirm the desired winch capacity (12000# or 15000#) and whether the winch is required on both the rescue units and triple combo units?

A3: The winch is only required to be supplied for the rescue units. Please use 15000lb as the preferred winch.
