- a rezoning from RF and RM-D to CD; and
- a Development Permit

in order to permit the development of three high-rise apartment buildings and a child care centre at 105A Avenue and West Whalley Ring Road in Surrey City Centre.

#### Delegation

The delegation commented that construction would include using pre-cast concrete of the highest standards. He continued that the concrete panels are bolted to steel frames and have been tested, indicating that they have the highest strength and fire retardant capacities. He added that the design would be checked by the best engineers before being built and that the construction is different from a tilt up system, because panels are attached to a steel frame, becoming a three dimensional structure. He stated that a strong earthquake would not affect the building. He advised that it is a challenge to create the best design, of the best quality at the best price, but added that the project would provide affordable housing of the best standard.

The General Manager of Planning & Development was recommending that the application be approved, subject to the conditions outlined in the report.

Approved by Council: July 19, 2004

- \* Planning & Development advise that (see memorandum dated February 2, 2005 in by-law back-up) the building scheme which has been filed with the City Clerk has been developed by a Design Consultant based on a character study of the surrounding neighbourhood. The building scheme will be registered concurrently with the subdivision plan pursuant to Section 220 of the Land Title Act. A 219 Restrictive Covenant will also be registered to tie the building scheme to the land.
- \* In addition, Planning & Development advise that on December 6, 2004, Council approved amendments to the South Newton NCP to increase the opportunity for small lot residential development. The amendment adds a new land use designation called "Single Family Residential Flex 6 to 14.5 upa". The proposed development is keeping with this new designation, therefore a resolution to amend the South Newton NCP from "Single Family Residential to "Single Family Residential Small Lots" is no longer required.
