Robert Hawkins, 16655 – 64 Avenue, was in attendance and commented that he is the President of the Strata Council for Ridgewood Estates; neighbours immediately to the east of the proposed development. He noted that they have been working with Mr. Rempel and his team for months to arrive at an acceptable interface between the two properties that will work. He added that they were waiting for Mr. Rempel to complete the legal work, however, there was one issue remaining, that of a traffic control light at the intersection of 166 Street and 64 Avenue. He pointed out that his complex has 74 units and the proposed development would have over 200 units, with vehicular traffic exiting to the east and through the intersection. He continued that that intersection is dangerous to use during rush hour.

He advised that he wrote a letter to Mayor and Council two months ago regarding the difficulties at that intersection. He requested Council back Mr. Rempel on his offer to install traffic signals.

Jan Adams, 65 – 16655 – 64 Avenue, was in attendance and expressed concerns over the lack of a traffic light. She continued that there have been three accidents at that intersection, including one experienced by herself. She added that the traffic signals are needed immediately to deter speeding traffic.

Brian Elliott, #20 – 16655 – 64 Avenue, was in attendance and commented that he had concerns relative to increased traffic should the proposal proceed. RES.R05-1773

Carried

He continued that the subject site is located at an intersection which is not a proper intersection. He noted it is a 3-way stop sign intersection, controlled by a pedestrian-activated traffic light, and that anyone making a right or left turn must come to a halt and wait his/her turn until there is an opening. He continued that traffic in the neighbourhood is very heavy and that staff had recommended the driveway to 16 Avenue be closed, with no recommendation to place it elsewhere on the property. He stated that one driveway is insufficient.

He added that the Seaview Pentecostal Assembly church features two driveways on 16 Avenue and 16A Avenue, both of which access local roads. He noted that a survey of the neighbourhood indicated that residents preferred this church to be the only church to access that local road and that an over-concentration of facilities should be avoided. He commented that the Seaview Pentecostal Assembly church has a maximum seating of 300 people and a second church on the same property uses an accessory building, known as "Freedom Hall" which seats 400 people. He noted that both churches hold 10:30 a.m. services and sometimes 11:00 p.m. services, and that allowing three churches to hold 10:30 a.m. services would greatly increase traffic. He stated that it is their opinion that no neighbourhood should have to suffer this type of congestion on a regular basis.

He added that there is also increasing traffic by patrons using the South Surrey swimming pool, soccer and softball fields located at Centennial Park directly across the street from the subject site. He noted that a survey had been undertaken last April and the 10:30 a.m. service held on the Seaview Pentecostal Assembly church property had 110 cars parked in the area and most patrons left via the driveway exiting to 16A Avenue. He expressed concerns regarding the preservation of existing Japanese cherry trees and fencing. He added that their biggest concerns were increased traffic; the residents do not wish a driveway backing onto 16A Avenue; and the site does not comply with the small church locational criteria.

Peter Link, 1662 – 146 Street, was in attendance and commented that the current zoning on the property is residential and the neighbourhood needs some rejuvenating. He continued that putting in another church would not do any good to the neighbourhood. He added that four new homes would help to rejuvenate the neighbourhood and added that he had submitted photos showing the problems. He noted that there had been two illegal suites in the neighbourhood which were visited by the RMCP and By-law officers. He continued that under the current PA-1 zoning, height restriction is at 9 metres or 30 feet.; under the CD zoning, the height restriction would be increased to 30 metres or 98 feet, which was quite a surprise. He requested Council oppose the application.

Ted Haddock, Pastor, 1456 Stevens Street, White Rock, B.C., was in attendance and commented that they do not wish to change the plans. He continued that they had improved the aesthetics of the property; have no intent to have an entrance off 16A Avenue; the cherry trees are on City property; and the fence would be on church property. He added that he believed the church would be a positive addition to the community. He commented that he had attended the open house of March 8, 2005 and listened to concerns raised. He noted that the positive benefits would outweigh the concerns expressed as the church would allow neighbours to use their parking lot when not in use by patrons. He suggested that signage advising residential only parking may help to alleviate any parking issues.

It was

Moved by Councillor Watts

Seconded by Councillor Higginbotham

That the correspondence as submitted by

Ted Haddock be received.

RES.R05-1774

Carried

David Roegele, 2303 Cranley Drive, was in attendance and stated that he did not wish to speak.

Philip Mullin, 1649 – 146 Street, was in attendance and commented that his concerns were related to the traffic problems, and having more than one church in one block, adjacent to each other. He noted there is currently one church in the neighbourhood servicing two or three congregations, with lots of extra events happening. He continued that the area has seen increased traffic due to patrons accessing the local swimming pool, elementary school, driving students to the high school, and Centennial Park. He added that people park on the Surrey side to avoid the 24 hour parking metres, and people are driving over lawns. He added that he feels the neighbourhood has enough traffic and they don't want any more. He noted that guests parking in the church parking lot leave behind garbage and this becomes another gathering place. He added that he would prefer to see four more homes built on the site to stabilize the neighbourhood.

Jimmy Souza, 13690 Marine Drive, was in attendance and commented that he is a member of Foursquare Church. He added that his Pastor had distributed 72 letters introducing himself to the community. He noted that 20 people, representing 17 households attended, expressed opinions, and commented that they did not want rezoning to Public Assembly. He noted that residents are concerned that a private school or child care facility would be added and the facility would grow to 300 people. He added that they are a small church, and do not have a desire to be a school or daycare centre. He noted the residents' fears that once the zoning is attached to the property, new owners could change the use. He continued that they agreed to custom fit the zoning to alleviate their fears. He continued that the proposed Comprehensive Development zoning would prohibit them from having a school or child care facility.

Dennis Bill, 14592 – 17 Avenue, was in attendance and commented that he used to work at Chapel Hill. He added that parking was an issue and many complaints were heard from neighbours. He stated that he did not support the proposed

application; that it would not be an asset to the community. He continued that he is an Auxiliary RCMP officer; has been on highway patrol on 16 Avenue operating speed radar checks and noted that traffic is a huge problem on Sundays. He added that parking on both sides of the street blocks emergency vehicle access. He stated that he did not support the proposal as it was not in the best interest of Surrey.

Gail Bousema, 14637 – 16A Avenue, was in attendance and commented that she appreciates the fervour and passion of the past speakers. She has lived in the area for 25 years and then referenced Appendix 5 of the Planning report indicating neighbourhood opposition. She pointed out that 19 of the 23 supporters live in houses on cul-de-sacs and are not affected by heavy traffic and does not provide a true indication of how the neighbourhood functions. She added that 31 of the approximately 36 opponents live in a high traffic area, and although the Church has attempted to address the neighbourhood's concerns, Policy 61 has failed and is flawed fundamentally. She stated that the application should be declined.

A resident of 1639 – 140 Street, was in attendance and commented that he lives across the parking lot from the Chapel. He added that he disapproves of the application mostly due to the parking problems. He noted that with parking on both sides of the street, he has difficulty backing out of his driveway. He also added that Centennial Park users are parking on the Surrey side to avoid paying parking metres.

Colleen Holmes, 5157 – 223A Street, Langley, B.C., was in attendance and commented that she is a member of Foursquare Church. She added that putting in four new homes would cause more parking problems, and take away a large parking area.
