City of Surrey
PLANNING & DEVELOPMENT REPORT
Application No.: 7921-0292-00

Planning Report Date: July 25, 2022

PROPOSAL:
- Rezoning from RA to IL
- Development Permit
- Development Variance Permit
to permit the development of a 3,500 square metre industrial building.

LOCATION: 12674 – 88 Avenue
ZONING: RA
OCP DESIGNATION: Industrial
RECOMMENDATION SUMMARY

- By-law Introduction and set date for Public Hearing for Rezoning.
- Approval to draft Development Permit for Form and Character
- Approval for Development Variance Permit to proceed to Public Notification.

DEVIATION FROM PLANS, POLICIES OR REGULATIONS

- Proposing to reduce the rear and side yard setback requirements of the IL Zone.

RATIONALE OF RECOMMENDATION

- The proposal complies with the Industrial designation in the Official Community Plan (OCP).
- The proposal complies with the Industrial designation in the Metro Vancouver Regional Growth Strategy (RGS).
- The proposal complies with the Development Permit requirements in the OCP for Form and Character.
- The proposed building achieves an attractive architectural built form, which utilizes high quality, natural materials and contemporary lines. The street interface has been designed to a high quality to achieve a positive urban experience between the proposed building and the public realm.
RECOMMENDATION

The Planning & Development Department recommends that:

1. A By-law be introduced to rezone the subject site from "One-Acre Residential Zone (RA)" to "Light Impact Industrial Zone (IL)" and a date be set for Public Hearing.

2. Council authorize staff to draft Development Permit No. 7921-0292-00 generally in accordance with the attached drawings (Appendix I).

3. Council approve Development Variance Permit No. 7921-0292-00 (Appendix IV) varying the following, to proceed to Public Notification:
   
   (a) to reduce the minimum rear (south) yard setback of the IL Zone from 7.5 metres to 3.9 metres for a garbage enclosure; and
   
   (b) to reduce the minimum side (east) yard setback of the IL Zone from 7.5 metres to 1.5 metres for a garbage enclosure.

4. Council instruct staff to resolve the following issues prior to final adoption:
   
   (a) ensure that all engineering requirements and issues including restrictive covenants, dedications, and rights-of-way where necessary, are addressed to the satisfaction of the General Manager, Engineering;
   
   (b) submission of a road dedication plan to the satisfaction of the Approving Officer;
   
   (c) resolution of all urban design issues to the satisfaction of the Planning and Development Department;
   
   (d) submission of a finalized landscaping plan and landscaping cost estimate to the specifications and satisfaction of the Planning and Development Department;
   
   (e) submission of a finalized tree survey and a statement regarding tree preservation to the satisfaction of the City Landscape Architect;
   
   (f) the applicant satisfy the deficiency in tree replacement on the site, to the satisfaction of the Planning and Development Department; and
   
   (g) Registration of a Section 219 Restrictive Covenant to adequately address the City’s needs with respect to public art, to the satisfaction of the General Manager Parks, Recreation and Culture.
SITE CONTEXT & BACKGROUND

</tr>
</tbody>
</table>

Context & Background

- The site is located at 12674 – 88 Avenue and is 5,827 square metres in area. The site is not within a secondary plan area.

- The site is designated “Industrial” in the Official Community Plan (OCP) and currently zoned “One-Acre Residential Zone (RA)“.

- The site abuts BC Hydro related land uses on three sides, with the BC Hydro works yard being located to the west and south of the site and transmission line being located to the east. There are single family dwellings across 88 Avenue from the subject site.

DEVELOPMENT PROPOSAL

Planning Considerations

- The applicant is proposing to rezone the site from "One-Acre Residential Zone (RA)" to "Light Impact Industrial Zone (IL)“, Development Permit for Form and Character and a Development Variance Permit to reduce setbacks of an accessory structure to permit the development of a tilt-up concrete industrial building.

Referrals

Engineering: The Engineering Department has no objection to the project subject to the completion of Engineering servicing requirements as outlined in Appendix II.

Parks, Recreation & Culture: The closest active park is Inouye Park and is 50 metres away, across 88 Avenue from the subject property. The closest natural area is Mahood (Bear) Creek (41A – Greenbelt), which is located 930 metres to the south of the subject site.

Surrey Fire Department: The Fire Department has no concerns with the proposal in principle. The proposal will be reviewed in further detail during the Building Permit application.

Transportation Considerations

- Vehicle access for the site is proposed as a right-in/right-out access to 88 Avenue to the north.

- As part of the application, the applicant will be required to dedicate approximately a 2.5 metre wide strip of land (approximately 122.91 square metres total) to widen 88 Avenue along the frontage.

- The applicant is required to construct a 4 metre wide multi-use pathway along the property frontage. The Green Timbers Greenway (150 metres to the west across 88 Avenue) and the Newton Greenway (200 metres to the east) are also located in proximity to the site.

- The site is serviced by two transit routes. Bus 323 provides peak frequent service along 128 street between Newton Exchange and Surrey Central Station and stops 200 metres to the east of the site at the intersection of 88 Avenue and 128 Street. Bus 388 provides peak-only services between 22nd Skytrain Station in New Westminster and Carvolth Exchange in the Township of Langley, with service across North Surrey. Bus 388 has an eastbound bus stop located 100 metres east of the site and a westbound stop 200 metres to the east of the site.

Sustainability Considerations

- The applicant has met the majority of the typical sustainable development criteria, as indicated in the Sustainable Development Checklist.

- The applicant has provided a high-albedo roof, with an SRI value of 0.75 to reduce the development’s impact on the urban heat island.

POLICY & BY-LAW CONSIDERATIONS

Regional Growth Strategy

- The proposal complies with the “Industrial” land use designation in the Regional Growth Strategy.
Official Community Plan

Land Use Designation

- The proposal complies with the "Industrial" land use designation in the Official Community Plan (OCP).

Themes/Policies

- Policy E1.6 – Support the infill and redevelopment of under utilized properties within Commercial, Mixed Employment and Industrial land designations.

   The applicant proposes to develop a vacant industrial designated property that is surrounded by BC Hydro land on three sides. The proposal is an appropriate industrial infill development of under-utilized land.

Zoning By-law

- The applicant proposes to rezone the subject site from "One-Acre Residential Zone (RA)" to "Light Impact Industrial Zone (IL)".

- The table below provides an analysis of the development proposal in relation to the requirements of the Zoning By-law, including the "Light Impact Industrial Zone (IL)" and parking requirements.

Yards and Setbacks

| Front (North):      | 7.5 m                     | 7.5 metres |
| Side (East):        | 7.5 m (one side yard setback may be reduce to 0 m if abutting lands designated Commercial, Mixed Employment or Industrial) | 16.3 metres (principal building) |
|                     |                           | 1.5 metres (accessory building) |
| Rear (South):       | 7.5 m                     | 19.7 metres (principal building) |
|                     |                           | 3.9 metres (accessory building) |
| Side (West):        | 7.5 m (one side yard setback may be reduce to 0 m if abutting lands designated Commercial, Mixed Employment or Industrial) | 0 metres |
Setback Variances

- The applicant is requesting the following variances:
  
  o to reduce the minimum rear (south) yard setback of the IL Zone from 7.5 metres to 3.9 metres for a garbage enclosure; and
  
  o to reduce the minimum side (east) yard setback of the IL Zone from 7.5 metres to 1.5 metres for a garbage enclosure.

- The proposed garbage enclosure is proposed to encroach within the 7.5 metre rear (south) and side (east) setback. The proposed location of the garbage enclosure is away from the public realm.

- The land to the south and east of the site owned by BC Hydro and used for their works yard and a transmission line, respectively. Siting the garbage enclosure next to these uses is an acceptable interface.

- Staff support the requested variances to proceed for consideration.

Public Art Policy

- The applicant will be required to provide public art or register a Restrictive Covenant agreeing to provide cash-in-lieu, at a rate of 0.5% of construction value, to adequately address the City’s needs with respect to public art, in accordance with the City’s Public Art Policy requirements. The applicant will be required to resolve this requirement prior to consideration of Final Adoption.

PUBLIC ENGAGEMENT

- Pre-notification letters were sent on March 10, 2022, and the Development Proposal Signs were installed on March 24, 2022. Staff have not received any comments on the proposal.
DEVELOPMENT PERMITS

Form and Character Development Permit Requirement

- The proposed development is subject to a Development Permit for Form and Character.
- The proposed development generally complies with the Form and Character Development Permit guidelines in the OCP.
- The proposal consists of a single two storey industrial building with an office component on the second level.
- The applicant has incorporated several siting and design elements to enhance the building's relationship to the public realm, including:
  - siting parking along the side and rear of the building rather than the front;
  - siting the building at the minimum front yard setback;
  - proposing a hardscaped plaza between 88 Avenue and the building; and
  - designing the building with a significant amount of glazing on the north building elevation, facing 88 Avenue.
- In addition to the at-grade plaza, the building also features a roof top amenity for workers.
- The applicant has proposed over 800 square metres of office floor area, which is a large amount of office space considering the limited types of offices that are permitted in the IL zone. The applicant has indicated that there is sufficient market demand to lease the proposed office floor area.
- The industrial building is proposed to be built using tilt-up concrete construction. The north portion of the building, which faces 88 Avenue, features a significant amount of clear glazing on both the first and second levels. The glazing is accented with a black curtain wall and vertical fins. The remainder of the building is comprised of white tilt-up concrete.
- The applicant has shown the general siting and massing of a free-standing sign. No specific sign design is proposed at this time. The sign is 2.5 metres high by 5.6 metres wide, is proposed in the front yard and complies with the maximum sign area allowance as specified in the Surrey Sign Bylaw.
- Fascia signs are not proposed at this time. Future tenant fascia signage shall comply with the Sign Bylaw.

Landscaping

- The applicant has provided modest landscaping along the front yard, west side yard and rear yard. The applicant has also provided landscape islands every six (6) parking stalls.
• Landscaping generally consists of Trees, shrubs, and ground cover. The applicant has also provided bocci trees, which are an artistic lighting system designed as a tree that features lighting within a glass encased leaves.

Outstanding Items

• There are a limited number of Urban Design items that remain outstanding, and which do not affect the overall character or quality of the project. These generally include coordination between architectural, landscaping, and civil drawing submissions, and improving drawing labeling and clarity.

• The applicant has been provided a detailed list identifying these requirements and has agreed to resolve these prior to Final Approval of the Development Permit, should the application be supported by Council.

TREES

• Tim Vandenberg, ISA Certified Arborist of Mike Fadum and Associates Ltd., prepared an Arborist Assessment for the subject property. The table below provides a summary of the tree retention and removal by tree species:

Table 1: Summary of Tree Preservation by Tree Species:

</tr>
</tbody>
</table>
The Arborist Assessment states that there are a total of 45 mature trees on the site, excluding Alder and Cottonwood trees. 34 existing trees, approximately 43% of the total trees on the site, are Alder and Cottonwood trees. It was determined that no trees can be retained as part of this development proposal. The proposed tree retention was assessed taking into consideration the location of services, building footprints, road dedication and proposed lot grading.

For those trees that cannot be retained, the applicant will be required to plant trees on a 1 to 1 replacement ratio for Alder and Cottonwood trees, and a 2 to 1 replacement ratio for all other trees. This will require a total of 124 replacement trees on the site. Since only 22 replacement trees can be accommodated on the site, the deficit of 102 replacement trees will require a cash-in-lieu payment of $56,100, representing $550, to the Green City Program, in accordance with the City's Tree Protection By-law.

The new trees on the site will consist of a variety of trees including: Japanese Maple, Skyline Honeylocust, European Hornbeam and Serbian Spruce.

In summary, a total of 22 trees are proposed to be retained or replaced on the site with a contribution of $56,100 to the Green City Program.

DATE: July 13, 2022  
PROJECT FILE: 7821-0292-00

RE: Engineering Requirements (Commercial/Industrial)  
Location: 12674 88 Ave

REZONE

Property and Right-of-Way Requirements
- Register 0.5m SRW along the south side of 90 Ave.
- Dedicate 2.5m along 88 Ave
- Dedicate as road (without compensation) 10.058m on 88 Ave from 128 St to 12390 88 Ave.

Works and Services
- Construct 4.0m asphalt Multi Use Pathway on the south side of 88 Ave.
- Construct driveway letdown.
- Construct on-site stormwater mitigation features.
- Provide storm, sanitary and water service connections.
- Restrictive Covenant required for on-site stormwater mitigation features.

A Servicing Agreement is required prior to Rezone.

DEVELOPMENT PERMIT

There are no engineering requirements relative to issuance of the Development Permit.

CITY OF SURREY
(the "City")

DEVELOPMENT VARIANCE PERMIT

NO.: 7921-0292-00

Issued To:

(the "Owner")

Address of Owner:

1. This development variance permit is issued subject to compliance by the Owner with all statutes, by-laws, orders, regulations, or agreements, except as specifically varied by this development variance permit.

2. This development variance permit applies to that real property including land with or without improvements located within the City of Surrey, with the legal description and civic address as follows:

   Parcel Identifier: 001-947-656
   Parcel A (Explanatory Plan 11890) Except: Part Dedicated Road on Plan BCP13574 of Lot 2 Section 30 Township 2 New Westminster District Plan 7847
   12674 – 88 Avenue
   (the "Land")

3. (a) As the legal description of the Land is to change, the City Clerk is directed to insert the new legal description for the Land once title(s) has/have been issued, as follows:

   Parcel Identifier:
   ____________________________________________________________

(b) If the civic address(es) change(s), the City Clerk is directed to insert the new civic address(es) for the Land, as follows:

   ____________________________________________________________
4. Surrey Zoning By-law, 1993, No. 12000, as amended is varied as follows:

(a) In Section F. “Yards and Setbacks” of Part 48 “Light Impact Industrial Zone (IL)” the rear yard setback of an accessory structure is reduced from 7.5 metres to 3.9 metres for a garbage enclosure.

(b) In Section F. “Yards and Setbacks” of Part 48 “Light Impact Industrial Zone (IL)” the side yard setback of an accessory structure is reduced from 7.5 metres to 1.5 metres for a garbage enclosure.

5. This development variance permit applies to only the that portion of the buildings and structures on the Land shown on Schedule A which is attached hereto and forms part of this development variance permit. This development variance permit does not apply to additions to, or replacement of, any of the existing buildings shown on attached Schedule A, which is attached hereto and forms part of this development variance permit.

6. The Land shall be developed strictly in accordance with the terms and conditions and provisions of this development variance permit.

7. This development variance permit shall lapse if the Owner does not substantially start any construction with respect to which this development variance permit is issued, within two (2) years after the date this development variance permit is issued.

8. The terms of this development variance permit or any amendment to it, are binding on all persons who acquire an interest in the Land.

9. This development variance permit is not a building permit.

ISSUED THIS DAY OF , 20 .

____________________________________
Mayor – Doug McCallum

____________________________________
City Clerk – Jennifer Ficocelli
Variance to reduce the rear yard setback of an accessory structure from 7.5 m to 3.9 m and to reduce the side yard setback of an accessory structure from 7.5 m to 1.5 m for a garbage enclosure.
